(4) Policy for Organizational Restructuring, etc. After the Tender Offer

② Share Consolidation

(Before Change)

<Preceding text omitted>

If the proposal for the Share Consolidation is approved at the Extraordinary Shareholders' Meeting, each shareholder of the Target Company will hold the number of Target Company Shares corresponding to the ratio of the Share Consolidation approved at the Extraordinary Shareholders' Meeting on the date on which the Share Consolidation becomes effective. If fractional shares of less than one share arise as a result of the Share Consolidation, the shareholders of the Target Company who hold such fractional shares will receive an amount of money obtained through the sale of the Target Company Shares equivalent to the total number of such fractional shares (if the total number includes fractional shares of less than one share, such fractional shares shall be rounded down; the same applies hereinafter) to the Target Company or the Tender Offeror, or through other means, in accordance with the procedures prescribed in Article 235 of the Companies Act and other relevant laws and regulations. With respect to the sale price of the Target Company Shares equivalent to the total number of such fractional shares, the Tender Offeror intends to request the Target Company to file a petition with the court for permission to make a voluntary sale, after calculating such price so that the amount of money to be delivered to the shareholders of the Target Company who did not tender their shares in the Tender Offer (excluding, however, the Tender Offeror and the Target Company) as a result of such sale will be equal to the price obtained by multiplying the Tender Offer Price by the number of Target Company Shares held by such shareholders. In addition, while the ratio for the Share Consolidation is undetermined as of today, the Tender Offeror intends to request the Target Company to determine such ratio so that the number of Target Company Shares held by the shareholders of the Target Company who did not tender their shares in the Tender Offer (excluding, however, the Tender Offeror and the Target Company) will become fractional shares of less than one share, in order for the Tender Offeror to hold all of the Target Company Shares (excluding, however, treasury shares held by the Target Company). According to the Target Company Press Release, the Target Company intends to comply with these requests by the Tender Offeror if the Tender Offer is completed. If the Extraordinary Shareholders' Meeting is to be held, it is planned to be held around late September 2026; however, the specific procedures and timing of implementation will be determined through consultation with the Target Company, and the Target Company will promptly announce the details once decided. The Target Company intends to comply with these requests by the Tender Offeror if the Tender Offer is completed.
