Notice Concerning the Acquisition of All Shares of TOPAS electronic AG and Its Conversion into a Subsidiary

RYODEN CORPORATION (head office: Chiyoda-ku, Tokyo; President and Representative Director: Katsuyuki Tomizawa; hereinafter the “Company”) hereby announces that, with the aim of strengthening the growth foundation of its overseas business through the acquisition of a customer base and technical support capabilities in the European market, it has acquired all of the shares of TOPAS electronic AG (head office: Hannover, Federal Republic of Germany; hereinafter “TOPAS”) and made it a consolidated subsidiary in July 2026. Details are set out below.

1. Background and reasons for the share acquisition

In its medium to long-term management plan “ONE RYODEN Growth 2029 | 2034”, the Company positions the capture of markets through strategic investment, both in Japan and overseas, as one of its key management strategies.

In its overseas strategy in particular, the Company is deploying globally the environmental control, AI and robotics, and other solutions it has cultivated in East Asia, while also promoting an “Out to Out” business in which products and technologies sourced overseas are rolled out to the markets of each region through the overseas bases of the Company’s group (the “Group”).

By strengthening its business platform tailored to customer needs in each region, and by leveraging the Group’s product lineup, technical support capabilities, and solution-proposal capabilities, the Company intends to develop its overseas bases into hubs for business creation that go beyond a purely sales function.

Against this background, the present transaction represents an important initiative for advancing the Company’s European strategy and achieving business growth that draws on a local customer base and technical support capabilities.

TOPAS is based in Hannover, Federal Republic of Germany, and supplies semiconductors to fields including industrial equipment, telecommunications, medical, and measurement and control in Europe. In the systems and services domain, it also provides unified-communications*-related solutions and operates a maintenance and support business. The company has built a base of business with European customers over many years, and its strengths lie in its technical support capabilities, customer responsiveness, and supplier relationships.

Through this share acquisition, the Company aims to expand business opportunities in the European market by combining the European customer base and the sales and technical support functions held by TOPAS with the procurement capabilities, solution-proposal capabilities, and private-brand product offering held by the Group in Japan, Asia, and the United States. In addition, the Company will deploy the Group’s products and solutions to

TOPAS's existing customers and connect the Group's suppliers and technical resources to the European market, thereby driving business growth on a global basis.

* Unified communications: a foundational technology that integrates dispersed communication channels such as telephone, email, chat, and web conferencing into a single platform, creating an environment in which people can communicate through the optimal means regardless of time or place.

2. Overview of TOPAS

(1) Acquisition target company	TOPAS electronic AG
(2) Location	Großer Kolonnenweg 18C3, D-30163, Hannover, Germany
(3) Representative	Ulf Zell
(4) Business description	Sale of semiconductors to fields including industrial equipment, telecommunications, medical, and measurement and control in Europe, together with a unified-communications-related systems and services business
(5) Established	1978: Founded as TOPAS GmbH 1984: Renamed to TOPAS electronic Vertriebsgesellschaft mbH 2018: Reorganized as TOPAS electronic AG
(6) Share capital	EUR 750,000
(7) Ownership ratio after acquisition	100%
(8) Date of contract execution	June 29,2026
(9) Date of share acquisition	July 1,2026
(10) Acquisition price	This information is not disclosed due to a confidentiality agreement with the counterparty
(11) Most recent net sales	EUR 18,080 thousand (fiscal year ended June 2025)

3. Overview of accounting treatment

This transaction constitutes an "acquisition" for the purposes of business combination accounting. The allocation of the acquisition cost and the amortisation periods for the goodwill and intangible fixed assets arising from it are currently under detailed review.

4. Future outlook

Following the share acquisition, the Company will establish a framework of cooperation with the Group while respecting the business platform and the customer and supplier relationships that TOPAS has cultivated to date.

The Company will advance proposals to TOPAS's existing customer base that combine the Group's electronic devices, private-brand products, systems, and services, and will mutually leverage the Group's procurement capabilities in Japan, Asia, and the United States together with TOPAS's customer touchpoints and technical support capabilities in Europe, thereby seeking to expand business opportunities in the European market.

The impact of this transaction on the Company's consolidated results for the current fiscal year is minor at this time. Should any matters requiring disclosure arise in the future, the Company will provide notice promptly.
