(Correction) Notice Concerning Partial Correction to
“Consolidated Financial Results for the Fiscal Year Ended August 31, 2025
(Under Japanese GAAP)”

MANI, INC. hereby announces that certain corrections have been made to the “Consolidated Financial Results for the Fiscal Year Ended August 31, 2025 (Under Japanese GAAP)” disclosed on October 8, 2025, as outlined below.

1. Reason for the Correction

Following the disclosure of the “Consolidated Financial Results for the Fiscal Year Ended August 31, 2025 (Under Japanese GAAP),” during a confirmation process for the Companies Act audit, we held discussions with the audit firm. As a result, it was determined that a more conservative estimate of deferred tax assets would be appropriate. Therefore, we have made the necessary corrections.

2. Details of the Correction

In the consolidated balance sheet, the amount of deferred tax assets has been revised from ¥1,004 million (before correction) to ¥455 million.

Due to the large number of corrections, we are providing the fully corrected document. All corrected sections are indicated with underlines.

Summary of Consolidated Financial Results for the Fiscal Year Ended August 31, 2025 (Based on Japanese GAAP)

October 8, 2025

1. Overview of Operating Results

(1) Explanation of Operating Results for the Fiscal Year Ended August 31, 2025

MANI Group aims to contribute to the well-being of people around the world by providing our products worldwide, based on our commitment: “The Best Quality in the World, to the World.” To achieve further growth, we have started our medium-term management plan from the fiscal year ended August 31, 2022, and are engaged in realizing our corporate philosophy and evolving to “a truly global company” by evolving and transforming our platforms in sales, production, and development functions. The following is a summary of major initiatives during the consolidated fiscal year ended August 31, 2025.

Voluntary product recall of “MANI DIA-BURS” in China

Regarding the “MANI DIA-BURS (Generic name is Dental Diamond Burs)” that the Company manufactures and sells, it was found that part of the product registration information submitted to the Chinese regulatory authorities was incomplete. Therefore, we have decided to conduct a voluntary recall of the affected products. The recall began in March 2025 and was mostly completed by August 2025. The impact on business performance is shown in the table below. Please note that the Company has determined that there are no problems with the quality, efficacy, or safety of the product and that there is no risk of harm to patients' health. The regulatory approval process in China is progressing ahead of schedule, and we expect to regain approval and resume sales of the all dia-burs in the second quarter of the fiscal year ending August 2026 (December to February).

(Millions of yen)		
Impact amount (YoY)	Fiscal year 2025 (Forecast)	Fiscal year 2025 (Results)
Quantity recalled (units)	3.75 million	4.2 million
Sales reduction (YoY)	(1,520)	(1,481)
Decrease in new orders	(1,190)	(1,100)
Returned amount	(330)	(381)
Impact on operating income	(1,200)	(1,192)

Sales progress of the “JIZAI” series

Since 2020, we have been launching “JIZAI,” a NiTi rotary file for dental root canal treatment, as a key product in our medium-term management plan. In September 2024, we added “JIZAI 020 04,” an intermediate-sized file, to the JIZAI series lineup, enabling a level of usability in treatment sequences that is unmatched by competitors. Furthermore, in June 2025, we began selling sterilized JIZAI series products in Europe and North America.

Sales for the JIZAI series increased by 56% year-on-year, with expansion primarily in Japan, India, Vietnam, and Western markets. Looking ahead, we plan to launch in China by September 2026 and will continue to strengthen the product lineup.

Strategic partnership with MicroSurgical Technology (MST)

In April 2025, we entered into a strategic partnership agreement with MicroSurgical Technology (hereinafter “MST”), a U.S.-based medical device manufacturer, for the sales of ophthalmic knives and custom packs in the United States. For further details, please refer to the following notice disclosed on April 18, 2025.

Malaysian Sales Subsidiary as the Regional Headquarters for Asia

From September 1, 2025, the existing Malaysia sales subsidiary began operations as the Asia regional headquarters, “MANI ASIA SDN. BHD,” (hereinafter “MANI ASIA”). For further details, please refer to the following notice disclosed on August 5, 2025.

URL Link: <https://ssl4.eir-parts.net/doc/7730/announcement2/113075/00.pdf>

Operating results for the fiscal year ended August 31, 2025

Net sales were ¥29,968 million, which increased 5.1% year on year. This increase was driven by two positive factors. Firstly, there were strong sales of Surgical products, such as ophthalmic knives, in Europe, Asia, particularly in China, Japan, and North America. Secondly, there was an increase in sales of Eyeless Needle products in other regions, such as Asia, particularly in China and Thailand, and Central and South America (mainly sales by North American customers with production bases in Central and South America). On the other hand, the sales of Dental products were weak, mainly due to the impact of the voluntary recall of dia-burs in China (as stated above) and poor sales performance of the German subsidiary MANI MEDICAL GERMANY GmbH (MMG) in Europe. While gross profit was ¥19,317 million (up 7.9% year on year), selling, general and administrative expenses were ¥11,124 million (up 17.0% year on year) due to the posting of performance-linked bonuses associated with the results from the previous fiscal year, strengthening of sales, development, and corporate functions, and an increase in domestic personnel. As a result, operating income was ¥8,193 million (down 2.4% year on year). Although foreign exchange gains were recorded, ordinary income was ¥8,271 million (down 2.3% year on year) due to increased depreciation costs related to the Hanaoka Factory (Smart Factory), including unoperated land-related costs. Profit attributable to owners of parent was ¥4,643 million (down 26.1% year on year) due to the recording of an impairment loss of ¥1,190 million on MMG's non-current assets as an extraordinary loss.

The following is an overview of financial results by segment. Segment sales figures are those from external customers.

	Net sales		Segment income (Operating income)	
	Millions of yen	Year on year	Millions of yen	Year on year
Surgical products	9,274	13.8%	3,080	16.6%
Eyeless Needle products	11,183	9.4%	4,002	3.4%
Dental products	9,509	(6.2%)	1,110	(40.9%)
Consolidated total	29,968	5.1%	8,193	(2.4%)

(Surgical products)

The segment sales were ¥9,274 million (up 13.8% year on year), and the segment income was ¥3,080 million (up 16.6% year on year). Segment sales and income have increased from the previous fiscal year due to a growth in sales for ophthalmic knives used in cataract surgery, mainly in Europe, Asia, particularly in China, Japan, and North America.

(Eyeless Needle products)

The segment sales were ¥11,183 million (up 9.4% year on year), and the segment income was ¥4,002 million (up 3.4% year on year). Segment sales and income have increased from the previous fiscal year due to continued growth in purchase orders in Asia, particularly in China and Thailand, and other regions, such as Central and South America (including sales by North American customers with production bases in Central and South America).

(Dental products)

The segment sales were ¥9,509 million (down 6.2% year on year), and the segment income was ¥1,110 million (down 40.9% year on year). Sales declined significantly due to the voluntary recall of dia-burs in China. However, sales growth in other dental products such as reamers/files, along with dia-bur sales outside China, has increased 20.4% year on year in regions including Russia and Japan. Sales of MMG products, which are mainly dental restoration materials, remained weak, especially in Europe.

Segment income has decreased substantially due to lower sales and higher selling, general and administrative expenses, including personnel expenses and sales promotion expenses at sales subsidiaries.

(2) Explanation of Financial Position and Cash Flows for the Fiscal Year Ended August 31, 2025**i). Financial position**

(Millions of yen)

	As of August 31, 2024	As of August 31, 2025	Change
Total assets	57,177	57,987	810
Current assets	31,942	29,978	(1,963)
Non-current assets	25,235	28,009	2,774
Liabilities	4,846	4,425	(420)
Net assets	52,330	53,561	1,231

Total assets as of the fiscal year ended August 31, 2025 stood at ¥57,987 million, an increase of ¥810 million from the end of the previous consolidated accounting period. This was primarily due to an increase of ¥2,774 million in non-current assets (mainly an increase of ¥4,995 million from the construction of the Smart Factory, offset by a decrease of ¥1,246 million from impairment of buildings and land at MMG) and a decrease of ¥1,963 million in current assets (mainly a decrease in cash and deposits of ¥3,219 million due to capital expenditures related to the Smart Factory, while other current assets, including consumption tax receivable, increased by ¥926 million).

Total liabilities as of the fiscal year ended August 31, 2025 stood at ¥4,425 million, a decrease of ¥420 million from the end of the previous consolidated accounting period. This was primarily due to a decrease in accounts payable.

Total net assets as of the fiscal year ended August 31, 2025 stood at ¥53,561 million, an increase of ¥1,231 million from the end of the previous consolidated accounting period. This was primarily due to a decrease in retained earnings from dividend payments of ¥3,841 million, an increase from net income attributable to owners of the parent of ¥4,643 million, and an increase of ¥424 million in foreign currency translation adjustments due to the depreciation of the yen.

ii). Cash flows

(Millions of yen)

	Year ended August 31, 2024	Year ended August 31, 2025	Change
Cash flows from operating activities	7,810	7,017	(793)
Cash flows from investing activities	(6,642)	(7,154)	(512)
Cash flows from financing activities	(3,703)	(3,895)	(192)
Effect of exchange rate change on cash and cash equivalents	(245)	417	662
Cash and cash equivalents at beginning of period	23,798	21,017	(2,780)
Cash and cash equivalents at end of period	21,017	17,401	(3,615)

During the fiscal year ended August 31, 2025, the cash flows and factors contributing to those amounts are as follows.

(Cash flows from operating activities)

Cash inflows from operating activities were ¥7,017 million (down 10.2% year on year). This was primarily due to a decrease in operating cash inflow from decreased profit before income taxes, as well as an increase in operating cash outflow resulting from payments such as provisional consumption tax for the Hanaoka Factory building and settlement of accounts payable.

(Cash flows from investing activities)

Cash outflows from investing activities were ¥7,154 million (up 7.7% year on year). This was primarily due to a cash outflow from increased purchases of property, plant and equipment related to the Hanaoka Factory.

(Cash flows from financing activities)

Cash outflows from financing activities were ¥3,895 million (up 5.2% year on year). This was primarily due to a cash outflow from increased dividend payments.

(3) Future OutlookAssumed exchange rates

The assumed exchange rate is set at a strong yen level in consideration of the exchange rate fluctuation risks expected in 2024.
(1 USD = 143.00 JPY, 1 EUR = 161.00 JPY, 1 CNY = 20.00 JPY, 1 INR = 1.70 JPY)

Our Group's overseas sales ratio is approximately 84% (as of the fiscal year ended August 31, 2025), and the appreciation of the yen poses a revenue reduction risk. On the other hand, most of our manufacturing processes have been transferred to Vietnam and other Southeast Asian countries. When factoring in our overseas sales subsidiaries, a stronger yen leads to lower foreign currency-denominated costs, including cost of sales, selling, general administrative expenses. As a result, fluctuations in exchange rates have a mitigated impact on gross profit and operating income, allowing us to maintain a stable business model that consistently generates operating income.

Net sales: ¥32.8 billion (up 9.4% year on year)

Surgical products: Sales of ophthalmic knives, which are used in cataract surgery, will increase mainly in North America, Europe, and Asia, especially in China. Particularly, in North America, we expect steady sales growth through joint sales activities for ophthalmic knives between our U.S. sales subsidiary, MANI MEDICAL AMERICA, INC., and U.S. medical device manufacturer MST.

Eyeless Needle products: Sales of eyeless needles will gradually increase, mainly in Asia, Central and South America, and North America.

Dental products: The impact of the previously mentioned voluntary recall of dia-burs in China has subsided in the fiscal year ended August 31, 2025, and we expect a full recovery in sales from the fiscal year ending August 31, 2026. In addition, we expect sales of reamers/files and dia-burs to increase due to sales expansion activities in emerging markets in Asia, mainly India and Malaysia, as well as sales of MMG products, which are mainly dental restoration materials.

The negative impact of U.S. tariff policy is expected to be about ¥200 million.

Cost of sales: ¥11.4 billion (up 7.0% year on year)

While material and labor costs at overseas production subsidiaries and manufacturing costs for the full-scale operation of the Hanaoka Factory, the cost of sales ratio will improve due to the subsiding impact of the voluntary recall of dia-burs in China in the fiscal year ending August 2025 and ongoing productivity improvement efforts.

Selling, general and administrative expenses: ¥12.2 billion (up 9.7% year on year)

Selling, general and administrative expenses will increase significantly due to an increase in expenses for strengthening sales activities at local subsidiaries in North America and India, and an increase in expenses related to reinforcing the structure of our corporate and quality assurance (regulatory affairs) departments and business development.

Operating income: ¥9.2 billion (up 12.3% year on year)

In addition to the recovery in sales from the resale of dia-burs in China, the expansion of business in each product segment is expected to absorb the increase in selling, general and administrative expenses, resulting in higher operating profit.

Forecast of Consolidated Business Results

	Net sales (Millions of yen)	Operating income (Millions of yen)	Ordinary income (Millions of yen)	Profit attributable to owners of parent (Millions of yen)	Net income per share (yen)
Year ended August 2026 (Forecast)	32,800	9,200	8,950	6,450	65.48
Year ended August 2025 (Actual)	29,968	8,193	8,271	4,643	47.14
Year on year	9.4%	12.3%	8.2%	38.9%	38.9%

Disclosure of New Medium-Term Management Plan

For details on the progress of the current medium-term management plan and the next medium-term management plan starting from the fiscal year ending August 2026, please refer to the announcement "Medium-Term Management Plan 2029 ~Toward New Growth~" released on October 8, 2025.

(4) Basic Policy on Profit Distribution and Dividends for the Current and Next Fiscal Years

For the current fiscal year, there will be no change from the initial forecast, and the dividend will be set at 39 yen per share (¥16 interim dividend, ¥23 year-end dividend).

For the next fiscal year, we plan to increase the dividend by ¥2, resulting in ¥41 per share (¥17 interim dividend, ¥24 year-end dividend). By executing the financial management outlined in the medium-term management plan announced on October 8, 2025, we aim to achieve stable dividend increases and enhance shareholder returns.

2. Basic Policy Regarding Selection of Accounting Standards

Our Group policy is to prepare its consolidated financial statements in accordance with Japanese GAAP for the time being, considering the comparability of the consolidated financial statements between periods and between companies.

Our Group's policy on applying International Financial Reporting Standards (IFRS) is to respond appropriately based on considerations of various conditions in Japan and overseas.

(5) Notes to Consolidated Financial Statements

(Notes on Premise of Going Concern)

Not applicable.

(Segment Information, etc.)

[Segment Information]

1. Overview of reportable segments

The reportable segments of the Group are constituent units of our Group for which separate financial information is obtainable. These segments are periodically examined by decision-making bodies, such as the Board of Directors, for deciding the allocation of management resources and evaluating business performances.

Our Group formulates comprehensive strategies and conducts business activities in domestic and overseas markets relating to the products it handles.

Therefore, our Group consists of product segments based on manufacturing and sales systems. The three reportable segments are Surgical products, Eyeless Needle products, and Dental products.

The major products belonging to each reportable segment are as follows.

Reportable segments	Major products, etc.
Surgical products	Surgical instruments
Eyeless Needle products	Needles for surgical sutures, surgical sutures, surgical needles
Dental products	Root canal treatment instruments, dental endodontic rotary cutting instruments, dental materials

2. Calculation methods for the amounts of sales, income or loss, assets, liabilities, and other items by reportable segment

The reported accounting method for reportable segments is generally the same as the accounting method of consolidated financial statements.

Profits of reportable segments are figures based on operating income. Intersegment sales or transfers are calculated based on production costs.

As assets are not allocated to business segments, descriptions of assets are omitted.

3. Information on net sales, income or loss, assets, liabilities and other items by reportable segment

Fiscal year ended August 31, 2024 (September 1, 2023, to August 31, 2024)

(Millions of yen)

	Reportable segments				Adjustments	Amount on the consolidated financial statements (Note)
	Surgical products	Eyeless Needle products	Dental products	Total		
Net sales						
Revenues from external customers	8,152	10,222	10,139	28,513	—	28,513
Transactions with other segments	—	0	—	0	(0)	—
Total	8,152	10,222	10,139	28,514	(0)	28,513
Segment profit	2,640	3,872	1,878	8,392	—	8,392
Other items						
Depreciation	484	776	1,009	2,270	—	2,270

Note: 1. Segment income is adjusted for operating income on the consolidated financial statements.

2. Segment assets are not stated because segment assets are not allocated to business segments.

Fiscal year ended August 31, 2025 (from September 1, 2024 to August 31, 2025)

(Millions of yen)

	Reportable segments				Adjustments	Amount on the consolidated financial statements (Note)
	Surgical products	Eyeless Needle products	Dental products	Total		
Net sales						
Sales to external customers	9,274	11,183	9,509	29,968	—	29,968
Intersegment sales or transfer	—	1	—	1	(1)	—
Total	9,274	11,184	9,509	29,969	(1)	29,968
Segment profit	3,080	4,002	1,110	8,193	—	8,193
Other items						
Depreciation	545	762	940	2,249	222	2,471

Note: 1. Segment income is adjusted for operating income on the consolidated financial statements.

2. Segment assets are not stated because segment assets are not allocated to business segments.

3. Depreciation adjustment of ¥222 million primarily consists of depreciation expenses not attributable to any reportable segment.
