The following summarizes matters related to the corporate governance of Seven Bank, Ltd. (the “Bank”).

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

As a bank that owns and operates an ATM network that manages deposits from a large number of customers and has a nature similar to that of public infrastructure, the Bank recognizes that ensuring disciplined corporate management is vital in responding to the social trust and seeks to ensure effective corporate governance. This is achieved by maintaining and improving its corporate governance and compliance systems to ensure transparent, fair and swift managerial decision making; clarify the roles and responsibilities of Executives and employees; strengthen management oversight functions; and ensure equitable operations.

The Bank adopts the organizational form of a Company with Audit & Supervisory Board Members. At the Board of Directors, the Bank ensures effective corporate governance through decision making by Directors with Executive Authority over operations who are well versed in the Bank’s operations and Outside Directors who have considerable experience and insight in their areas of expertise as well as the audits by the Audit & Supervisory Board Members.

To clarify the specific issues to be addressed by the Bank to realize the above policy and fulfill the accountability of the Bank’s corporate governance to its shareholders, the Bank has established the “Corporate Governance Guidelines,” which are disclosed on its website.

Reasons for Non-compliance with the Principles of the Corporate Governance Code

The Bank complies with all principles of the Corporate Governance Code.

Disclosure Based on the Principles of the Corporate Governance Code

[Principle 1-4: Strategic Shareholdings]

1. We make it a basic policy not to hold the shares of other companies as strategic shareholdings unless those holdings are considered meaningful. We consider strategic shareholdings meaningful if they are judged to contribute to the preservation and enhancement of corporate value of the issuing business partner and the Bank based on the results of studies on their profitability and other factors both current and projected. We make it a policy to dispose of or reduce strategic shareholdings that, as a result of these investigations and studies, are judged to have become less meaningful or no longer meaningful, as promptly as possible.
2. We regularly conduct thorough investigations into the appropriateness of the objectives of the holdings, whether or not the benefits and risks of the holdings are commensurate with the capital cost, and other matters concerning each stock of strategic shareholdings at meetings of the Board of Directors, and study the appropriateness of the holdings and disclose the details of the studies. We make it a policy to dispose of or reduce strategic shareholdings that, as a result of these investigations and studies, are judged to have become less meaningful or no longer meaningful, as promptly as possible.
3. The Bank exercises its voting rights relating to strategic shareholdings upon comprehensive consideration of whether an issuer makes appropriate decisions to improve its corporate value over the medium to long term through appropriate corporate governance systems, as well as possible effects on enhancing our own corporate value. In particular, when considering proposals that are judged to have a serious impact on the execution of the Bank's operations, whether to vote for or against the proposals at General Meetings of Shareholders is considered through dialogue with the issuers and studies conducted by the department in charge.
4. In the event that a company holding the Bank's shares as strategic shareholdings indicates its intention to sell those shares, the Bank takes appropriate measures without doing anything that would prevent the sale, such as suggesting a reduction in transactions.
5. The Bank does not conduct any transactions with strategic shareholders that would harm the common interests of the company and shareholders, such as continuing transactions without sufficiently studying the economic rationality of such transactions.

(Excerpt from Article 8 of our Corporate Governance Guidelines)

The results of studies on strategic shareholdings conducted by the Board of Directors are described and disclosed in the securities report.

[Principle 1-7: Related Party Transactions]

1. To protect the interests of shareholders, we are taking measures to prevent any related party of the Bank, such as an officer, from conducting transactions that would harm the interests of shareholders by taking advantage of its position.
2. Any significant or extraordinary transaction with the Bank's Directors, Audit & Supervisory Board Members and/or major shareholders requires the approval of the Board of Directors.

(Excerpt from Article 7 of our Corporate Governance Guidelines)

[Supplementary Principle 2-4 (1): Ensuring Diversity in the Promotion, etc. of Core Human Resources]

1. Views and Objectives

The Bank recognizes that it is its duty as a corporate entity to contribute to the creation of a society in which many types of human capital can participate in various ways. We also believe that creating opportunities for people to flourish regardless of their gender, age or nationality, improving productivity by enhancing the capabilities of various employees, developing diverse human capital, and creating an environment in which everyone can play an active role will lead to the achievement of fulfilling lifestyles as well as the continuous development of society. In particular, we believe that the status regarding managers who play a central role in management is as summarized below.

- We aim to increase the ratio of female managers to 30% as of the end of fiscal 2025 (18.7% as of the end of fiscal 2024).
- As of the end of fiscal 2024, the ratio of managers recruited from outside the Bank accounts for over 90%.
- With regard to foreign persons as managers, we are expanding our overseas business as part of our growth strategy. We are promoting global expansion through, among other things, the hiring and promotion of foreign persons to positions of officers and managers of our overseas subsidiaries. As of the end of fiscal 2024, the ratio of foreign persons who are officers and managers of our overseas subsidiaries was in excess of 50%, and we will strive to continue to maintain the ratio going forward.

2. Human Capital Development Policy and Internal Environment Improvement Policy

(1) Recruitment

Our principle when making hiring decisions is to “strive for equal opportunity in employment without making discriminatory treatment.”

In addition, we are also promoting the active recruitment of experienced human capital who have considerable knowledge and experience.

(2) Development and promotion

In order to ascertain each person’s potential, we will train them from a medium- to long-term perspective while confirming their suitability through appropriate rotations.

The Bank conducts training sessions for human resources in order for them to acquire the necessary expertise and skills at each stage so that autonomous human capital can play an active role. In addition, in order to promote the growth of employees, we conduct fair evaluations and promote employees based on these evaluations.

(3) Internal environment improvement policy

Based on our purpose, which is to “create a better version of daily life by going beyond the wishes of our customers,” and in the belief that the growth of each individual by leveraging their individuality and demonstrating their capabilities will lead to the growth of the company, in fiscal 2024, we conducted a complete overhaul of our personnel system, as well as adopting and striving to promote systems that enable diverse careers, such as the Expert Career Track, Regular Employee Promotion System, and the Masters’ Employee System, and systems to encourage a pleasant and comfortable working environment such as the Work from Home System and the Childcare and Nursing Care Leave System.

[Principle 2-6: Asset Owner]

Management of the Bank’s corporate pension funds is carried out by Seven & i Holdings Corporate Pension Fund (hereinafter, “Corporate Pension Fund”).

1. Structure of the Corporate Pension Fund

The Board of Delegates, which is the decision-making body for the Corporate Pension Fund, comprises an equal number of selected delegates (company) and elected delegates (employees). The Board confirms the status of asset management twice a year and passes resolutions on management policies for the managed portfolios as required, while the Board of Governors executes operations in accordance with the management policies.

Furthermore, as an examining organization, the Asset Management Committee comprises members affiliated with the finance and accounting departments, etc. of the Seven & i Holdings Group and conducts monitoring activities every two months based on specialized knowledge.

In addition, the Secretariat is staffed with personnel with knowledge in finance and human resources, enabling it to execute highly specialized management, including the monitoring of management institutions.

2. Management of the Corporate Pension Fund

The Corporate Pension Fund confirms that all domestic equity management institutions have accepted the Stewardship Code. The Fund also monitors the equity management institutions' constructive dialogues with investee companies and the implementation status of the exercise of voting rights, and in doing so, verifies matters such as specific examples of stewardship activities. Furthermore, the Fund confirms the accuracy and transparency of the information provided, etc. with pension management consultants, and shares information on the status of these activities and the results of fund management with employees through Seven & i Holdings' Group magazines and other means.

Any conflicts of interest are appropriately managed through the selection of individual investee companies and the conclusion of contracts entrusting the exercise of voting rights to management institutions.

[Supplementary Principle 3-1 (3): Initiatives, etc. for Sustainability]

1. Sustainability initiatives

The Bank's group defines sustainability as "proactively working to solve environmental and social issues through business activities, and creating value for both the environment and society and companies" and "the obligation to be proactively fulfilled as a company supported by customers and the society and coexisting with the environment and the society." We

position sustainability as the basis for our long-term management strategy, and are implementing various initiatives, aiming to solve diversified social issues and create new value. To respond to changes in the external environment and in the Group's business portfolio, in fiscal 2024, we reviewed the material issues (materiality) that we had designated in 2019. Through questionnaire surveys of stakeholders, in-house discussions, and dialogues with experts, we re-examined the priority issues that the Bank's group needed to address and identified five new material issues from the standpoint of value creation to make our purpose a reality.

The Group's five material issues (materiality)

- Fundamental value: Offer a social infrastructure available anytime with safety and security
- Social value: Realize a wide variety of services accessible to anyone, anywhere
- Creation of new values: Create unique values beyond our customers' expectations
- Source of value creation: Create a society where everyone can be active
- Value creation for the future: Contribute to the prosperity of our society and the future of the Earth

2. Investment in human capital and intellectual property

The Bank positions "corporate transformation" as part of the pillars of our growth strategy, along with "contribution to solving social issues" in the Medium-Term Management Plan. We are promoting initiatives on both transforming our organization into the one where independent human capital play active roles and transforming our business model/process through the utilization of digital technology and efficiency improvement. With regard to human capital, to achieve our purpose, we support the autonomous growth of our employees and provide them with opportunities to take active roles as the basis of our human capital strategy. We will increase employee engagement by supporting them in fostering a mindset of innovation and proactive career development and providing flexible work options. As for intellectual property, we are working on the transformation of our business process/model by making full use of data and digital technology. We focus not only on productivity improvement through operational reforms but also on the creation of new value and business utilizing AI and data.

3. Impact of climate change risks and profit opportunities on our business activities and profits

The Bank's group has identified "Contribute to the prosperity of our society and the future of the Earth" as one of the five material issues and positions responses to climate change as one of its material management issues. Accordingly, the Sustainability Committee, an advisory body to the Executive Committee, discusses important matters related to climate change, while also promoting initiatives addressing social and environmental issues. Meanwhile, the Risk Management Committee, another advisory body to the Executive Committee, conducts management of overall risks, including the impact from climate change, by evaluating the status of risk management and implementing appropriate responses. These committees are structured in a way that allows them to present agenda and report to the Executive Committee and the Board of Directors, as necessary. As the decision-making and supervising bodies for management, the Executive Committee determines the basic policies on sustainability and important matters of business management, while the Board of Directors

supervises business execution relating to sustainability.

Furthermore, in 2021, we expressed our endorsement of the Task Force on Climate-related Financial Disclosures (TCFD), and in 2023, we conducted a scenario analysis to measure the impact of climate change on the Bank's business activities, revenues, and other areas in our core ATM platform business. We, then, identified the risks and opportunities of climate change and estimated their financial impact. We will continue to take specific measures in response to the risks and opportunities posed by climate change and move forward with various initiatives on a Group-wide level to enable a decarbonized society.

The details of the Group's responses to climate change are disclosed on the Bank's website.

The results of the evaluation are described below.

<Results of initiatives in fiscal 2024>

All Directors share the roles, responsibilities, and matters requiring improvements of the Board of Directors and are fulfilling the decision-making and supervisory functions through multi-faceted deliberations in which members engage in free and open-minded discussions backed by their knowledge and expertise. Therefore, it was confirmed that the Board of Directors is functioning properly and is hence effective.

The priority matter of fiscal 2024 of ensuring ongoing opportunities for the Board of Directors to exchange views and communicate with executive personnel earned high ratings as a result of efforts to secure opportunities for executive personnel to explain operations and provide information, and set up opportunities for the Board of Directors to exchange views and communicate with executive personnel. Meanwhile, matters such as the appointment and removal of top management and the systems of internal control and risk management required more extensive discussions and were found to have some room for improvement.

<Priority matters for fiscal 2025>

5. Other Special Circumstances which May have Material Impact on Corporate Governance

As of the submission date of this report, Seven-Eleven Japan Co., Ltd., the largest shareholder of the Bank, directly holds 39.92% of the Bank's voting rights. Additionally, as of the submission date of this report, Seven & i Holdings Co., Ltd. ("7&iHD"), the parent company of Seven-Eleven Japan Co., Ltd. indirectly holds 39.92% of the Bank's voting rights. As a result, the two companies fall under the category of other affiliated company of the Bank.

<Positioning of the Bank's Group in the Seven & i Group>

7&iHD, other affiliated company of the Bank, is a pure holding company engaged in the planning, management, and operations of the Seven & i Group which develops domestic convenience store operations centered on Seven-Eleven, overseas convenience store operations, superstore operations, financial services, and other operations, aiming to become a world-class retail group focusing on food. The Bank operates ATM platform business, banking business, credit card/electronic money business, and other businesses as the core of the finance-related operations among the operations of the Seven & i Group. In addition to the Bank and its subsidiaries, Seven Financial Service Co., Ltd. and Seven CS Card Service Co., Ltd. are engaged in finance-related operations; however, as they offer different services and target different customers, they do not compete with the Bank, and we do not expect that they will come into competition with us in the future, either. As such, the core businesses of the Seven & i Group are different from those of the Bank, and there is a clear differentiation of business operations. Therefore, we believe that we have a relationship that allows us to enjoy growth together with the Seven & i Group by developing our own financial services unique to the retail industry, focusing on customers visiting stores of the Seven & i Group.

<Relationship with 7&iHD, other affiliated company>

The Bank believes that in order to achieve sound and sustainable growth, it is essential to engage in business development (innovation) by integrating collaboration with various partners to an advanced degree based on our credibility and transparency of management as a corporate entity. Furthermore, we recognize that listing on the market is one of the most effective means to ensure the Bank's credibility and transparency of management. As an independently listed company, the Bank independently and autonomously deliberates and determines our own business strategies, personnel policies, capital policies, etc. as we engage in our own operating activities. In addition, in order to ensure the necessary independence from 7&iHD, we have established a Nomination & Compensation Committee, which is chaired by an Independent Outside Director, as an advisory body to the Board of Directors. This Committee deliberates on matters concerning recommendations for candidates for the Bank's Directors and Executive Officers. In this way, independence from 7&iHD is ensured regarding the appointment of top management personnel. Further, the Bank also has Outside Directors and Outside Audit & Supervisory Board Members with a certain degree of independence who supervise to ensure that no conflict of interest arises between 7&iHD and minority shareholders. The Bank does not have any agreements concluded regarding Group management with 7&iHD. 7&iHD accordingly. These reports are limited to matters that impact 7&iHD's timely disclosure, materially impact 7&iHD's consolidated financial statements, and may potentially impair the credibility of the Seven & i Group.

<Guidelines on Measures to Protect Minority Shareholders in Conducting Transactions with Each Company of the Seven & i Group>

When conducting transactions, etc. with each company of the Seven & i Group, the Bank will comply with the arm's-length rule under the Banking Law, which is a rule established to prevent the soundness of the Bank's management from being compromised through conflict-of-interest transactions. Furthermore, when transactions with the companies of the Seven & i Group that are particularly important arise, the Bank will establish a special committee to review and determine the appropriateness of the conditions of the transaction and the fairness of the procedures from the viewpoint of ensuring the interests of minority shareholders, and will make its final decision from an independent standpoint, with a different dimension from the Board of Directors, after thorough discussions.

Introduced a Performance-Based Stock Compensation Plan

Supplementary Explanation for Applicable Items

To further increase motivation in contributing to the medium- to long-term continued enhancement of performance and corporate value of the Bank, the Bank introduced a Performance-Based Stock Compensation Plan, which delivers the Company's shares in accordance with the level of achievement of performance targets (hereinafter, the "Plan"), as of 2017. (The transfer of the unexercised and outstanding share subscription rights previously granted to Directors as share-based compensation in the form of stock options to the Plan was approved by a resolution at the 19th Ordinary General Meeting of Shareholders held on June 22, 2020, and the transition from share-based compensation in the form of stock options to the Plan was executed. The Plan is composed of a "fixed portion," which grants fixed points for each job rank, and a "performance-based portion," which grants a varying number of points determined by job rank and performance. For each portion, points are granted and accumulate every year of the term of office of the relevant officer, and a number of the Bank's shares corresponding to the amount of accumulated

points will be delivered to the officer upon retirement.

The number of points (i.e., the number of shares to be delivered) to be provided in the performance-based portion will be determined by multiplying the number of points for each rank by performance-linked factors according to the achievement level of consolidated performance targets. In addition, employee engagement has been added as an evaluation indicator for the points to be granted as performance-based stock compensation as consideration for the fiscal year ending March 31, 2024, and thereafter. In addition, as of 2020, the Bank has introduced a bonus system that will pay recipients in accordance with the level of achievement of performance targets, with the aim of steadily achieving performance targets (milestones) for each fiscal year to realize medium- to long-term improvement of corporate value.
