Proposals from Our Shareholders (Proposal No. 3)

Proposal No. 3 was made by a single shareholder. The outline of the proposal and the reasons for the proposal are presented as they appear in the original text. **The Board of Directors of the Company is against this proposal.** For reasons of opposition, please refer to page 14.

<Proposal from our shareholder>

Proposal No. 3: Appropriation of Surplus

1. The outline of the proposal

The following surplus will be appropriated so that the total amount of annual dividends will be equivalent to a payout ratio of 60%. This proposal is intended to be submitted as an additional proposal, independent of the proposal for the appropriation of surplus to be submitted by the Board of Directors of the Company at this Annual General Meeting of Shareholders. Since the record date for the year-end dividends is February 20, the dividend per share is calculated based on the number of shares before the stock split on February 21, 2026.

A. Type of dividend property

Cash

B. Dividends per share

The amount obtained by deducting the amount of the distribution of surplus per common share of the Company proposed by the Board of Directors of the Company and approved at this Annual General Meeting of Shareholders from ¥260.

If the amount obtained by multiplying the profit per share for the 73rd fiscal year by 0.6 and then rounding down the fractional part, and then subtracting ¥100 (hereinafter referred to as the “payout ratio equivalent to 60%”) is different from ¥260, the amount of ¥260 at the beginning of the sentence shall be read as the payout ratio equivalent to 60%.

C. Allotment of dividend property and their aggregate amount

The dividend amount per common share of the Company as mentioned in (B) above (the total amount of dividends is calculated by multiplying the dividend amount per share by the total number of common shares issued by the Company as of February 20, 2026 (excluding own shares)).

D. Effective date of dividends of surplus

The date of this Annual General Meeting of Shareholders

E. Starting date of dividend payments

The date three weeks after the next business day following this Annual General Meeting of Shareholders

2. Reason for proposal

Through continuous dialogue, we are convinced that the management has the intention to further increase ROE beyond existing policies, taking into consideration the voices of shareholders that have become clear through changes in the external environment and shareholder proposals. We believe that the first acquisition of own shares conducted in January 2026 was an excellent initiative as a manifestation of this intention.

The Company has built a solid competitive advantage in the domestic apparel retail industry, backed by its superior store opening strategy, product strategy, and store operations. Despite rising costs in recent years, the Company has maintained an operating profit ratio of approximately 9% and continued to stably generate cash flow. As a result, as of the end of the third quarter of the fiscal year ending February 2026, the Company held ¥281.1 billion in cash and cash equivalents against ¥522.4 billion in net assets, and has no interest-bearing debt.

While profitability is expected to continue improving through the Company’s superior business operations, a reduction in net assets is also essential, in addition to this, to further increase ROE. We are

making this proposal because we believe it is necessary to introduce a dividend policy with a payout ratio of 60% as a minimum level to realize an increase in ROE.

(Note from the Company) The above is a verbatim outline of the proposal and the reasons for the proposal as listed in the shareholder's proposal submitted by the shareholder.

<Opinion of the Board of Directors on Proposal No. 3>

The Board of Directors is “against” this proposal.

◆ Reasons for opposition

The Company operates under the management mission to “build a ‘good company’ for all stakeholders.” The Company provides our employees with a stable living and working environment, and provides our customers with a comfortable store environment and products with high quality, high sensitivity, and low price. In addition, the Company aims to achieve long-term growth together with our business partners based on fair transactions. The Company’s basic policy is to reward shareholders with a sustainable improvement in performance and continuous and stable dividends by ensuring a stable financial base and making proactive investments in growth.

Under the currently ongoing medium-term management plan 2027 (hereinafter referred to as the “current medium-term management plan”), the Company sets a payout ratio of around 35% as its basic policy. In addition, the Company targets an ROE of 9% or higher, and as part of this effort, it acquired its own shares in January 2026. Through this initiative, the Company is executing an appropriate shareholder return policy that takes into consideration the voices of shareholders, such as increasing the dividend per share by ¥10 from the initial forecast based on Proposal No. 1: Appropriation of Surplus.

Raising the payout ratio to 60% in this shareholder proposal significantly deviates from the policy set forth in the current medium-term management plan, and a rapid increase in the dividend level cannot be considered an appropriate decision for the medium- to long-term improvement of corporate value. The Company sets “continuous and stable dividends” as its basic policy, and will proceed with shareholder returns without wavering from this policy.

For these reasons, the Board of Directors of the Company opposes the shareholder proposal.

However, when formulating the next medium-term management plan (medium-term management plan 2030) beginning from the fiscal year ending February 2028, the Company will constructively accept the opinions of shareholders and continue to appropriately consider the capital policy, including shareholder returns. We ask for your understanding of the Company’s basic policy to emphasize the interests of all stakeholders and strive for the long-term improvement of corporate value.
