The corporate governance of Pan Pacific International Holdings Corporation (the "Company") is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

The Company firmly adheres to its corporate philosophy of “The Customer Matters Most” and strives to enhance corporate governance and compliance while actively carrying out disclosure practices and encouraging a deeper understanding of Pan Pacific International Holdings Corporation as a company coexisting with society. This commitment is integral to enhancing corporate value and is thus a top management priority. Business activities based on a high standard of ethics are crucial to the ongoing survival of a company. With this conviction, we will build and maintain our in-house structures to expedite problem-solving and, when necessary, seek advice from outside experts to establish and support internal controls and ensure that operations are conducted properly. In regard to compliance, the Company will strive to foster an even stronger organizational framework and advance corporate activities while seeking to entrench and enhance initiatives for heightening compliance awareness and reinforcing the accounting, internal audit, monitoring, and investigation departments.

[Reasons for Not Adopting the Principles of Japan’s Corporate Governance Code]

The Company has implemented all of the principles of the Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code]

Principle 1.4 Cross-Shareholdings

The Company holds investment shares for purposes other than a pure investment when it determines that it is possible to build a cooperative relationship with the investee and that it is expected to improve the corporate value of the Group, with respect to the rationality of the investment shares. In addition, the Company makes decisions on holding and selling by comprehensively taking into consideration the relationship with the investee, the transaction status, whether the investment risk is reasonable for the cost of capital, and whether the corporate value of the investee can be expected to improve.

Regarding the voting rights of investment shares held for purposes other than pure investment, we exercise these rights comprehensively, considering whether they can be expected to enhance the interests of our shareholders and the corporate value of the issuing company.

Principle 1.7 Related Party Transactions

If a Director plans to conduct a transaction that competes with the Company or represents a conflict of interest, the Director is required to receive approval from the Board of Directors as stipulated by laws and internal regulations. Furthermore, the Company requires post-fact reports to be submitted to the Board of Directors detailing the progress, results, and other material facts of said transactions and post-fact monitoring frameworks are in place.

Frameworks have also been established to ensure that the Company is aware of all related party transactions through means such as annual investigations of Directors to ascertain any involvement in applicable transactions.

When engaging in other related party transactions, the materiality of each transaction is to be assessed, and discussions are to be held among the Board of Directors as necessary to ensure that transactions do not adversely impact the interests of the Company or its shareholders.

Supplemental Principle 2.4.1 Promotion of Diversity, Including the Advancement of Women in the Workplace

(1) Approach to ensuring diversity

The PPIH Group upholds the principle of “The Customer Matters Most” as a core corporate philosophy and strives to operate stores that meet the diverse needs of its customers. In today’s environment, where consumer values and lifestyles are increasingly diversified, a uniform perspective is insufficient to achieve genuine customer satisfaction. Therefore, it is essential for the Company to embrace diversity in its organizational perspective to earn customer trust and support.

The Company’s store operations are supported by a workforce composed of individuals with diverse backgrounds in terms of age, gender, nationality, and values. Each employee brings unique strengths to the organization. Creating an environment where these individuals can respect one another and collaborate effectively enhances organizational flexibility and creativity, forming a foundation for sustainable growth.

In light of this, the Company has declared “Always acknowledge and respect individual diversity” in its corporate philosophy booklet *Genryu* (The Source), and has identified “Fostering Diversity and Creating an Inclusive and Fulfilling Workplace” as a material issue. The Company is committed to promoting diversity across the entire Group.

The Diversity Management Committee (DM Committee), established in 2020, is chaired by the Director in charge of diversity management and is structured as a cross-functional collaboration among several related departments. The DM Committee plans, drafts and implements measures to promote diversity, such as the creation of an environment in which women can play an active role in all positions including executive and managerial positions, support for LGBTQ+ individuals, promotion of seniors and non-Japanese workers, and

employment of people with disabilities. In addition, to ensure affinity with customers with various values and lifestyles and to create innovations, we do not discriminate in any way based on gender or nationality, and actively promote women and foreign nationals to key managerial positions. In mid-career hiring, we actively hire part-timers as well as hire career personnel. Employees with skills and know-how accumulated outside the Company are important to the Group. Many of these mid-career hires are now working in managerial positions.

(2) Voluntary and measurable goals and their status

More than half of the customers who shop at the Company's stores are women. The Company believes that actively incorporating ideas from a female perspective into store operations and management contributes directly to business growth. To strengthen the integration of female viewpoints in store operations and to foster and retain future female leaders in sales management, the Company has established the following two targets:

1. Increase the number of female store managers to 100 (Applicable to Japan only)

Numerical target: 50 by FY 6/26, and 100 by FY6/30

Progress: 46 female store managers as of June 30, 2025

2. Improve the retention rate of female employees (Applicable to Japan only)

Numerical target (turnover rate): 8.8% by FY6/26, 5% by FY6/30

Progress: 7.3% as of FY6/25

Information regarding the Company's initiatives to achieve the above targets and promote the active participation of diverse talent is available on the Company's sustainability website under Materiality 2: Embracing Diversity and Creating an Inclusive Workplace; <https://ppih.co.jp/en/sustainability/materiality2/>, as well as in the Company's Annual Securities Report, Section 2: Approach and Initiatives Related to Sustainability:

Principle 2.6 Roles of Corporate Pension Funds as Asset Owners

The Company does not have any defined-benefit pension plans, including fund-type or contract-type schemes, nor does it participate in any welfare pension fund plans. However, the Company has introduced a corporate-type defined contribution pension plan for all employees. In addition, the Company provides financial literacy and investment education to support employees in managing their retirement assets effectively.

Principle 3.1 Full Disclosure

(1) Company objectives (e.g., business principles), business strategies and business plans

(2) Basic views and guidelines on corporate governance based on each of the principles of the Code

The Company endeavors to entrench its corporate philosophy— “The Customer Matters Most”—and enhance corporate governance and compliance while also practicing proactive disclosure to encourage a deeper understanding of Pan Pacific International Holdings Corporation as a company coexisting with society. These tasks have been positioned as important objectives for improving corporate value.

Please refer to "1. Basic Views" under "Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information" in this report for more information on the Company’s basic policy on corporate governance.

(3) Board policies and procedures in determining the compensation of the senior management and directors

For the policy and procedures in determining the basic compensation for Directors (excluding Directors who are members of the Audit and Supervisory Committee) and the process for the determination, etc., please refer to 2 "Disclosure of Policy on Determining Compensation Amounts and Calculation Methods".

(4) Board policies and procedures in the appointment/dismissal of the senior management and the nomination of directors

The Board of Directors decides on the selection and dismissal of senior management and the nomination of candidates for Directors (excluding Directors who are members of the Audit and Supervisory Committee). The Company takes into consideration such factors as rapid decision-making in response to the rapidly changing business environment and appropriate risk management and supervision of business execution and comprehensively considering the abilities, experience, and personality of the candidates from the perspective of having the right person in the right place.

Concerning the selection of candidates for Executive Directors, in addition to the above, the Nomination and Compensation Committee, an advisory body, deliberates and recommends prior to the resolution of the Board of Directors.

With regard to the appointment of candidates for Directors who are members of the Audit and Supervisory Committee is decided by the Board of Directors after deliberation by the Nomination and Compensation Committee and consultation with the Audit and Supervisory Committee to ensure a diversity of viewpoints based on personalities, insights, and backgrounds.

Effective October 1, 2025, the Company restructured and clarified the functions of its Nomination and Compensation Committee by establishing two separate committees: the Nomination Committee and the Compensation Committee.

(5) Explanations with respect to the individual appointments/dismissals and nominations based on (4)

Information on appointments and dismissals of members of senior management is disclosed in an appropriate manner in accordance with laws and regulations.

The biographies of candidates for Directors and the reasons for their nomination are included in the reference materials for the General Meeting of Shareholders, and we will continue to enhance the content of the explanations.

The primary business of the Group is retail. A great deal of authority is delegated to frontline operations in order to facilitate swift and flexible responses to the ever-changing operating environment of the retail industry. However, the Company has also established regulations regarding the limits of authority that stipulate the matters for which authority should be delegated to Directors, other managers, and members of senior management based on materiality, transaction amounts, and other factors. Guided by these regulations, the Company strives to enhance governance in business operations.

Candidates must not present the risk of conflicts of interest with general shareholders and are also expected to possess the extensive insight and personality required to effectively fulfill the function of overseeing management from an impartial perspective as an Outside Director to be designated as an Independent Director.

Supplementary Principle 4.11.3 Analyses and Evaluations of Effectiveness of the Board of Directors

The Board of Directors shall evaluate the effectiveness of the Board of Directors at least once a year. The results showed the members of the Board of Directors play an effective role in improving the corporate value over the medium and long term by making appropriate and prompt decisions through active discussions based on the management philosophy, and by exercising strict supervisory functions including monitoring of the internal control system. While the Company's Board of Directors has been positively evaluated for its balanced composition, open discussions, and active involvement of Independent Outside Directors, several areas for improvement have been identified. These include the need to standardize the process for discussing future leadership development, to strengthen medium- to long-term strategic discussions, and to further enhance the governance framework in line with the Company's expanding business scale.

In the preparation, collection, and partial analysis of the questionnaire, we used an external organization to increase the transparency of the evaluation and ensure its effectiveness.

[Strengths of the Board of Directors]

- Balanced composition of the Board with diverse skills, knowledge, and experience
- Environment that enables Independent Outside Directors to fully exercise their roles
- Framework that facilitates open and active discussions and enables prompt decision-making

[Issues identified within the Board of Directors]

- Further enhancement of discussions on the medium- to long-term management strategies and talent development

Going forward, the Company will implement measures to address issues identified based on the evaluation in order to increase the effectiveness of the Board of Directors while enhancing the Company's corporate governance structure.

Supplementary Principle 4.14.2 Policies for Training Directors

The Company appoints Directors that possess the prerequisite insight and experience pertaining to legal affairs, finance, accounting, and a wide variety of other fields and that are thereby able to effectively fulfill their roles and responsibilities. In addition, frameworks are in place to ensure that information is reported and supplied to Directors as necessary after appointment, and Directors are provided with opportunities to receive explanations directly from lawyers, accountants, and other specialists. We also hold training sessions as needed and appropriate.

Principle 5.1 Policy for Constructive Dialogue with Shareholders

As part of its efforts to realize sustainable growth and improved corporate value over the medium to long term, the Company engages in constructive dialogue with shareholders and other investors through investor relations activities to ensure that its management policies and performance are accurately understood.

(1) In order for the IR Executive Officer and the person responsible for handling information reported to the Tokyo Stock Exchange to be aware of important information within the Company, a structure will be established to consolidate information in a coordinated manner with the said officer. The IR division works with Legal, Finance, Accounting, Sales, Property Development and other divisions as necessary to ensure appropriate disclosure of information.

(2) The Executive Officer and division responsible for IR respond appropriately to requests for meetings from analysts and institutional investors and hold quarterly financial results briefings. Outside Directors' Relationship with the Company (2)

Name	Audit and Supervisory Committee	Independent Director	Supplementary Explanation of the Relationship	Reasons for Appointment
Yasunori Yoshimura	○	○	Mr. Yasunori Yoshimura, an Outside Director who serves as an Audit and Supervisory Committee member, is also an Outside Director of mederi Inc. Our company provides financial support for the use of low-dose birth control pills through mederi's online prescription service "mederi for biz" as a welfare benefit. This service is available to female employees and the partners of employees within our domestic group companies. We have introduced this initiative as part of our efforts to create a more conducive working environment for women, supporting their physical and mental health, and enabling them to perform to their fullest potential. The cost of this initiative is approximately 6 million yen (less than 0.01% of our consolidated sales and SG&A expenses), which is minimal. Therefore, we believe that Mr. Yoshimura maintains sufficient independence from our company.	Mr. Yasunori Yoshimura has been appointed as an Outside Director, leveraging his extensive experience in key positions such as special advisor to the Cabinet and president of various academic societies. We believe he will perform his duties as an Audit and Supervisory Committee member appropriately from an objective standpoint. Additionally, we have designated him as an Independent Officer, as we believe he poses no risk of conflict of interest with our general shareholders and is suitable for the role.
Jumpei Nishitani	○	○	-	Mr. Jumpei Nishitani has been appointed as an Outside Director, leveraging his advanced expertise and extensive experience in accounting and economics as a professor in the Faculty of Business Administration at a university. We believe he will perform his duties as an Audit and Supervisory Committee member appropriately from an objective standpoint. Additionally, we have designated him as an Independent Officer, as we believe he poses no risk of conflict of interest with our general shareholders and is suitable for the role.
Isao Kubo		○	-	Mr. Isao Kubo has been appointed as an Outside Director, leveraging his extensive knowledge in business

				management cultivated from his key positions at ITOCHU Corporation and FamilyMart Co., Ltd. We believe he will provide oversight and advice on the execution of Directors' duties from an objective standpoint. Additionally, we have designated him as an Independent Officer, as we believe he poses no risk of conflict of interest with our general shareholders and is suitable for the role.
Masaharu Kamo	○	○	Mr. Masaharu Kamo, an Outside Director who serves as an Audit and Supervisory Committee member, is the Representative Director of Office Kamo Co., Ltd. Our company has a service contract with Office Kamo for training mid-level executives who are potential future leaders of our group. The training covers basic knowledge and concepts of corporate management, organizational operations, and accounting indicators. Developing the next generation of leaders is a critical issue for any company, and this training aims to address that need. Given Mr. Kamo's experience in consulting and as an executive in business companies, he is considered an ideal instructor for this training. The relatively small size of this service contract, which is approximately 9 million yen and represents less than 0.01% of the Company's consolidated sales and SG&A expenses, supports the view that Mr. Kamo maintains sufficient independence from the Company.	Mr. Masaharu Kamo has been appointed as an Outside Director, leveraging his extensive experience and broad insights in corporate management and planning, gained from holding key positions in consulting firms and business companies. We believe he will perform his duties as an Audit and Supervisory Committee member appropriately from an objective standpoint. Additionally, we have designated him as an Independent Officer, as we believe he poses no risk of conflict of interest with our general shareholders and is suitable for the role.
Takaki Ono	○	○	Mr. Takaki Ono, an Outside Director who serves as an Audit and Supervisory Committee member, resigned from his position as Advisor of Sumitomo Mitsui Banking Corporation on August 31, 2024. While the bank is one of our principal lenders, a sufficient period has passed since his resignation, and transactions with the bank do not exert any direct influence on our management decisions. Based on these factors, Mr. Ono is considered to have sufficient independence from the Company.	Mr. Takaki Ono has been appointed as an Outside Director, leveraging his extensive experience and broad insights in the finance and banking sectors, gained from holding key positions in banks. We believe he will perform his duties appropriately from an objective standpoint. Additionally, we have designated him as an Independent Officer, as we believe he poses no risk of conflict of interest with our general shareholders and is suitable for the role.
Naoko Kishimoto	○	○	-	Ms. Naoko Kishimoto has been appointed as an Outside Director, leveraging her advanced expertise and extensive experience as a qualified lawyer, along with her

				insights from working with companies engaged in global transactions. We believe she will perform her duties appropriately from an objective standpoint. Additionally, we have designated her as an Independent Officer, as we believe she poses no risk of conflict of interest with our general shareholders and is suitable for the role.

Following a resolution at the 34th Ordinary General Meeting of Shareholders held on September 26, 2014, the Company abolished its retirement benefits plan for Directors and Audit and Supervisory Board members. At the same time, share-based stock options were introduced for Directors (excluding those who are Audit and Supervisory Committee members) with an exercise price of 1 yen, and has issued these options 7 times to date. This move was aimed at heightening the Directors' motivation and desire to contribute to the Company's medium- to long-term performance and corporate value, by aligning their interests with those of shareholders through the sharing of both the benefits of share price increases and the risks of share price decreases. In addition, approval was received at the same meeting to set an upper limit of 400 million yen annually for share-based stock options, which is to be separate from existing monetary compensation.

Policy on Determining Compensation Amounts and Calculation Methods	Established
--	-------------

Disclosure of Policy on Determining Compensation Amounts and Calculation Methods

1. Basic Policy

The Company's basic policy is to set compensation for Directors in consideration of shareholder interests so that the compensation system functions as an incentive to increase corporate value continuously, and to set the compensation of individual Directors at an appropriate level based on the responsibilities of their positions.

2. Structure of the Compensation System for the Company's Directors

The compensation system for the Company's Directors (excluding Outside Directors and Directors who are members of the Audit and Supervisory Committee) consists of the following; the base remuneration as monthly fixed monetary compensation, performance-linked monetary remuneration as short-term incentive (annual

bonus), and share-based stock options (non-monetary compensation) for the purpose of sharing shareholder interests. In light of their roles, the Company's Outside Directors receive only base remuneration. The compensation system for Directors who are members of the Audit and Supervisory Committee of the Company also consists of base remuneration only, in consideration of their roles.

The base remuneration is a monthly fixed monetary compensation and is determined based on the position and responsibilities of each Director, taking into consideration the level of compensation for Directors at other companies of the same size as the Company, as well as the level of employee salaries, and a comprehensive range of factors.

The performance-linked cash remuneration (annual bonus) as a short-term incentive for the Representative Director shall be linked to the Company's performance for a single fiscal year. In the Company, the performance-linked KPI shall be 'consolidated operating income' from the perspective of improving earnings in the core business. The KPI target for "consolidated operating income" for the fiscal year ended June 2025 was 150.0 billion yen, and the actual result was 162.3 billion yen.

The amount to be paid shall be determined based on the degree of achievement of that budget and shall vary in a ratio of 0% to 150% depending on the degree. Furthermore, for Directors other than the Representative Director, 50% of their remuneration will be linked to the Company's performance, similar to the Representative Director. Additionally, 50% will be linked to individual performance.

The individual performance-linked portion will be assessed based on budget target achievement, reviewed by the Compensation Committee, and the final payment rate, ranging from 0% to 150%, will be determined by the President and Representative Director.

Since the Company determines the necessity of granting share-based compensation on a case-by-case basis, taking into consideration the past results of stock option grants, etc., the Company does not clearly stipulate the ratio of share-based stock options or the timing of their payment. However, the Company will continue to consider the frequency of granting share-based stock options in the future in the context of an appropriate executive compensation system.

The composition of our remuneration structure for the Directors (excluding Outside Directors and Directors who are Audit and Supervisory Committee members) shall be designed based on 70% fixed remuneration as basic compensation and 30% performance-linked remuneration (annual bonus) as short-term incentive compensation.

Regarding the timing of remuneration payments, the fixed remuneration as basic compensation is paid monthly, while the performance-linked remuneration (annual bonus) as short-term incentive compensation is paid after the Company's performance is confirmed and following the conclusion of the annual general meeting of shareholders.

3. Policy on Determination of Individual Compensation

The Company consults its Compensation Committee regarding the determination of individual Director compensation, etc., and the Board of Directors adopts a resolution based on the Nomination and Compensation Committee's report.

However, with respect to base remuneration for Directors other than the President and Representative Director, the Company delegates to the President and Representative Director the authority to determine the final amount of such remuneration, taking into consideration the roles and responsibilities of each individual Director, within the maximum and minimum amounts separately determined by the Board of Directors. The Company also delegates to the President and Representative Director the authority to determine the final payment rate of the performance-linked cash remuneration (annual bonus) for the individual performance-linked portion. To ensure that the delegated authority is properly exercised, the President and Representative Director must fully consult with the Independent Outside Directors through the Compensation Committee.

[Supporting System for Outside Directors]

6 of the Company's 15 Directors are Outside Directors, and 5 Outside Directors are Audit and Supervisory Committee members. The Board of Directors' Secretariat and the Audit and Supervisory Committee Secretariat assist Outside Directors in performing their duties as requested.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Compensation Decisions (Overview of Current Corporate Governance System)

The activities of the Directors (number of meetings held, attendance of individual Directors, etc.) are published on our website (<https://ppih.co.jp/en/ir/governance/system/>).

(1) Board of Directors

The highest decision-making body within the Company with regard to the execution of operations is the Board of Directors, which is chaired by the representative president and meets at least once a month to discuss and determine important issues concerning business activities. The Board of Directors consists of a total of 15 members: 10 Directors (excluding Directors who are Audit and Supervisory Committee members), including 1 Outside Director, and 5 directors who are Audit and Supervisory Committee members, all of whom are Outside Directors.

The Audit and Supervisory Committee is composed entirely of 5 Outside Directors. It audits the execution of duties by Directors and collaborates with the accounting auditor as necessary to ensure effective audits.

Additionally, all of the 6 Outside Directors are appointed as Independent Officers. This allows for the incorporation of a broad range of perspectives from an independent standpoint, free from conflicts of interest with general shareholders, on important matters related to the management of the Company, including the formulation of overall corporate strategies. We believe this structure enables appropriate management decisions.

(2) Compliance Committee

The Compliance Committee is responsible for planning fraud prevention, planning inspections and investigations, verifying the results of inspections and investigations, and sharing and verifying cases of fraud at other companies.

The Committee is chaired by the Executive Officer in charge of Legal Affairs and Compliance. Its members include Satoshi Nakashima, Director, Senior Executive Officer, and Acting CFO; Naoko Kishimoto, Director and member of the Audit and Supervisory Committee; and Executive Officers from related departments, totaling 9 members. Naoko Kishimoto is an Outside Director.

(3) Nomination Committee

The Nomination Committee is established as a voluntary advisory body of the Board of Directors to enhance fairness, objectivity, and transparency in the evaluation and decision-making processes related to the nomination of Directors and other executives, thereby strengthening the corporate governance system. The majority of its members are Outside Directors.

The role of our Nomination Committee is to deliberate and make recommendations in response to consultations from the Board of Directors regarding the appointment and dismissal of Directors, the selection and removal of Representative Directors, and other matters consulted by the Board of Directors. The Nomination Committee consists of 3 members: Jumpei Nishitani, Director (Audit and Supervisory Committee Member) as the chairperson, Hideki Moriya, President and CEO, Representative Director, and Yasunori Yoshimura, Director (Audit and Supervisory Committee Member). Both Jumpei Nishitani and Yasunori Yoshimura are Outside Directors.

Additionally, all of the 6 Outside Directors are designated as Independent Officers in accordance with the regulations of the Tokyo Stock Exchange and have been registered with the Exchange.

The Company has no clear-cut criteria or policies regarding the independence of individuals appointed as Outside Directors. However, in appointing Outside Directors, the Company ensures that they can provide opinions and suggestions regarding management from an outside perspective based on their expertise and experience in management, thereby improving the soundness and transparency of the Company's management. The Company's judgment is based on the premise that the appointment of an Outside Director is sufficiently independent of the Company's management team to enable them to perform their duties as an Outside Director.

(6) Internal Audit Division

The Internal Audit Division, under the direct authority of the Board of Directors, is independent of divisions that execute operations. Based on the audit plan, the Internal Audit Division audits the legality, effectiveness and efficiency of the operations of each department and the Group's subsidiaries and evaluates the internal control over financial reporting.
