#### 2. Comments for the Current Month

Amid continued inflation, our pricing measures—price reductions on NB products and a price freeze on PB products—proved effective.

Existing-store sales increased 7.0% year-on-year, marking 18 consecutive months of growth, while customer traffic at existing stores rose 3.7%, marking eight consecutive months of growth.

Sales were strong in daily necessities, including processed foods, kitchenware, detergents, and pet food, as well as air conditioners driven by an early purchase campaign.
