1. Overview of operating results and others

(1) Overview of operating results for the fiscal year under review

Overview of operating results

The Japanese economy in the fiscal year ended March 31, 2025, continued to recover gradually, led by consumer spending and capital investment. Consumer spending showed signs of belt-tightening in response to an increase in consumer prices, mainly for food, but continued to recover gradually due to an improvement in employee incomes with a significant wage increase in the spring wage negotiations, among other factors. Moreover, with additional factors including an increase in capital investment in the wake of favorable corporate earnings, the Japanese economy gradually began to move into a beneficial cycle of wages and prices, and toward breaking free from a deflationary economic cycle.

In the Saitama Prefecture economy, the Bank's business foundation, consumer spending also recovered gradually thanks to improved employee incomes, as with the domestic economy. Within this, companies inside the prefecture saw a steady improvement in earnings, partly due to a recovery in service consumption centered on retail and dining out, while the manufacturing sector varied from industry to industry, with some being affected by a slowdown in overseas demand.

Under these circumstances, operating results for the fiscal year under review (April 1, 2024 to March 31, 2025) were as follows.

For the fiscal year under review, ordinary income increased by ¥3,016 million from the previous fiscal year to ¥84,084 million, owing to factors including an increase in interest income due mainly to interest on loans and discounts and interest and dividends on securities.

Ordinary expenses increased by ¥1,176 million from the previous fiscal year to ¥65,984 million, owing to factors including an increase in interest expenses due mainly to interest on deposits.

Accordingly, ordinary profit increased by ¥1,839 million from the previous fiscal year to ¥18,100 million. Profit attributable to owners of parent increased by ¥1,882 million from the previous fiscal year to ¥13,146 million.

Future outlook

The fiscal year ending March 31, 2026 is the final fiscal year of the Medium-term Management Plan "MCP 1/3 (One-Third)," which commenced in April 2023, and the situation regarding the principal earnings forecast is as below.

On a consolidated basis, we forecast ordinary income of ¥91.1 billion, ordinary profit of ¥20.4 billion and profit attributable to owners of parent of ¥14.0 billion.

On a non-consolidated basis, we forecast ordinary income of ¥78.6 billion, ordinary profit of ¥19.2 billion and profit attributable to owners of parent of ¥13.4 billion.

(2) Overview of financial position and cash flows for the fiscal year under review

Overview of financial position

For the fiscal year under review, total assets increased by ¥70.9 billion from the end of the previous fiscal year to ¥5,474.9 billion, and net assets decreased by ¥6.1 billion from the end of the previous fiscal year to ¥267.9 billion.

In terms of the major account balances, as a result of the Bank's efforts to expand its community-based sales foundations, as well as the promotion of comprehensive trading and other initiatives, deposits increased by ¥91.1 billion year on year to ¥5,064.6 billion. In addition, as a result of the Bank proactively and swiftly responding to demand for funding support from customers including individual customers as well as firms within the prefecture, loans and bills discounted increased by ¥118.2 billion year on year to ¥4,113.2 billion, and securities increased by ¥9.6 billion year on year to ¥1,055.3 billion.

The equity ratio calculated based on the regulation of Article 14-2 of the Banking Act was 13.27% on a consolidated basis, and 12.64% on a non-consolidated basis.

Overview of cash flows

For the fiscal year under review, the situation of cash flows was as follows.

Cash flows from operating activities

Net cash used in operating activities amounted to ¥28,303 million (a decrease in cash used of ¥1,372 million compared to the previous fiscal year) due to an increase in deposits (¥66,420 million), an increase in loans and bills discounted (¥118,275 million), etc.

Cash flows from investing activities

Net cash used in investing activities amounted to ¥37,568 million (a decrease in cash used of ¥181,913 million compared to the previous fiscal year) due mainly to an increase in securities investment (net amount of ¥34,401 million).

Cash flows from financing activities

Net cash used in financing activities amounted to ¥3,809 million (a decrease in cash used of ¥382 million compared to the previous fiscal year) due to dividends paid (¥3,811 million), etc.

Accordingly, cash and cash equivalents at the end of the fiscal year under review decreased by ¥69,681 million from the end of the previous fiscal year to ¥160,617 million.

(3) Basic policy on profit distribution and information on dividends for the fiscal year under review and next fiscal year

In relation to profit distribution, as a regional financial institution, the basic policy of the Bank is to ensure sound management and stable earnings as well as strengthen the financial position through internal reserves, and continue to pay stable dividends to reward our shareholders, comprehensively considering factors including the profit situation and business environment.

On the basis of this basic policy, for the fiscal year ended March 31, 2025, we plan to pay a year-end dividend per share of ¥65, this is an increase of ¥5 from the most recent year-end dividend forecast of an ordinary dividend of ¥60, announced in January 31, 2025 (resulting in an annual dividend of ¥125).

For the fiscal year ending March 31, 2026, we plan to pay an annual dividend of ¥140 (including an interim dividend of ¥70) per share.

For the dividend per share, this is based on the current results outlook for the fiscal year ending March 31, 2026.

2. Basic policy regarding selection of accounting standards

Considering the focus of the Bank Group on domestic business and comparability among firms, for the time being, the basic policy is to prepare consolidated financial statements under accounting principles generally accepted in Japan (Japanese GAAP).

Looking ahead, the Bank will continue to consider the application of International Financial Reporting Standards (IFRS), in view of factors such as the trend toward the application of IFRS by other banks in Japan.

(5) Notes to consolidated financial statements
(Notes on premise of going concern)

Not applicable.

(Changes in accounting policies)

Application of the Accounting Standard for Current Income Taxes, etc.

The Bank has applied the “Accounting Standard for Current Income Taxes” (Accounting Standards Board of Japan (ASBJ) Statement No. 27, October 28, 2022), etc. from the beginning of the fiscal year under review. This has no impact on the consolidated financial statements.

(New accounting standards not yet applied)

New accounting standards not yet applied and related matters

The Bank will apply the “Accounting Standard for Leases” (ASBJ Statement No. 34, September 13, 2024), the “Implementation Guidance on Accounting Standard for Leases” (ASBJ Guidance No. 33, September 13, 2024), etc. from the beginning of the fiscal year starting on or after April 1, 2027. The impact of the application on the consolidated financial statements is currently under evaluation.

(Additional information)

Stock remuneration plan for directors

The Bank has introduced the Board Incentive Plan Trust for directors of the Bank (excluding outside directors and non-residents of Japan, hereinafter the same).

1. Overview of transaction

The Board Incentive Plan Trust is an executive incentive plan that aims to further increase the motivation to contribute to medium-to-long term performance improvement and the enhancement of corporate value. Under this share-based executive compensation plan, Directors of the Bank are awarded points based on factors such as their position and achievement of performance targets. Upon Directors’ retirement they receive shares of the Bank and cash equivalent to the value of proceeds from sale of the shares of the Bank, in line with the points they have accumulated.

2. Accounting treatments for transactions of delivering the Bank’s own shares through trusts

The accounting treatment in relation to the trust agreement is in accordance with the “Practical Solution on Transactions of Delivering the Company’s Own Stock to Employees etc. through Trusts” (PITF No. 30, March 26, 2015).

3. Matters concerning the Bank’s shares held by the trust

The Bank’s shares held by the trust are recorded as treasury shares in shareholders’ equity. The carrying amount, number of shares at the end of the period and average number of shares during the period of the treasury shares in the trust are as follows.

(1) Carrying amount in the trust	¥119 million (¥126 million as of the end of the previous fiscal year)
(2) Number of shares at the end of the period	60,748 shares (64,163 shares as of the end of the previous fiscal year)
(3) Average number of shares during the period	61,650 shares (67,889 shares for the previous fiscal year)

Number of shares at the end of the period and average number of shares during the period are included in treasury shares deductible for the purpose of calculation of per share information.

(Tax effect accounting)

Due to the enactment of the “Act for Partial Revision of the Income Tax Act, etc.” (Act No. 13 of 2025) on March 31, 2025, the “Special Corporation Tax for National Defense” will be imposed from the fiscal years beginning on or after April 1, 2026. Accordingly, the statutory effective tax rate used for calculating deferred tax assets and deferred tax liabilities was changed from the previous rate of 30.46% to 31.36% for temporary differences expected to be reversed in the fiscal years beginning on or after April 1, 2026. As a result of this change in tax rate, deferred tax assets decreased by ¥103 million (net), valuation difference on available-for-sale securities increased by ¥70 million, deferred gains or losses on hedges decreased by ¥82 million, remeasurements of defined benefit plans decreased by ¥25 million, and income taxes - deferred increased by ¥65 million for the fiscal year under review. Furthermore, deferred tax liabilities for land revaluation increased by ¥124 million and revaluation reserve for land decreased by the same amount.

5. Supplementary material on financial results

I. Overview of the financial results for fiscal year ended March 31, 2025

(1) Overview (Non-consolidated)

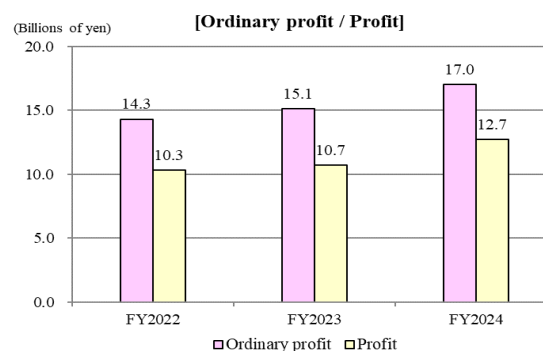

a) Financial situation, etc.

- ① Core banking profit increased by ¥930 million year on year to ¥17,304 million due mainly to an increase in net interest income, which was largely from interest on loans and discounts and from interest and dividends on securities against the backdrop of rising interest rates in Japan and overseas, and due to an increase in net fees and commissions, both for corporate clients and individual customers.
- ② Ordinary profit increased by ¥1,932 million year on year to ¥17,097 million, due mainly to an improvement in gains (losses) on stocks and a decrease in retirement benefit expenses.
- ③ Profit increased by ¥2,021 million year on year to ¥12,769 million due to an increase in ordinary profit as well as due to a decrease in income taxes mainly as a result of the tax exemption of taxable reserves.
