1. Basic Views Updated

The Company's Management Principles and Management Strategies

Yamaha Motor's corporate objective is to be a "*Kando** Creating Company." We aspire to offer new excitement and a more fulfilling life for people all over the world. To this end, we provide unique and high-quality products and services made available through our technology to interweave human logic with sensibility by continuously striving to achieve "the unique style of Yamaha Motor's engineering, manufacturing and marketing," aiming at creating "new, original and innovative ideas and messages," "technology that creates joy and trust among customers," "attractive designs to express Refined Dynamism," and "power to build up a lifetime relationship with customers."

We make ongoing efforts to gain recognition from our various stakeholders that "the unique style of Yamaha Motor" constitutes the "Yamaha" brand, and to make our products and services the lifelong preferred choice for stakeholders. We believe that these efforts will enable us to achieve sustainable growth and enhance our medium- to long-term corporate value.

We carry out measures to achieve sustainable growth and enhancement of corporate value under our Long-term Vision, with an eye on the 2030 and the Medium-Term Management Plan that runs for three years from 2019. Specifically, we carry out strategic investments for growth in such efforts as "Rethinking Solution" unique to Yamaha and "Transforming Mobility," as we implement "Advancing Robotics" as our core technologies. We also expand human possibilities and contribute to the realization of better society and more fulfilling life (through our concept of "ART for Human Possibilities").

Under the medium-term management target, we will take on the renewed challenge of achieving net sales of ¥2 trillion by continuing to grow our existing businesses and developing new ones, targeting an operating income ratio at the 9% level. At the same time, we will enhance returns to our shareholders.

**Kando* is a Japanese word for the simultaneous feelings of deep satisfaction and intense excitement that we experience when we encounter something of exceptional value.

Basic Views on Corporate Governance

To ensure the implementation of the Company's growth strategies for the future, Yamaha Motor's Board of Directors establishes an environment that supports management's appropriate risk-taking and decisive decision-making activities, and multilaterally understands and appropriately oversees issues and risks associated with the implementation of the Company's management strategies from the viewpoint of fulfilling responsibilities to various stakeholders including shareholders and investors.

This structure is designed to implement speedy and decisive decision-making, and appropriate, transparent and fair supervision and monitoring as the Company's corporate governance. [Reasons for Noncompliance with the Principles of the Corporate Governance Code]

Yamaha Motor complies with the principles of the Corporate Governance Code.

Principle 1-4

Cross-shareholdings

Basic policies on cross-shareholdings

Yamaha Motor's development, procurement, production, and sales have expanded globally. We believe that strengthening business relationships with business partners and maintaining stable relationships with financial institutions and other parties are necessary for achieving continuous growth. In considering our business strategies, business relationships with our business partners, and enhancement of our financial base, we intend to hold shares under cross-shareholdings when it is deemed necessary and appropriate in order to enhance corporate value from a medium- to long-term perspective.

The Board of Directors annually examines each cross-shareholding to determine whether the purpose of shareholdings is appropriate and if benefits and risks associated with the shareholdings are commensurate with capital costs, among others. The Board of Directors appropriately discloses a summary of the results. In addition, Yamaha Motor upholds a policy to reduce cross-shareholdings if, as an outcome of the examination, the shareholdings cannot be justified.

For the fiscal year under review, Yamaha Motor, based on this policy, examined the appropriateness of holding each issue by the Board of Directors and decided to sell a portion of the shares held under cross-shareholdings.

- Shareholdings of Yamaha Corporation

Yamaha Motor was established by spinning off the motorcycle division from Nippon Gakki Co., Ltd. (current Yamaha Corporation). Today, the two companies' management is conducted separately, with both using the same "Yamaha" brand. We are undertaking various measures in collaboration with Yamaha Corporation through the "Joint Brand Committee" and under the "Yamaha Brand Charter" and "Joint Brand Regulations." Both companies appropriately monitor measures for mutual sustainable growth through shareholdings and dispatching Directors. We believe that maintaining and improving the shared value of the "Yamaha" brand by building a monitoring and collaborating relationship with Yamaha Corporation will contribute to the medium- to long-term enhancement of Yamaha Motor's corporate value.

- Basic policies on exercise of voting rights

Yamaha Motor does not take a uniform approach in determining whether to approve or disapprove when exercising voting rights associated with cross-shareholdings; instead, it thoroughly examines and discusses whether the decisions contribute to the medium- to long-term enhancement of corporate value of the issuing company, and comprehensively assesses potential damage to its own corporate value. We may request further explanations on agenda items when necessary and make decisions on approval or disapproval. We exercise particular caution in examining and discussing our decision to exercise voting rights in the following situations.

- Continued poor business performance;
- Concerns over governance are confirmed, such as scandals; and
- Other situations in which the corporate value of the issuer or Yamaha Motor may be damaged.

Principle 1.7

Related party transactions

When carrying out related party transactions, transactions with competitors, and transactions involving any conflict of interests, we set out appropriate procedures according to the degree of importance and the nature of those transactions as per the Board of Directors' Rules and the Decision-making Rules, etc. The Board of Directors deliberates upon and resolves these transactions to protect the interests of the Company and all of its shareholders. The status of transactions is reported to the Board of Directors, which is in charge of monitoring said transactions.

Principle 2.6

Roles of Corporate Pension Funds as Asset Owners

Yamaha Motor manages its pension assets through THE PENSION FUND OF YAMAHA MOTOR. In order to ensure the stable management of pension assets, the Fund has formulated a "Basic Policy on the Management of Pension Assets." In accordance with this policy, Yamaha Motor carries out initiatives based on the guidelines of the Ministry of Health, Labour and Welfare, including reporting to the Conference of Representatives on the selection of fund managers and the results of evaluations.

In managing the pension assets, the Fund, in an effort to maximize benefits of beneficiaries, consults with the Asset Management Committee comprising members selected from employers and representatives of the

beneficiaries with appropriate qualifications for the management of pension assets, upon hiring asset management consultants and considering their recommendations.

- (3) Board policies and procedures in determining the remuneration of senior management and directors
The remuneration plan for Directors and Executive Officers consists of basic compensation (a monthly compensation), compensation linked to the individual performance, a stock compensation plan reflecting the Company's medium- to long-term consolidated performance, and bonuses of Directors and Executive Officers reflecting short-term consolidated performance. A stock compensation plan allows Directors and Executive Officers to acquire the Company's shares monthly at a certain amount (via the Director Shareholding Association) and to hold them during their term of office. This stock compensation plan is intended to be linked to shareholder value. Directors' bonuses are calculated, up to a maximum of 0.5% of consolidated net income, in correlation with consolidated net income and return on assets for the previous fiscal year, as well as taking into account factors including dividends to shareholders and the level of consolidated performance against the budget.
Based on the policies outlined above, the Executive Personnel Committee, which is involved in nominations and remuneration, deliberates on the level, structure and allocation of basic compensation, compensation linked to individual performance, and the stock compensation plan for Directors and Executive Officers, as well as Directors' and Executive Officers' bonuses. The process and results are proposed to the Board of Directors. The Board of Directors discusses the proposals from the Executive Personnel Committee and makes decisions.
To ensure the transparency and effectiveness of the deliberation process, which is the purpose for establishing the Executive Personnel Committee, as well as to ensure the validity of matters reported to the Board of Directors' meetings, the majority of the members of the Executive Personnel Committee consists of Outside Directors, and the meeting of the Executive Personnel Committee is held more than six times a year, in principle.
- (4) Board policies and procedures in the appointment /dismissal of senior management and the nomination of Director and Audit & Supervisory Board Member candidates

 5. At least one-half (1/2) of Audit & Supervisory Board Members shall be made up of Outside Audit & Supervisory Board Members, including those who have sufficient insight in areas such as accounting, legal affairs and management administration.

Yamaha Motor has established an Executive Personnel Committee, which is involved in nominations and remuneration, as a voluntary advisory body of the Board of Directors, to improve transparency and validity in appointments and dismissals of executives and determining their remuneration, among other objectives. Matters deliberated upon at the Executive Personnel Committee are reported to the Board of Directors.

In the role related to “nominations,” the Executive Personnel Committee deliberates upon the appointments and dismissals of the Chief Executive Officer, Directors, Audit & Supervisory Board Members and Executive Officers, as well as the selection of candidates for such senior management positions and their development plans, while confirming future management strategies and personnel requirements for putting them into practice, among other things.

Basic Policy on Control of the Company

(1) Outline of the Basic Policy

The Company has been producing many market-leading products on a global scale in its business domains including motorcycles, marine products and power products.

Although it takes continuous investment of resources from a long-term perspective to develop proprietary technologies, the highly unique technologies and know-how accumulated in the process, knowledge and information of specific market sectors gained through development effort, and deep relationship of trust with trading partners cultivated over many years through the regular problem-solving efforts as well as high quality

human resources in specialist fields are all enhancing the Company's competitive advantages to an even higher level, which are believed to provide significant management resources promoting its corporate value into the future. The Company's field of activities extends beyond its business operations to activities such as philanthropy and environmental preservation. The Company fully recognizes that a wide variety of business operations coupled with such activities can produce a synergy that builds Yamaha Motor's brand and corporate value. To further enhance such brand value and corporate value, the Company must aggressively introduce new models and develop new value-added products incorporating new technologies. As a prerequisite for creating breakthrough technologies, the Company must strengthen its research and development (R&D) activities. Furthermore, high profitability and growth are projected in the next-generation environmental technologies, such as the development of environment-conscious low-fuel-consumption engines and electric-powered motorcycles. In order to earn profit in these fields of activities, it is crucial to aggressively promote a R&D basis for the foundation of these activities. The Company believes that an acquisition of the Company by parties who poorly understand the elements that comprise the brand and corporate value of the Group (described above) would damage the corporate value and hinder the common interests of the shareholders. Once in control of financial and business decisions, such parties could act only from short-term profit motives and dismantle management policies that have been planned and developed over time from a medium-and long-term perspective. Such actions might include excessive reductions in manufacturing costs, R&D expenses, and other expenditures — all decisions which would damage the Group's competitiveness. Not only the above-mentioned case but also certain acquisition schemes would negatively impact corporate value and work against the common interests of the Company's shareholders.

In order to protect and enhance the Company's corporate value and the common interests of the Company's shareholders, the Company deems it necessary that a would-be acquirer adequately discloses the following information prior to any takeover attempt: the proposed management policy and business plan intended by the would-be acquirer; the impact the takeover proposal would have on the Company's shareholders, the management, and the many stakeholders surrounding the Company; and the acquirer's attitudes toward social responsibilities, including the safety of the products. Furthermore, the Company deems it necessary that reasonable time to examine a takeover proposal, and reasonable negotiation power against the would-be acquirer are secured.

(2) Outline of Special Efforts towards Realizing the Effective Use of the Company's Assets, the Establishment of an Appropriate Corporate Group, and Other Basic Policy

For the achievement of our corporate mission, "*Kando* Creating Company"—to offer new excitement and a more fulfilling life for people all over the world, the Company is working to secure and enhance the corporate value and the common interests of the Company's shareholders by implementing various measures mentioned hereunder, in a planned and consistent way from a medium to long-term perspective.

1. Efforts to enhance corporate value with the Medium-term Plan

The targets under the Medium-Term Management Plan from 2016 for net sales and operating income were not achieved. Under the plan, the Company will continue to grow its existing businesses and develop new ones. At the same time, the Company will take on the renewed challenge of achieving net sales of ¥2 trillion, targeting an operating income ratio at the 9% level. The Company will also actively engage in strategic investments for growth to enhance returns to its shareholders.

2. Efforts to increase corporate value by strengthening corporate governance

- (3) Efforts to prevent the decisions on financial and business policies of the Company to be controlled by parties inappropriate in the light of the Company's basic policy

In order to protect and increase the corporate value and the common interests of the shareholders, the Company implemented the takeover defense measures against attempts of mass acquisition of the Company's shares at the 72nd Ordinary General Meeting of Shareholders held on March 27, 2007. Subsequently, at the 75th Ordinary General Meeting of Shareholders held on March 25, 2010 and the 78th Ordinary General Meeting of Shareholders held on March 26, 2013, the measures were partially revised and continued upon approval of the shareholders. (the measures revised in March 2013 will hereinafter be referred to as the "Plan"). However, at the Board of Directors' meeting held on December 23, 2015, it has resolved to discontinue the Plan after the conclusion of its effective term.

Nevertheless, in the event that any party makes attempts of mass acquisition of the Company's shares after the conclusion of the Plan's effective term, the Company will take appropriate measures in accordance with relevant laws and regulations from the perspective of protecting and enhancing corporate value and the shareholders' common interests such as requesting necessary and sufficient information for shareholders to appropriately judge whether such mass acquisition is justified, disclosing the opinions of the Company's Board of Directors, and securing a sufficient amount of time for shareholders' consideration therewith.

- (4) The decision of the Board of Directors and the grounds for such decision

The Company believes that the efforts stated in (2) and (3) above conform with the basic policy stated in (1) above and are not for the purpose of maintaining the status of the Company's officers.
