

ACOM received the Encouragement Prize in the Osaka Environmental Awards

We are pleased to announce that our initiative, “ACOM Forest” – “Hana Byobu(Folding Screen) Initiative” under the “Fureai no Mori Support Program” in Shijonawate City, Ikoma Mountain Range, has been awarded the Encouragement Prize in the business activities category of the Osaka Environmental Awards*. We are also delighted to share that our long-time partner, “Nawate Yamamori Tai (Mountain Guardians),” with whom we have been working closely while receiving their continued advice and support, has received the Collaboration Prize.

*The Osaka Environmental Awards are presented by Osaka Prefecture to encourage individuals, organizations, and businesses that proactively engage in exemplary activities contributing to environmental conservation and creation. These efforts support the reduction of environmental impact, the expansion of harmony with nature, and the creation of a comfortable living environment. The awards aim to expand the circle of action toward building a more sustainable environment.

[Award Ceremony Photo]

Since June 2022, ACOM has been conducting the "ACOM Forest" initiative to help reduce greenhouse gas emissions and conserve biodiversity. This initiative contributes to the maintenance and conservation of healthy forests through volunteer activities carried out by our employees. Through this initiative, we are contributing to environmental conservation in Kanagawa and Osaka while also fostering greater environmental awareness among our employees.

Based on its founding spirit of the “Circle of Trust,” ACOM is committed to addressing social challenges and enhancing its corporate value, through its corporate philosophy of “respecting human dignity,” “putting customers first,” and “pursuing creative and innovative management.” Going forward, we will continue to value collaboration with the local community and contribute to the realization of a sustainable society through this initiative and other environmental conservation efforts.

Business Activities Category

ACOM CO., LTD.

(Collaboration Prize) Nawate Yamamori Tai (Mountain Guardians)

[Activity Name]

“ACOM Forest” – “Hana Byobu (Folding Screen) Initiative” under the “Fureai no Mori Support Program” in Shijonawate City, Ikoma Mountain Range.

[Overview of the Activity]

In support of the Ikoma Mountain Range “Hana Byobu” Initiative, we have entered into agreements with partners such as Shijonawate City and the Nawate Yamamori Tai (Mountain Guardians). With the cooperation of our employees and collaborators, we are contributing to the ongoing conservation and restoration of the forest. Our efforts include thinning, undergrowth clearing, and the planting of flowering trees such as mountain cherry (Yamazakura) and colorful foliage trees like Japanese maple (Irohamomiji), with the goal of bringing seasonal beauty to the Ikoma Mountain Range.

[Reasons for the Prize]

ACOM’s proactive engagement in forest conservation as part of its corporate social responsibility initiatives has been highly recognized. Through collaboration with various partners, these efforts have achieved meaningful and effective outcomes. We look forward to the continued development of these activities and the further strengthening of partnerships in the future.
