I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

The Mitsui Fudosan Group takes a standpoint of sound, transparent and efficient management in the aim of building optimum corporate governance to earn the trust of all stakeholders.

Mitsui Fudosan has established the Compensation Advisory Committee and Nomination Advisory Committee to enhance transparency regarding compensation for managing directors and nomination of managing directors and corporate auditors. It has also adopted a corporate officer system to enhance the soundness and efficiency of management by separating and strengthening management and executive functions. Mitsui Fudosan also invites and appoints outside directors to strengthen the oversight functions of the managing directors and enhance management transparency.

In addition, corporate auditors conduct audits to evaluate the status of business execution by managing directors while coordinating with the Internal Audit Department, which serves as the Company's internal auditing department, as well as with the certified public accountant.

Moreover, steps have been taken to put in place the Mitsui Fudosan Group Compliance Policies, as well as a structure that will ensure that Group managing directors and employees engage in business activities in an appropriate manner.

Reasons for Non-Compliance with the Principles of the Corporate Governance Code

Mitsui Fudosan complies with all Principles of the Corporate Governance Code.

Disclosure Based on the Principles of the Corporate Governance Code Updated

[Principle 1.4 Cross-Shareholdings]

•Cross-shareholding policy

In overall consideration for business strategy and relationships with business partners, to improve the Group's corporate value, Mitsui Fudosan holds shares considered effective for management strategies as shares for purposes other than net investments (cross-shareholdings) from a medium- to long-term perspective.

Furthermore, Mitsui Fudosan continuously reviews shareholding status. Upon confirming the significance of shareholdings based on the quantitative rationality of holdings and relationships with business partners, we have decided to reduce our shareholdings. In fiscal 2019, we sold 13 stock brands worth a total of ¥20.3 billion.

•Verification by the Board of Directors

When verifying the rationality of shareholdings, we verify whether or not the benefit, risk, etc., associated with the shareholdings are commensurate with the capital cost. Furthermore, in addition to confirming the significance of shareholdings from the perspectives of transaction performance, stable funding, and creation of business opportunities, we also verify whether or not the holdings contribute to improving the medium- to long-term corporate value of the Group.

At a meeting held on May 12, 2020, the Board of Directors verified appropriateness with regard to the significance of cross-shareholdings based on the quantitative rationality of holding and relationships with business partners for each stock brand. As a result, for stocks for which the rationality of holding or significance of holding has decreased, we will examine selling by considering factors such as impact on the stock market.
