1. Review of consolidated operating results

(1) Analysis of operating results for the period

Newly executed contract volume in the six months ended September 30, 2025 totaled ¥1,011,133 million, up 20.1% year on year.

In terms of profits, the Company reported net sales of \\$343,520 million, up 3.5% year on year, operating profit of \\$3,568 million, down 89.0% year on year, ordinary profit of \\$5,917 million, down 82.7% year on year, and profit attributable to owners of parent of \\$4,623 million, down 79.7% year on year.

The Company has recorded losses due to the risk of uncollectible or delayed collection of receivables from our counterparties as below.

The counterparties related thereto are established for the purpose of raising funds for the development of renewable energy projects led by our alliance partners in Europe. It was discovered that among the multiple renewable energy projects being developed and funded by counterparties through project-specific holding companies, some projects in Spain have been delayed due to insufficient development funds.

In response, we examined the recoverability of our receivables against the counterparties related to separate renewable energy projects involving our alliance partners leading these projects. As a result, we determined that uncertainty exists regarding the amount and timing of collection for a portion of these receivables, and there is a risk that these receivables may be uncollectible or subject to collection delays.

Accordingly, in the six months ended September 30, 2025, of the total amount of ¥28,578 million excluding the portion expected to be recovered through sale of the project to third parties, ¥1,176 million of accrued interest related to those receivables that arose in the six months ended September 30, 2025 was not recorded (net sales were reversed), and the remaining balance excluding such accrued interest was recorded as cost of sales of ¥24,948 million, provision of allowance for doubtful accounts (selling, general and administrative expenses) of ¥2,419 million, and bad debt expenses (selling, general and administrative expenses) of ¥33 million.

Operating results for each business segment are as follows. Please note that net sales for each segment are "revenues from external customers" and segment profit is the amount shown in reportable segments.
