2. Overview of operating results

Operating revenue for the nine-month period ended December 31, 2025 increased 15.0% year on year to ¥18,985 million. Although the number of loans executed for “Flat 35,” our main product, exceeded the results for the same period of the previous fiscal year against the backdrop of the narrowing gap with variable interest rate loans from various financial institutions during nine-month period ended December 31, 2025, origination-related revenue decreased 2.5% year on year due to sluggish growth in the number of variable interest rate loans executed. Recurring revenue increased 18.7% year on year, due to higher loan servicing fee revenue resulting from the acquisition of servicing business from several companies during the previous fiscal year, as well as strong sales from insurance and rent guarantees. Asset and other revenue increased 45.3% year on year, due to an increase in interest income from real estate collateralized loans and other loans of SBI Estate Finance Co., Ltd., a group company, and an increase in revenue from the sale of properties of SBI Smile Co., Ltd.

Operating expenses increased 16.5% year on year to ¥16,510 million, mainly due to an increase of finance costs due to higher funding rates, and an increase in related expenses associated with higher revenue from the sale of properties of SBI Smile Co., Ltd., as well as making Yuryo Loan, Ltd. a wholly-owned subsidiary and the recording of M&A-related expenses. As a result of the above, income before tax increased 8.3% year on

year to ¥2,499 million, net income increased 8.8% year on year to ¥1,697 million, and net income attributable to owners of the parent increased 9.5% year on year to ¥1,714 million.

Note: The information contained in the preliminary financial results for the first nine-month period of the fiscal year ending March 31, 2026, as mentioned above, is based on data available as of the date of this announcement and is not final. The financial figures for the first nine-month period of the fiscal year ending March 31, 2026 scheduled to be announced on February 12, 2026 may differ from these preliminary figures due to various factors.
