[Reason for not implementing each principle of our Corporate Governance Code]

◆ Principle 3-1-3

[Disclosure based on each principle of our Corporate Governance Code]

◆ Principle 1-4 (Cross-shareholdings)

With respect to shares held for purposes other than pure investment, the Company policy is to hold shares when the following conditions are met, and will consider selling the shares if it determines that the conditions are not met.

(i) There are reasonable reasons for holding, such as business alliances and the maintenance and enhancement of transactions.

(ii) The shares of cross-held stocks provide profitability, such as a sound financial position and dividend yields from the issuers of such stocks.

The Board of Directors, at its meeting held in May 2025, verified individual stocks and confirmed that there was a certain level of rationality in the holdings.

When exercising voting rights, the Company carefully examined such individual stocks in terms of earnings, payout ratio, and ROE level, etc.

◆ Principle 1-7 (Transactions between interested parties)

Company regulations stipulate that transactions between interested parties are subject to prior deliberation at the Board of Directors. In addition, the Company verifies all the officers of the Company and its subsidiaries to determine whether they have been involved in a transaction between interested parties.

◆ Principle 2-4-1

The Company considers that securing personnel diversity is essential for its sustainable growth and further medium- to long-term corporate value, and positions diversity promotion as an important management agenda.

To achieve this, we are working on the following:

1. Recruitment and development of workforce

The Company actively hires personnel with diverse experience, skills and career backgrounds, regardless of gender, nationality, and values, etc.

In terms of workforce development, the Company provides growth opportunities by objective, such as level-specific training, education and training, and skill improvement training for each department. To support independent growth, we have introduced a personnel system that offers career paths and an incentive system for acquiring qualifications in languages and a wide range of other qualifications.

This is to secure and develop diverse personnel who can implement growth strategies.

2. Improving the internal environment

The Company is working to improve the environment and organizational culture in which diverse workforce can work in comfort by establishing diverse work styles (remote work, shorter working hours, annual leave by the hour, etc.) according to individual employee backgrounds and lifestyles, providing training and education programs, educating employees about the acceptance of diversity through the inhouse intranet and disseminating information on various systems to further mutual understanding among employees.

3. Promotion of women, foreign nationals, and mid-career personnel to key positions, etc.

(i) Promotion of women to key positions, etc.

The Company's "Action Plan Based on the Act on Advancement of Measures to Support Raising Next-Generation Children and the Act on the Promotion of Women's Active Engagement in Professional Life" has set forth a target of hiring 25% or more women employees to further encourage the employment of women in the workplace.

As of the end of March 2025, 17.5% of all employees were women, while women managers account for 3.7% of all managers. The Company will actively hire and promote women to key positions so that 5% or more of key positions are held by women by 2030.

(ii) Promotion of foreign nationals to key positions, etc.

The Company hires foreign nationals as needed in accordance with its business strategy to expand its overseas market share.

As of the end of March 2025, 1.3% of all employees were foreign nationals. However, no foreign nationals hold management positions. Currently, the percentage of foreign employees is low and they are not being promoted to key positions, so the Company aims to increase the hiring of foreign nationals to raise the percentage of foreign nationals based on its business strategy in order to promote them to key positions.

(iii) Promotion of mid-career hires to key positions, etc.

The Company actively hires industry-ready specialists and experienced professionals, and promotes them to key positions in respective departments and overseas subsidiaries, etc.

As of the end of March 2025, 30.6% of all managers were mid-career employees. There is no specific target for the hiring and promotion of mid-careers because the Company has hired a certain number of mid-career employees and promoted them to key positions.

◆ Principle 2-6 (Roles of corporate pension funds as asset owners)

The Company has established an Asset Management Committee to deliberate on important matters for the safe and efficient management of defined benefit corporate pension plan assets, and to monitor the status of investments made by asset management and investment companies and manage any conflicts of interest. From a workforce development perspective, the Company regularly offers employees with opportunities to participate in external seminars, etc.

◆ Principle 3-1 (Enhancement of disclosure)

(1) [Management Strategy] The RIKEN KEIKI Group (the "Group") promotes development, production, and sales activities to visualize invisible hazards posed by gases, aiming to "We are a pioneer in creating safe working environments for workers."
