3. Basic Guidelines for the distribution of profits

As part of its efforts to increase shareholder value, one of the important management policies is to proactively distribute the company's profits to shareholders. Our basic policy is that the amount of dividends is determined, based on the higher of a consolidated dividend payout ratio of 70% or a consolidated dividend on equity ratio (DOE) of 2% as well as by comprehensively evaluating such factors as its equity capital level, medium- to long-term performance trends, stock prices and others.
