(Correction) FY2025 3rd Quarter Financial Results

We hereby announce the correction of its FY2025 3rd Quarter Financial Results disclosed on February 6, 2026. This correction has already been reflected in the presentation materials (PDF) available on our IR website. There are no changes to the consolidated financial results and the figures disclosed in the earnings report.

1. Reason of the Correction

We hereby correct this, as the third-quarter actual figures were mistakenly entered in the section for the full-year forecast figures.

2. Detail of the Correction

For the specifics regarding the correction, please refer to the next page. The corrections are framed in red.

【Before correction】

FY2025 Full-Year Earnings Forecast

- The Metals Division's steel and aluminum/copper handling volumes showed an upward trend, supported by the recovery in Japanese automobile production.
- In the Ferrous & Recycling Materials Unit, operations at overseas coal mines in which we hold stakes resumed, and operations at biomass power plants are also scheduled to resume soon.
- The Machinery Unit is expected to see increased profits for the full year, with continued strong performance in the delivery and maintenance/service of machinery and equipment such as non-standard compressors and heat pumps.
