Notice Regarding Reduction of Strategic Shareholdings

UNISOL Holdings Corporation, hereinafter the "Company" hereby announces that its Board of Directors has today resolved to reduce the strategic shareholdings (cross-shareholdings) held by the Company group, as detailed below.

As part of its commitment to managing the business with an awareness of cost of capital and stock price, the Company strives to maximize corporate value by improving capital efficiency. As part of these measures, the Company continuously reviews and implements the reduction of strategic shareholdings in accordance with its "Corporate Governance Basic Policy Article 6 (Cross-shareholdings)."

1. Policy on Reduction of Strategic Shareholdings

The Company may hold shares for the purpose of building, maintaining, and strengthening long-term and stable business relationships. The Company annually evaluates the significance and economic rationale of holding strategic shareholdings. Under its basic policy, the Company reduces the number of such holdings that are deemed to lack sufficient rationale or significance.

2. Plan has been resolved

The company will proceed with the sale within the scope and timeframe specified below, following constructive dialogue with the investee.

- Scope: shares of 18 companies, with a total book value of approximately 465 million yen (as of the end of December 2025)
- Timeframe: starting today (no specific end date has been set)

3. Future Outlook

If the sale of shares in accordance with the above policy results in gains on sales of investment securities that require timely disclosure, the Company will promptly announce them. Please note that sales may not be executed depending on market conditions, the status of discussions with target companies, or the Company's assessment of holding suitability. Even after the completion of sales under this reduction initiative, the Company will continue to maintain and strengthen its business relationships with the relevant companies.
