- (1) Overview of Business Results for the Three Months Ended June 30, 2025

During the three months ended June 30, 2025, the Japanese economy showed some signs of improvement in employment and income conditions, as well as consumer spending and corporate earnings, and continued its gradual recovery trend. Meanwhile, the outlook remains uncertain due to the risk of a downturn in overseas economies against the backdrop of U.S. trade policies and unstable international situation.

In the housing market, despite ongoing government policies to support housing acquisitions, the number of new housing starts declined year-on-year as high housing prices due to soaring materials and labor costs led to a decline in consumer willingness to purchase houses. On the other hand, the number of used home sales transactions increased year-on-year, particularly in urban areas. The housing loan market was steady due partly to an increase in the amount of borrowings in conjunction with the effects of rising housing prices.

In such a business environment, the Group has been implementing various measures based on the "expansion of core businesses," "entry into related businesses," and "enhancement of corporate value," the basic policies of our medium-term management plan "Next Phase \sim Growth and Value Creation \sim ."

In the expansion of core businesses, we worked to expand our guarantee business in the new housing loan market (organic growth) and to acquire outstanding guarantee exposure from the existing housing loan market (inorganic growth). With regard to the expansion of our guarantee business in the new housing loan market (organic growth), we sought to differentiate ourselves from other companies through means such as revising our product standards. With respect to the acquisition of outstanding guarantee exposure from the existing housing loan market (inorganic growth), we increased our outstanding guarantee exposure through means of ABLs.

In entry into related businesses, we continued measures to utilize Group companies to expand the guarantee area and expand earnings sources in credit management and collection areas. In addition, through corporate venture capital (CVC), we carried out initiatives aimed at creating new value with startup companies that are expected to generate synergies in the housing life field.

For the enhancement of corporate value, we steadily carried out our capital policy and made progress in initiatives to resolve important issues, including investments in human capital.

As a result of such efforts, we recorded operating revenue of ¥11,481 million (up 6.7% year-on year), operating profit of ¥7,712 million (up 5.0% year-on year), ordinary profit of ¥8,652 million (up 6.2% year-on year), and profit attributable to owners of parent of ¥5,999 million (up 6.0% year-on year).

As the Group's only reportable segment is "credit guarantee business," and other businesses are immaterial, segment information is omitted.

(2) Overview of Financial Position for the Three Months Ended June 30, 2025

At the end of the first quarter under review, total assets decreased 3.2% from the end of the previous consolidated fiscal year to ¥476,613 million.

Current assets decreased 16.7% from the end of the previous consolidated fiscal year to ¥133,688 million. This was mainly due to a decrease in cash and deposits.

Non-current assets increased 3.3% from the end of the previous consolidated fiscal year to $$\pm 342,925$$ million. This was mainly due to an increase in long-term time deposits and investment securities.

Total liabilities decreased 2.0% from the end of the previous consolidated fiscal year to ¥248,604 million.

Current liabilities decreased 11.9% from the end of the previous consolidated fiscal year to $\pm 34,804$ million. This was mainly due to a decrease in income taxes payable.

Non-current liabilities decreased 0.2% from the end of the previous consolidated fiscal year to ¥213,799 million. This was mainly due to a decrease in long-term unearned revenue.

Total net assets decreased 4.5% from the end of the previous consolidated fiscal year to ¥228,009 million. This was mainly due to a decrease in retained earnings and an increase in treasury shares as a result of purchase of treasury shares.
