(c) Summary of the analysis/evaluation result of the effectiveness of the entire Board of Directors

a. Evaluation Process

A questionnaire, given to all members of the Board of Directors (nine (9) Directors and four (4) Audit & Supervisory Board Members, as of November 30, 2025), is carried out regarding:

1. Composition of the Board of Directors
2. Effectiveness of the Board of Directors (quality and amount of discussion)
3. Discussion of candidates at the reelection of Directors and Compensation program of the Board of Directors
4. The operation of the Board of Directors
5. The Directors' own self-assessments
6. Relation with shareholders and other stakeholders
7. Others

(7 categories, 41 items) (responses from all eleven (13) members are collected).

b. Analysis of Questionnaire Results

Major analysis results

1. The current structure and diversity of the Board of Directors maintain appropriate levels given the nature and category of the business of the Group, and in light of Board's "skills matrix". In order to continue to address the issues surrounding sustainability in our group, the company needs to consider the enhancement of diversity, such as in terms of gender and internationality. In addition, it is necessary to tackle the issues of developing next-generation leaders, such as mid-career and executive employees, more systematically.
- 2, 4. The Board of Directors as a meeting body is at a level where it is effective, and the effectiveness of the Board of Directors is ensured through the effective use of the "Management Committee" and "Pre-Board meeting discussions of the Company" that function to prepare for and review deliberations at Board of Directors meetings. In addition, there is room to further advance reviews of the quality and quantity of meeting documents and identifying discussion issues for each agenda item prior to the meeting.
3. With regard to each voluntary committee, the transparency of processes and reports has been ensured. In accordance with the newly established "Skill Matrix" for the Board of Directors of the Company, the Company will continue to ensure the appropriateness of the nomination of candidates for Directors.
5. We are increasing opportunities for personal development of Directors and Audit & Supervisory Board Members, and we will strive to provide even more opportunities.
6. Good relationships with stakeholders continue to be maintained, and information on the expectations of investors, etc. is also shared by reporting it to the Board of Directors in a timely and appropriate manner.
7. Ongoing efforts are made to ensure that there is adequate cooperation between the Directors (Board of Directors) and Audit & Supervisory Board Members (Audit & Supervisory Board) and that sharing of information regarding managerial matters, etc. is done without problem.

c. Deliberation of evaluation

After aggregating questionnaire responses and reporting the analysis results at the Pre-Board

meeting discussion held in February 2026, a discussion on eventual results was held at the meeting of the Board of Directors held in the same month, and was resolved to include the evaluation results in the Corporate Governance Report.

d. Evaluation results

- Effectiveness of the current Board of Directors is fully secured and its diversity has been enhanced. In addition, we will further revitalize the Board of Directors as well as share its responsibilities in order to appropriately address issues surrounding sustainability in our group.
- The medium-term management plan “Further Evolution 2026,” formulated as the first phase toward realizing our Group's “Long-Term Vision 2032,” will conclude in the fiscal year ending November 2026. During the current period, we will not only focus on management efforts to achieve the plan's objectives but also formulate the next medium-term management plan based on the management performance (both quantitative and qualitative aspects) achieved during the plan period. To ensure such critical decisions are made lawfully and appropriately, our Board of Directors will continue parallel discussions on its effectiveness and diversity. As necessary, it will also consider and implement specific measures to enhance its effectiveness.

Description	Disclosure of Initiatives (Update)
English Disclosure	Yes
Update Date	23 January 2026

Explanation for the relevant item

The Company conducts an analysis and evaluation of capital profitability and market valuation every fiscal year. Based on these results, the Company determines and promotes policies and measures designed to enhance corporate value. Under the current Medium-Term Management Plan "Further Evolution 2026" (December 2023 – November 2026), the Company recognizes the cost of capital (market expected return) to be approximately 8% and WACC to be approximately 4%. Aiming to maintain capital profitability exceeding these levels, the Company has set a quantitative target of achieving an ROE of 13% or higher. Regarding capital allocation, the Company considers growth opportunities, domestic and international business environments, and capital profitability, and optimally allocate funds to growth investments that serve as sources of future earnings, the maintenance of financial soundness, and shareholder returns. Furthermore, the Company has set an equity ratio of approximately 35% and a Net D/E Ratio of 1.4 times as management indicators, while pursuing financial soundness and capital efficiency, the Company targets growth by maintaining a portfolio balance between Trading Business and Stable Business. Regarding the improvement of market valuation, the Company is utilizing a logic tree to organize measures directed toward at improving PBR. Through this approach, the Company is promoting initiatives such as reducing the cost of capital and improving PER, thereby striving to enhance shareholder value.

Details regarding the concepts behind these measures, specific indicators, and progress status are disclosed on the Company's website at <https://www.toseicorp.co.jp/english/ir/policy/capital/>.

Disclosed details of the policies for determining remuneration amounts and calculation method

The maximum total amount of Directors' remuneration is set at (1) fixed remuneration, performance evaluation remuneration and Directors' bonuses of up to ¥700 million per year (including up to ¥110 million for Outside Directors, but not including salaries for employees) as determined at the 76th Ordinary General Meeting of Shareholders held on February 26, 2026, and, separately, (2) stock option compensation of up to ¥100 million per year (including up to ¥10 million for Outside Directors) as determined at the 69th Ordinary General Meeting of Shareholders held on February 27, 2019. In addition to (1) and (2) above, (3) at the 76th Ordinary General Meeting of Shareholders to be held on February 26, 2026, the amount of share-based compensation is set at no more than 400,000 shares of the Company's common stock to be allotted as share-based compensation to Executive Directors, with a total annual amount of no more than ¥400 million, and no more than 40,000 shares of the Company's common stock to be allotted as share-based compensation to Outside Directors, with a total annual amount of no more than ¥40 million. In addition, the Articles of Incorporation stipulate that the number of Directors shall be no more than 12.

Remuneration for Executive Directors consists of monetary remuneration, comprising a "fixed salary" which is scaled according to duties, "performance evaluation remuneration" which is based on the achievement of individual goals such as the performance of each Executive Director, and "Directors' bonuses" which are linked to consolidated profit before tax; "share-based compensation" and "stock options" which are aimed to increase the desire and motivation to contribute to the medium- to long-term enhancement of corporate value.

Due to the emphasis on their supervisory function from a standpoint independent of the execution of business, Outside Directors' remuneration is composed of a "fixed salary", "share-based compensation" of fixed amount, and "stock options" only. No "performance evaluation remuneration" or "Directors' bonuses" are paid to Outside Directors.

The Representative Director drafts proposals for each Director's remuneration, which are discussed by the Nomination and Compensation Advisory Committee, before being decided by resolution of the Board of Directors.

"Fixed salary"

On the basis of comparisons with the results of surveys of Directors' remuneration at listed companies, conducted by external specialist agencies, and surveys of the levels of Directors' remuneration at the Company's competitors, conducted by the Company, as well as comparison with the highest amounts of remuneration paid to employees of the Company, the Company has established fixed salary scaling guidelines, based on Directors' duties and posts held by Directors concurrently serving as Executive Officers. Remuneration for each individual Director is discussed by the Nomination and Compensation Advisory Committee, before being decided by the Board of Directors.

"Performance-linked remuneration"

The "performance evaluation remuneration" for Executive Directors is based on their individual achievement of single-year performance targets. A "standard evaluation remuneration amount" equal to 33% of the fixed salary is paid monthly together with the fixed salary, and where there is an adjustment

based on the achievement of performance targets (of between +55% and -50% of the standard evaluation remuneration), this will be paid as a lump sum together with Directors' bonuses after the conclusion of the Ordinary General Meeting of Shareholders held during the fiscal year.

Remuneration for each Director is discussed by the Nominating and Compensation Advisory Committee, evaluates the level of contribution to the governance practices and the pursuit of sustainability of the Company as well as the Group as a whole, achievement of the department in charge, and maintenance/improvement of consolidated management indicators (ROE, stock price, etc.), before being decided by the Board of Directors.

“Directors' bonuses”

As directors of a listed company, engaged in consolidated management, the Company's Directors are charged with the important tasks of maintaining and increasing the level of consolidated profit before tax and achieving the consolidated profit before tax targets each fiscal year. For these reasons, consolidated profit before tax is used to index Directors' bonuses.

Directors' bonuses are determined based on the pre-determined level of consolidated pretax profit, plus an additional amount if the consolidated pretax profit target for a single fiscal year is achieved, and are paid after the close of the Ordinary General Meeting of Shareholders for the relevant fiscal year.

“Share-based compensation”

In order to further clarify the linkage between remuneration for Directors and the Company's business performance and share value, and to continuously improve the Company's corporate value, share-based remuneration for Executive Directors is granted in the form of a number of ordinary shares of the Company after the close of the Ordinary General Meeting of Shareholders for the relevant fiscal year, calculated according to the achievement of the level set according to the amount of consolidated pre-tax profit for a single fiscal year predetermined by the Board of Directors after discussion at the Nomination and Compensation Advisory Committee.

In order to continuously improve the Company's corporate value, share-based remuneration for Outside Directors is granted in the form of the Company's ordinary shares after the close of the Ordinary General Meeting of Shareholders for the relevant fiscal year, subject to the achievement of the amount of consolidated pre-tax profit for a single fiscal year predetermined by the Board of Directors after discussion at the Nomination and Compensation Advisory Committee.

The ordinary shares granted to Executive Directors and Outside Directors are all subject to certain restrictions on transfer.

(Consolidated profit before tax targets and results in recent fiscal years)

Profit before tax (consolidated)	74th term Fiscal year ended Nov. 30, 2023	75th term Fiscal year ended Nov. 30, 2024	76th term Fiscal year ended Nov. 30, 2025
Targets	¥14.0 billion	¥16.5 billion	¥18.8 billion
Results	¥15.3 billion	¥17.3 billion	¥20.6 billion

The ratio of fixed salary to performance-linked remuneration (comprising performance evaluation remuneration and Directors' bonuses) is kept at around 60:40, and for the 76th term, the ratio was 47:53 as the Company's operating results remained solid.

“Stock options”

In order to pursue corporate management with a focus on enhancing corporate value over the medium- to long-term, the President and Representative Director drafts proposals for the number of stock options to

be granted to each Director, based on the Director's duties as well as posts held concurrently by the Director as Executive Officer, for each medium-term management plan. These proposals are examined by the Nomination and Compensation Advisory Committee, before being decided by the Board of Directors. A fixed number of stock options are granted to Outside Directors, considering the importance of their management monitoring and supervisory function aimed at enhancing corporate value.

【Support System Provided for Outside Directors/Outside Audit & Supervisory Board Members】

1. Support System Provided for Outside Directors

As a method of conveying information to Outside Directors, the Outside Directors have the option of attending the Pre-Board meeting discussion (constituted by Executive Directors, full-time Audit & Supervisory Board Members, and the Executive Officer in charge of the administrative department) or have materials and the minutes of this meeting sent to them, so that they are informed of the details of the agendas to be submitted at the board meeting before the board meeting is held. For regular board meetings, Outside Directors are notified at least three days prior to the meeting, and the agenda materials are distributed to them in advance. For extraordinary board meetings too, agenda materials are distributed to them in advance, as a general rule, and if they are unable to attend, they are informed by the General Affairs Department of the matters resolved.

2. Support System Provided for Outside Audit & Supervisory Board Members

There are four outside Audit & Supervisory Board Members and two of them are part-time. The agendas to be submitted at the board meeting are pre-discussed by both full-time and part-time Audit & Supervisory Board Members at the management meeting (constituted by the executive officers appointed by the President and CEO, held twice a month) or the Pre-Board meeting discussion. The meeting agendas/materials are distributed to them the day before either meeting. In the event any of the part-time Audit & Supervisory Board Members are unable to attend either the management meeting or the Pre-Board meeting discussion, the matters discussed at either meeting are delivered by the full-time Audit & Supervisory Board Members at the meeting of the Audit & Supervisory Board. The assistance duties for the Audit & Supervisory Board Members as well as the administrative tasks for the meeting of the Audit & Supervisory Board are undertaken by the Internal Audit Department.

2. Matters Concerning Business Execution, Audit/Supervision, Appointment of Officers, and Determination of Remuneration (Overview of the Current Corporate Governance System)

1. Operation of the Meetings of Board of Directors

The Board of Directors is constituted by nine directors, three of whom are outside directors. Based on the regulations of the Board of Directors, the directors hold regular meetings every month, and extraordinary meetings are held as necessary. As the highest management decision-making body, the Board of Directors makes resolutions on management policies and material issues and also supervises the execution of duties by the directors. In addition, the outside directors (the independent directors), by sharing their opinions from their objective standpoint, provide advices and suggestions to ensure the adequateness and appropriateness of the decisions made by the Board of Directors.

2. Nominating and Compensation Advisory Committee

The Company established the Nominating and Compensation Advisory Committee voluntarily as a consultative body to the Board of Directors to ensure appropriateness and transparency in such matters as the process of selecting candidates in connection with director election proposals submitted to the general meeting of shareholders and resolutions of the Board of Directors relating to allocation of remuneration, etc. to individual directors. The constituent members of the committee include a representative director (one person), a executive director (one person), outside director(s) (independent director(s), one person or more), and a full-time audit & supervisory board member (outside audit & supervisory board member, one person). An outside director who is a committee member will assume the office of the chair of committee. The Board of Directors will continue to fulfill its mandate from the Company's shareholders and investors by respecting the recommendations of the committee to the maximum extent and developing an appropriate governance system.

3. Audits Performed by Audit & Supervisory Board Members

The Company has adopted the Audit & Supervisory Board Member system and has the Audit & Supervisory Board with two full-time and two part-time Audit & Supervisory Board Members. All of these four persons fall under the definition of outside Audit & Supervisory Board Members as stipulated in Article 2, Item 16 of the Companies Act. The meetings of the Audit & Supervisory Board are held once a month as a general rule, and the matters of concern are discussed and resolved at such meeting. The activities conducted by the full-time Audit & Supervisory Board Members are also reported to the part-time Audit & Supervisory Board Members so that the information is commonly shared by all the Audit & Supervisory Board Members. The Audit & Supervisory Board Members also attend the meeting of the Board of Directors, the Pre-Board meeting discussion where matters to be resolved at the board meetings are confirmed in advance, as well as the management meeting, which serves as a consultative body for the matters to be approved by CEO.

The auditing activities by the Audit & Supervisory Board Members are performed in accordance with an annual audit plan. By cooperating with the accounting auditors as well as with the Audit Department, the Company has developed an efficient and viable auditing system. Furthermore, the full-time Audit & Supervisory Board Members regularly meet with each of the directors and officers in charge of each department, so as to fully understand the status of the business execution.

Such activities conducted by the Audit & Supervisory Board Members have worked effectively as an auditing function for the Company's business management and have delivered positive effects to the Company.

4. Executive Officer System

The Company has adopted the executive officer system in order to more clearly segregate the monitoring/supervision of the Company's business management, which is the duty and responsibility of the directors, from the execution of the business. The executive officers are appointed at the board meetings and the representative director and president has assumed the position of the chief executive officer.

All of the Company's executive officers adhere to its internal rules and regulations as well as to the resolutions of the Board of Directors in executing and controlling the business operations of the Company. In addition, CEO holds the management meetings twice a month as a general rule to seek for consultations on the material issues to be decided by him, and to discuss the matters to be resolved at the board meetings in advance.

5. Corporate Governance Meeting

With the aim of continuously strengthening its corporate governance, the Company holds the corporate governance meetings constituted by the executive directors and the full-time Audit & Supervisory Board Members monthly.

At the meetings, the directors and the Audit & Supervisory Board Members review and discuss the corporate governance concerns and the internal control matters in an effort to increase the corporate value of the Company, and where necessary, they receive advices from the outside experts such as corporate attorneys and/or certified public accountants.

6. Internal Audit

The Internal Audit Department under the direct supervision of the President and CEO performs audits for the entire Group in accordance with their annual auditing plan. In the event any inadequacy is discovered, recommendations for corrective actions are made to the audited departments. The audit has been quite effective as the Internal Audit Department discusses with the audited departments as to the issues in need of corrective actions and follows up with specific guidance.

7. Information Disclosure

The Company discloses various documents required by the relevant laws and regulations such as the Companies Act and the Financial Instruments and Exchange Act, and also discloses information required by the stock exchanges. The Company provides information to its stakeholders including shareholders and investors in appropriate and timely manners, though its IR activities as well as via its website. Further, with the listing on the Singapore Exchange, the Company has been making disclosures in accordance with the rules prescribed by the said exchange.

8. Audit by Accounting Auditors

The Company has entered into an auditing agreement with Shinsoh Audit Corporation in accordance with the Companies Act and the Financial Instruments and Exchange Act, and the audit of the Company's accounts and interim reviews are performed by Shinsoh Audit Corporation based on the annual audit plan.

The details of the Company's accounting auditor are as follows:

- (1) Name of Audit Corporation
Shinsoh Audit Corporation
- (2) Years of continuous auditing
17 years
- (3) Names of certified public accountants who executed audit
Designated and Engagement Partner Takashi Aikawa
Designated and Engagement Partner Hiroshi matsubara
- (4) Breakdown of assistants in auditing operations
Certified public accountants: 10 persons
Other: 6 persons

9. Limited Liability Agreement

The Company has concluded contracts for limitation of liability with Kenichi Shotoku, Hiroyuki Kobayashi and Mai Ishiwatari as Outside Directors of the Company, and Hitoshi

Yagi, Toshinori Kuroda, Tatsuki Nagano and Satoshi Ikeda as Outside Audit & Supervisory Board Members pursuant to the provisions of Article 427, paragraph 1 of the Companies Act for the liability for damages provided for in Article 423, paragraph 1 of the same, and limits their liability to the amount provided by relevant laws and regulations.

3. Reasons for Adopting the Current Corporate Governance System

The Company has set up the Board of Directors and the Audit & Supervisory Board. While appointing from outside its outside directors and all of its Audit & Supervisory Board Members, it has also adopted an executive officer system, for the purpose of operating its businesses with high transparency.

All of the Audit & Supervisory Board Members of the Company have been outside Audit & Supervisory Board Members since the time of listing. The Audit & Supervisory Board Members have always performed audits of the business management of the Company from the viewpoints of ensuring and increasing the Company's corporate value and the common interests of its shareholders. The Company further enhances its supervisory function over its management by inviting outside directors to the Board of Directors. On the management side, the Company has employed the executive officer system so as to achieve optimal distribution of decision-making functions and operational duties, as well as encouraging the delegation of authority in executing the businesses, in an attempt to strengthen its corporate governance.

As stated above, the management of the Company and the current system of monitoring and supervision over the management is adequately functioning, and the Company continues to maintain the system currently in place.

The Tosei Group's materiality consists of the following six materialities, which are linked to the three themes of "Coexistence with the environment", "Action to address social issues", and "Solid corporate governance". Coexistence with the environment i. Action on climate change and promotion of a recycling-oriented society ii. Environmentally friendly manufacturing and service provision Action to address social issues iii. Healthy work environment that embraces diversity and individuality iv. High quality products and services that give safety and reassurance v. Creation, rehabilitation and revitalization of local communities Solid corporate governance vi. Governance that promotes healthy corporate growth In "Coexistence with the environment", in accordance with the Tosei Group Environmental Policy, in addition to addressing the urgent issue of climate change on a global scale, we are promoting energy conservation in our revitalization, development, and leasing businesses, introducing renewable energy sources such as the installation of solar panels and the use of non-fossil certificates, and introducing measures that contribute to resource conservation. In addition to introducing measures that contribute to resource conservation, we are striving to reduce environmental impact through our business operations, such as product planning that takes biodiversity into consideration and coexists in harmony with the environment. Regarding climate change issues, since the release of the Disclosure of Information Based on TCFD Recommendations in September 2022, we have conducted an annual climate change risk survey, analyzed the risks and opportunities that climate change poses to our business, and examined our strategies, and disclosed the results on our website. As our Group's Scope 1 and Scope 2 GHG emissions reduction targets, we are implementing initiatives to reduce GHG emissions by 50% from 2022 level by 2030 and achieve our decarbonization target, netzero emissions in 2050, and we are promoting efforts to achieve these targets. In addition, through the distribution of questionnaires to tenants of the buildings held by the Group and surveys to our business partners, we are working to improve customer satisfaction and sustainability awareness, and we are striving to collaborate and cooperate with our stakeholders.

	In "Action to address social issues", we are working to address social issues that the Group should give priority to, such as the utilization of diverse human resources, pursuit of job satisfaction, promotion of human capital management including human resource development, respect for human rights, which is increasingly required of companies as a global social issue, improvement of quality of products and services with consideration for safety and security, and revitalization of local communities. Under "Solid corporate governance," we are working to establish a governance structure that promotes sound corporate growth by enhancing governance sophistication, compliance, and risk management. To raise awareness of sustainability, ESG training is provided annually on a groupwide basis to promote understanding of environmental and social issues such as climate change, human rights and the Tosei Group Ethics Code and compliance in general (including the prohibition of conduct that leads to corruption or corrupt practices of any kind). As part of our efforts to raise awareness of sustainability, in addition to training, we are working to foster environmental conservation awareness through activities to promote energy and resource conservation within the company, as well as volunteer cleanup activities aimed at preserving biodiversity and contributing to local communities. In addition, we are actively implementing and continuing local social contribution activities, such as support activities for the areas affected by the Great East Japan Earthquake and for children's homes. To inform stakeholders at large of the Group's ESG (environment, society and government) initiatives, the Group publishes the "Tosei Group ESG Report" and strives to improve sustainability information disclosure on its website.

Risk Management and Compliance Committee's meeting	Monthly	Executive Officers (excluding President and CEO), heads of each department, officers responsible for risk management and compliance at each Group company, and full-time Audit & Supervisory Board Members (observers)
Information Disclosure Committee's meeting	Monthly + Extraordinary	Officers responsible for information disclosure, Senior Executive Officers, and Executive Officers designated by chairman of the Committee

1. Compliance with Laws and Regulations, etc

(1) Ensure awareness regarding compliance with laws and regulations

At the beginning of each fiscal year the Risk Management and Compliance Program is drawn up, and trainings in the relevant laws and regulations, measures to cultivate awareness of legal issues have been implemented, in addition to which a compliance and corporate philosophy questionnaire is circulated every fiscal year to all officers and employees of the Group in order to identify issues and consider responses to such issues, and reflect them to each measure for the next fiscal year's Program.

In addition, the Risk Management and Compliance Committee's meeting and a business law liaison meeting are held every month, during which participants are duly made familiar with trends in amendments to laws and regulations, etc. and notices from ministries with jurisdiction etc., while the results of deliberations by committees are reported to the monthly meetings of the Board of Directors.

Moreover, self-inspections are implemented at each department regularly for the purpose of ensuring properness and legal compliance of their operations on their own, and through this, we check compliance at the frontlines of operations while also raising the awareness of each of the

employees engaged in the operations.

(2) Strengthen the checking function for breaches of laws and regulations

As well as the monitoring and supervising system by three Outside Directors and four Audit & Supervisory Board Members (all Outside Audit & Supervisory Board Members) at the Board of Directors' meeting, periodic meetings are held to exchange opinions between Audit & Supervisory Board Members and Outside Directors, and between Audit & Supervisory Board Members and legal advisors, so as to check for any signs of breaches of laws and regulations by the Directors responsible for executing business.

Moreover, full-time Audit & Supervisory Board Members conduct business audits on the Company's businesses, while the Internal Audit Department conducts internal audits on the Company and the Group companies and self-inspections at the departmental level are implemented. Meanwhile, the Company continues to operate the whistle-blowing system providing three points of contact, internal, external and through Audit & Supervisory Board Members, and to conduct training sessions to promote an understanding of the system including protection of whistle-blowers.

(3) Promptly react to any breach of laws and regulations, and make information disclosure

At important meetings and committees attended by Executive Directors, including those of the Board of Directors, checks are made for signs, or actual occurrences, of breaches of laws and regulations, instructions are given regarding responses, and status reports are made. Also, the Company has established a system to establish a crisis management office headed by the President and CEO and disclose information in a timely and appropriate manner based on the Crisis PR Manual in the event that material breaches and/or incidents occur.

(4) Eliminate any association with anti-social forces

The Company thoroughly conducts screening of counterparties prior to the inception of transactions. For continued transactions, as well, we conduct a periodic screening to confirm whether the Company should or should not continue transactions. In addition, the Company carries out trainings on action against anti-social forces for all officers and employees of the Group in order to raise their awareness of the importance of elimination of transactions with anti-social forces.

2. Storing and managing information

(1) Ensure awareness regarding the importance of storing and managing information

Every fiscal year we implement training for the information asset management, including personal information (this includes training for the prevention of insider trading) for all employees of the Company, and by doing so, we have continued to educate and inculcate rules for the handling of important information. In addition, through the trainings, we make employees well aware of measures to be taken by the Company, etc. in the event of infringement of the rules, and make efforts to enhance awareness of information management.

During the fiscal year under review, the Group continued conducting mock drills related to targeted e-mail attacks and vulnerability assessments of our internal network by an external third party to reduce the risk of information leaks and information isolation triggered by network crimes with increasing complexity and sophistication, and made efforts to reduce the risk of information leaks.

(2) Enhance the initiatives for preventing the leakage of important information

With regard to the state of compliance with rules for the handling of information assets (printed

and electronic information), in addition to self-inspections implemented at all departments and audits conducted by the Internal Audit Department, we have strengthened the penalties for breaches and continued targeted guidance for those who infringe the rules.

As efforts to prevent information leaks, we have methodically introduced information management methods to effectively and comprehensively protect our information network from computer viruses, hacking, and other threats as well as systems to continuously monitor our information devices, including personal computers and other devices that we provide for employees and data servers, and detect cyberattacks early and respond quickly. Moreover, in order to further enhance security in telework and cloud services, we introduced and begun implementing Secure Access Service Edge (SASE) services by the fiscal year under review as a system to achieve zero trust, a concept that dispels the notion of internal and external network boundaries and protects against threats by verifying the security of any access to information assets requiring protection, without trusting any such access by default.

In addition, to reduce the risk of an information leak within the Group companies, the Company continues to actively provide support and guidance for the Group companies through its organizations.

- (3) Ensure thorough familiarity with material information and information for timely disclosure and prevention of misstatements

The Information Disclosure Committee meets on a monthly and a temporary basis to understand which information is subject to timely disclosure, and to confirm information disclosure methods, etc. In addition, any changes in the rules regarding timely disclosure in connection with amendments of listing rules, etc. are reviewed on a monthly basis by the Committee and reported to the monthly meetings of the Board of Directors.

During the fiscal year under review, we further enhanced the content of our disclosures about the information related to sustainability in our annual securities report for the previous fiscal year (fiscal year ended November 30, 2024).

3. Management of Risk of Loss

- (1) Ensure thorough understanding, analysis and assessment of risks

In accordance with the Risk Management and Compliance Program formulated at the beginning of each fiscal year, we implement a survey to identify about 30 significant risks that have material impacts on the Group's business (once a year). In addition, with regard to the external environment, we conduct interviews with major business partners on specified themes in order to monitor real estate market conditions and transaction conditions, and conduct stress tests (twice a year), taking account of the financing status of financial institutions. The results are reported at the Board of Directors' meetings.

We have also instructed each Group company to formulate plans for managing risks and promoting compliance in light of each company's business operations, focusing on ensuring that the parent company organization appropriately supports these plans.

- (2) Enhance monitoring of risk management

At monthly Risk Management and Compliance Committee's meeting, the states of our responses to emerging risks are checked, information gathering efforts on latent risks are continued, and the details are reported at the Board of Directors' meeting held each month, in addition to which the outcomes of the responses are monitored by the Internal Audit Department.

In addition, the results of internal audits conducted by the Internal Audit Department are

periodically reported to the Board of Directors, in order to share issues identified through audits and utilize them for improvement of operation quality.

- (3) Establish a proper internal reporting system for any occurrences and/or signs that contingencies may occur

All employees are encouraged, at morning briefings, training sessions and meetings, to report promptly to the heads of each department, and the heads of each department are kept informed of their duty to report to Executive Directors and Audit & Supervisory Board Members.

- (4) Promptly react to any occurrence of contingencies and disclose information

In case of occurrence of a contingency, a natural disaster, etc., a crisis management office directed by the President and CEO as the head will be established to collect information, confirm facts and circumstance, develop and implement countermeasures, and properly disclose information in a timely manner. In addition, mock drills on contingencies such as large-scale earthquake and fire are held periodically at each location, to prepare ourselves to be able to act calmly and appropriately in the event of any contingency.

4. Efficient Execution of Duties by the Directors

- (1) Carry out deliberation and decision-making on the important management matters, in an efficient, timely and appropriate manner

In order to further enrich and to make more efficient the deliberations of the Board of Directors (held on a regular and a temporary basis), we have implemented management meetings and pre-Board meeting discussions to confer beforehand on matters to be resolved by the Board of Directors.

- (2) Eliminate excessive pursuit of efficiencies in the management plans, etc. and pursue the balance with the soundness

Annual business plans and budgets are prepared toward the achievement of the three-year medium-term management plan.

When drawing up the business plans and budgets for each fiscal year, we analyze the economic environment in Japan and overseas and the operating environment in the real estate market, conduct separate discussions with each department and Group company without setting goals that are over-ambitious, and make our final decisions as consolidated budgets at the Board of Directors' meeting.

In addition, during the term, variance from the annual plan is checked through the reporting of monthly closing at the monthly management meeting. Furthermore, in the growth strategy meeting held on a half-yearly basis, each department's progress toward the annual plan is checked and is given appropriate instructions and advice from management and related departments, to make it possible to correct the course toward achieving the initial plan.

- (3) Establish a system to allow appropriate and efficient execution of business

We have been implementing organizational changes and other modifications in order to execute business appropriately and efficiently. This is in response to changes in the content of the businesses, the increase in the number of employees associated with the expansion of business including new businesses, and the increase in the number of Group companies, etc.

5. Properness of operations of entire Group

- (1) Ensure compliance with laws and regulations by officers and employees of each Group

companies

Through various trainings, etc. conducted by the Company and each Group company, we are striving for a full penetration of the understanding of the Group's philosophy and improvement of compliance awareness. In addition, we share information on compliance through implementation of the Risk Management and Compliance Program, established by the Company and each Group company, and attendance of responsible personnel of each Group company to meetings of the Company's Risk Management and Compliance Committee. Furthermore, the Company's in-house booklets about compliance with laws and regulations, called the Compliance Mind, are distributed to the Group companies to keep them informed of the importance of compliance. Also, we conduct the compliance and corporate philosophy questionnaire every fiscal year for all officers and employees in the Group, identify issues of each Group company, and consider responses to such issues.

- (2) Ensure thorough understanding, analysis and assessment of operational risks related to each Group company, and responses to contingencies

Regarding the management of each Group company and significant risks (about 30 items) related to their business, risk evaluations are conducted each fiscal year. At the same time, the Company's Executive Directors, Executive Officers in the Administrative Division, etc. are concurrently appointed as Director or Audit & Supervisory Board Member for each Group company with the remit of monitoring and supervising each Group company's responses to risks. Every month, each Group company reports management conditions and their responses to risks at the meeting of the Board of Directors or pre-Board meeting discussions of the Company, and the Risk Management and Compliance Committee's meeting. Moreover, the response of these Group companies and the results thereof are continuously audited or monitored by the Company's Internal Audit Department, which may also conduct checks using external agencies as necessary, and then we have the Internal Audit Department report the results at the Board of Directors' meeting.

In addition, we have a communication system in place where employees are required to promptly report any risk materializing or any sign thereof upon identifying it to the chairman of the Risk Management and Compliance Committee, so that such information is communicated smoothly and simultaneously with full-time Audit & Supervisory Board Members of each Group company and full-time Audit & Supervisory Board Members of the Company.

- (3) Formulate a medium-term management plan, business plans for single fiscal year and budgets relating to the entire Group, manage the progress of these plans, and respond to new issues appropriately

Annual business plans and budgets are prepared for each Group company, aimed toward the achievement of the Group's three-year medium-term management plan. When drawing up these plans and budgets, we analyze the economic environment in Japan and overseas as well as the environment for the business of each Group company, then make final decisions as consolidated budgets at the Board of Directors' meeting of the Company following separate discussions with each Group company so as to avoid setting goals that are over-ambitious.

The progress of the annual business plans and budgets is reported by representative directors of each Group company at the Board of Directors' meeting or the pre-Board meeting discussions of the Company on a monthly basis, and also, responses to new issues are deliberated and areas to be focused during the next half-year period are specified at the growth strategy meeting held with each Group company on a half-yearly basis.

- (4) Establish a system for prompt reporting of significant matters of each Group company to the

Company

With regard to important matters in the management and latent risks of each Group company, reports are made each month at meetings of the pre-Board meeting discussion and the Risk Management and Compliance Committee of the Company. Any contingencies, if occurred, are immediately reported to the chairman of the Risk Management and Compliance Committee of the Company, and a contingency management meeting composed of members including officers of the Company and each Group company is established to deliberate and implement countermeasures as a Group and to disclose information in a timely and appropriate manner.

- (5) Enhance the system for ensuring the appropriateness of the financial reporting relating to the entire Group

In order to ensure the appropriateness of the financial reporting and the expeditious consolidated financial closing, the Corporate Management Department of the Company holds a meeting with the accounting department of each Group company for every quarterly closing to share information and provide instructions.

Furthermore, annual plans for internal control (J-SOX) are prepared to ensure the appropriateness of the financial reporting, and the Internal Audit Department of the Company conducts assessments and the audit corporation conducts audits.

In addition, the Company strengthens the system to ensure the appropriateness of financial reporting for the entire Group by leveraging a shared service in which the Company undertakes the accounting operations of some of the Group companies.

- (6) Eliminate wrongful acts and/or irregular transactions using the Group

Wrongful acts and/or irregular transactions are monitored by Directors and Audit & Supervisory Board Members of the Company through management reports of each Group company at the pre-Board meeting discussions each month, opinion-exchanging meetings (once a year) attended by Outside Directors and the audit corporation, opinion-exchanging meetings (once a year for each) attended by full-time Audit & Supervisory Board Members of the Company with representative directors of major Group companies, and the investigation of subsidiaries by full-time Audit & Supervisory Board Members (once a year). Also, internal rules have been established requiring any significant transactions by a Group company with the Company or other Group companies to be reported in advance to the Board of Directors of the Company.

6. System to ensure effective auditing by Audit & Supervisory Board Members

- (1) Designate members of staff to assist Audit & Supervisory Board Members in their duties

The Internal Audit Department has been assigned as the department in charge, and the personnel of the Internal Audit Department provide assistant duties under the command of Audit & Supervisory Board Members and carry out administrative duties for the Audit & Supervisory Board.

- (2) Ensure the independence of the aforementioned members of staff from Directors

Evaluations, rewards and punishments, and transfers of personnel of the Internal Audit Department are carried out after the concurrence from the Audit & Supervisory Board is obtained in advance.

- (3) Ensure prompt reporting to Audit & Supervisory Board Members from all officers and employees who have identified occurrence or signs of any material losses, any breach of laws and regulations or misconduct, and prompt responses to the inquiry from Audit & Supervisory Board Members
Reports are made in a timely and appropriate manner at corporate governance meetings,

comprising Executive Directors and full-time Audit & Supervisory Board Members (held monthly), as well as in the interviews held by full-time Audit & Supervisory Board Members with the President and CEO (bimonthly) and with other Executive Directors and the heads of each department (regularly).

In addition, opinion-exchanging meetings concerning threefold auditing are held regularly (once a half year), between the Company's full-time Audit & Supervisory Board Members, the Internal Audit Department, and the audit corporation.

Regarding the whistle-blowing system, besides informing the employees of the Company that full-time Audit & Supervisory Board Members of the Company will act as regular contact points, reports made to the internal contact point (the chairman of the Risk Management and Compliance Committee) or to the external contact point (an external agency) will all be promptly reported to full-time Audit & Supervisory Board Members. Therefore, the system is designed so that reported facts are swiftly transmitted to full-time Audit & Supervisory Board Members.

- (4) Ensure prompt reporting to Audit & Supervisory Board Members from all officers and employees of each Group companies who have identified occurrence and signs of any material losses attributable to the management of each Group company, any breach of laws and regulations or misconduct, and prompt responses to the inquiry from Audit & Supervisory Board Members

At the pre-Board meeting discussions of the Company, where each Group company makes the monthly management reporting, and at interviews by full-time Audit & Supervisory Board Members of the Company with representative directors of each Group company held on a regular basis, each Group company is required to report occurrence and signs of any material losses and significant risks associated with management of the Group company. In addition, all officers and employees of the Group are continuously informed at morning briefings and training sessions that those who identify any breach of laws and regulations or misconduct have a duty to report Audit & Supervisory Board Members of the Company promptly.

- (5) Ensure full notification of prohibition of disadvantageous treatments for the reason of a report by officers and employees of the Company and the Group companies to Audit & Supervisory Board Members

Regulations of the Company explicitly state that those who report Audit & Supervisory Board Members or whistle-blowers are protected from any disadvantageous treatments. Such policy is continuously informed at training sessions, etc., and is also stated in the explanation of systems on the Company's intranet and in leaflets, etc. distributed to employees.

In the compliance training sessions regularly held, video recording of a lecture on the whistle-blowing system by the Company's Director was widely distributed, in an effort to explain in detail the Company's emphasis on protection of whistle-blowers when a whistle-blowing has been made.

- (6) Develop a whistle-blowing system across the entire Group and promptly report to Audit & Supervisory Board Members if whistle-blowing occurs

The Company continues to operate a whistle-blowing system that provides three contact points, internal, external, and through Audit & Supervisory Board Members of the Company. Reports to the internal and external contact points, if any, are promptly reported to Audit & Supervisory Board Members, and when no whistle-blowing has occurred, this fact is reported on a monthly basis.

In addition, all officers and employees of the Group are provided with a leaflet on which the contact points of the whistle-blowing system are listed, and are continuously informed of the system through various training sessions relating to compliance, morning briefings, and the

publication of notice, etc.

- (7) Provision of expenses associated with execution of duties of Audit & Supervisory Board Members

Expenses required for audit activities by and the studies of Audit & Supervisory Board Members are appropriated in the budget, and expenditures are reimbursed in a timely manner. Also, any unbudgeted expenditures required for audit activities are properly handled.

- (8) Directors' understanding of and support for the audits by Audit & Supervisory Board Members and proactive improvement of the issues raised by Audit & Supervisory Board Members

At the Board of Directors' meeting held subsequently to the Ordinary General Meeting of Shareholders, the Directors receive explanations of Audit & Supervisory Board Members' annual audit plans and make efforts to understand such plans and cooperate in their implementation. Also, Directors receive reports on audit activities by full-time Audit & Supervisory Board Members on a monthly basis, and report at the Board of Directors' meeting once every three months the status of their responses to the issues raised by Audit & Supervisory Board Members through meetings, etc.

- (9) Cooperation by Directors aiming to enhance audits by Audit & Supervisory Board Members across the entire Group

At the Board of Directors' meetings, the pre-Board meeting discussions, management meetings, and the Risk Management and Compliance Committee's meetings, Directors report the management conditions of the entire Group, risk information, etc. to Audit & Supervisory Board Members and share information. Furthermore, the periodic interviews by full-time Audit & Supervisory Board Members with Executive Directors including the President and CEO, heads of each department, and representative directors of major Group companies, as well as the liaison meetings of Audit & Supervisory Board Members of the Group companies (on a half-yearly basis) are held where Executive Directors offer cooperation as full-time Audit & Supervisory Board Members require.

2. Basic Policies for Eliminating Anti-social Forces and Progress of System Establishment

The Company recognizes any association with anti-social forces will result in a breach of laws and regulations. The Company always treats this as a critical matter and takes countermeasures so as to refuse any transaction with such. In the event any dispute arises between the Company and anti-social forces, it will stand firmly against them.

In ordinary times, the Company makes it a rule to research and confirm that new business counterparty is not one of the anti-social forces, prior to the commencement of any transaction. If any issue arises, it will be handled, not by an individual, but by a team including the General Affairs Department (to which an officer responsible for unreasonable claim preventions belongs), and the Company will also coordinate closely with the legal counsel and the office of police responsible for the area. In addition to developing "The manual for acting against anti-social forces", the Company has provided the basic policies for eliminating any contact with anti-social forces and the checkpoints on the specific actions in the Company's compliance guidebook. The Company annually offers a training session and educate its employees in coping with such anti-social forces.

Supplementary Explanation Concerning the Subject Matter

Basic Policy as to How the Persons Who Control Decision-making of the Financial and Business Policies of the Company Should Be

(1) Contents of the basic policy

The Company believes that the persons who control decisions on the Company's financial and business policies need to be persons who fully understand the details of the Company's financial and business affairs and the source of the Company's corporate value and who will make it possible to continually and persistently ensure and enhance the Company's corporate value and, in turn, the common interests of its shareholders.

The Company believes that ultimately its shareholders as a whole must make the decision on any proposed acquisition that would involve a change of control of the Company. Also, the Company will not reject a large-scale acquisition of the shares in the Company if it will contribute to the corporate value of the Company and, in turn, the common interests of its shareholders.

Nonetheless, there are some forms of large-scale acquisition of shares that benefit neither the corporate value of the target company nor the common interests of its shareholders including those with a purpose that would obviously harm the corporate value of the target company and the common interests of its shareholders, those with the potential to substantially coerce shareholders into selling their shares; those that do not provide sufficient time or information for the target company's board of directors and shareholders to consider the details of the large-scale acquisition, or for the target company's board of directors to make an alternative proposal and those that require the target company to discuss or negotiate with the acquirer in order to procure more favorable terms for shareholders than those presented by the acquirer.

It is particularly necessary and essential for the persons who make decisions on the Company's financial and business policies to (i) maintain the system under which the Company group covers with its comprehensive capability the five business fields and peripheral fields that allow the "integration of real estate and finance," which leads to maximization of the potential of the Company group, (ii) maintain employees who support those businesses with knowledge and experience specializing in real estate and finance, etc., (iii) maintain the Company's trust in the real estate industry that has been built up over a long period of time based on the establishment of the ability and information networks supporting various value creation technologies, and (iv) master knowhow that enables comprehensive business. Unless the acquirer of a proposed large-scale acquisition of the shares in the Company understands the source of the corporate value of the Company as well as the details of financial and business affairs of the Company and would ensure and enhance these elements over the medium-to-long term, the corporate value of the Company and, in turn, the common interests of its shareholders would be harmed.

The Company believes that persons who would make a large-scale acquisition of the shares in the Company in a manner that does not contribute to the corporate value of the Company or the common

interests of its shareholders would be inappropriate as persons that control decisions on the Company's financial and business policies. The Company believes that it is necessary to ensure the corporate value of the Company and, in turn, the common interests of its shareholders by taking necessary and reasonable countermeasures against a large-scale acquisition by such persons.

(2) Overview of the special measures to realize the basic policy

In the recent business environment, uncertainty is heightening amid revolutionary changes, including the escalation of climate change issues, the emergence of geopolitical risks, the declining birthrate and the aging of society, the acceleration of behavioral changes triggered by the COVID-19 pandemic, and rapid advances in digital technology.

In order to adapt to such changes in the business environment, ensure the Group's continued growth into the future, and enhance corporate value by contributing to the realization of a sustainable society, we have formulated "Tosei Group Long-Term Vision 2032" in addition to the existing three-year medium-term management plan to clarify "our direction (what we envision ourselves to be)" based on our core competencies that are the source of our Group's competitive advantage and to make Group-wide efforts to realize our vision.

(A) Tosei Group Long-term Vision 2032

We will contribute to the realization of a sustainable society as a unique real estate portfolio manager with diverse solution capabilities.

The Group, through its six real estate-related businesses, has provided various solutions to realize the potential value of real estate. The Company is also expanding the business domain while mitigating risks by combining multiple businesses with different business attributes and are continuing to improve its real estate investment technique as a portfolio manager capable of handling a wide variety of assets. Furthermore, in the asset management domain, the Company offers world-class services trusted by real estate investors around the world and will work toward growing its business and realizing the Long-Term Vision 2032 by further expanding the Company's core competencies, i.e., the Company's "Real Estate Solution Capabilities," "Portfolio Management Capabilities," and "Global Reach Capabilities"

(B) The new medium-term management plan "Further Evolution 2026" (from December 2023 to November 2026)

For the initial three years (first phase) of the nine years to realize the Long-Term Vision, we have formulated the new medium-term management plan "Further Evolution 2026" (from December 2023 to November 2026). Under this plan, we will enhance the competitive edge of the Group and also contribute to the realization of a sustainable society by executing various measures based on the five basic policies under the following main policy.

The major policy of this plan is to "Aim for further evolution as a unique comprehensive real estate company capable of contributing to the realization of a sustainable society", the plan will aim for the evolution and growth of the six existing business portfolios by strengthening "real estate solution capabilities," "portfolio management capabilities," and "global reach," which are the sources of the Group's corporate value, and expanding the service domains of each business and maximizing synergies within the Group.

During the fiscal year under review, aiming for the "evolution and growth of the six existing business portfolios," the Revitalization Business, the Company's mainstay business, achieved

strong sales by stepping up efforts to sell income-generating condominium buildings and high-priced pre-owned condominiums in the central area of Tokyo. Additionally, in the Development Business, the Company pushed sales of large-scale properties to domestic and overseas institutional investors while also working to expand sales of the “T’s Cuore” series in the wooden apartment development as a response to persistently high construction costs.

In the Rental Business, one of the Company’s stable sources of income in our portfolio management, performance exceeded the plan due to the review of the sales plan as well as the revision of rent. In the Fund and Consulting Business, the Company has steadily accumulated achievements as a partner for domestic and overseas institutional investors in domestic real estate investment, including a new appointment for asset management service for one of Japan’s largest share-house portfolios. This resulted in an expansion in assets under management and a significant increase in revenue and profits. In the Hotel Business, by effectively taking advantage of robust inbound demand, the Company maintained high guest room occupancy rates and higher-than-planned average guest room rates, resulting in a significant increase in revenue and profits.

To realize “Tosei Group Long-Term Vision 2032”, we will make efforts to ensure and enhance the common interests of shareholders by improving the Group’s corporate value through steady achievement of the targets set in the medium-term management plan and realization of proper corporate governance.

- (3) Overview of the measures to prevent persons deemed as inappropriate, in view of the basic policy, from controlling the decisions on the Company’s financial and business policies

This plan is a measure to prevent persons deemed as inappropriate, in view of the aforementioned basic policy, from controlling the decisions on the Company’s financial and business policies, and its objective is to ensure and enhance the Company’s corporate value and, in turn, the common interests of its shareholders.

The Plan sets forth the procedures, etc. to be followed by a person who intends to make a purchase of the Company’s shares, etc. that falls under (A) through (c) below (hereinafter, the “Acquirer”).

- (A) A purchase or other acquisition that would result in the holding ratio of share certificates, etc. (*kabuken tou hoyuu wariai*) of a holder (*hoyuusha*) totaling at least 20% of the share certificates, etc. (*kabuken tou*) issued by the Company; or
- (B) A tender offer (*koukai kaitsuke*) that would result in the party conducting the tender offer’s ownership ratio of share certificates, etc. (*kabuken tou shoyuu wariai*) and the ownership ratio of share certificates, etc. of a person having a special relationship (*tokubetsu kankei-sha*) totaling at least 20% of the share certificates, etc. (*kabuken tou*) issued by the Company.
- (C) Regardless of whether or not any of the acts provided for in items (A) and (B) above is conducted, an act (i) conducted between (a) a person who intends to acquire share certificates, etc. of the Company, or a joint holder (*kyoudou hoyuusha*) or a person having a special relationship with respect to that person (the “Acquirers of share certificates, etc.” in this item (C)) and (b) one or more other shareholders of the Company and that constitutes an agreement or other act as a result of which the other shareholder(s) become(s) a joint holder of the Acquirers of share certificates, etc. or any act that establishes a relationship whereby the Acquirers of share certificates, etc. or the other shareholder(s) substantially control(s) the other or they act jointly or in concert with each other, and (ii) that would result in the total holding ratio of share certificates, etc. issued by the Company of that Acquirers of share certificates, etc. and the other shareholder(s) accounting for 20% or more.

Specifically, the Acquirer must provide the Company a statement of undertaking and an acquisition document that includes necessary information, prior to making an acquisition.

Upon receiving these documents, an independent committee will conduct the review of the acquisition terms, collection of information on materials such as the management plans and business plans of the Acquirer and the Company's board of directors and comparison thereof, the review of alternative plans, etc. presented by the Company's board of directors, and discussions and negotiations with the Acquirer, while obtaining advice from independent experts. In the meantime, the Company will disclose information in a timely manner.

When the acquisition is not in compliance with the procedures stipulated in the plan, and/or there is possibility of such offer to apparently cause harm to the corporate value of the Company and, in turn, to the common interests of shareholders, and it is appropriate for the Company to implement the gratis allotment of stock acquisition rights, the independent committee will recommend the implementation the gratis allotment of stock acquisition rights to the Company's board of directors. In addition, when a meeting of shareholders is convened to confirm the intent of the Company's shareholders, the Company's board of directors will comply with the shareholders' intent. These stock acquisition rights will be allotted with an exercise condition that does not allow, as a general rule, the Acquirer to exercise the rights and an acquisition provision to the effect that the Company will acquire the stock acquisition rights in exchange for shares of the Company from persons other than the Acquirer. The Company's board of directors will resolve, as an agency stipulated by the Companies Act, as to the implementation or non-implementation of the gratis allotment of stock acquisition rights, fully respecting the recommendation of the Independent Committee. In addition, when a meeting of shareholders is convened to confirm the intent of the Company's shareholders, the Company's board of directors will follow the shareholders' intent. If the procedures under this plan have commenced, the Acquirer must refrain from making any acquisition until the Company's board of directors resolves not to trigger the plan. The plan will remain in effect until the conclusion of the ordinary general meeting of shareholders for the last fiscal year ending within five years of the conclusion of the 74th Ordinary General Meeting of Shareholders. However, if, before the expiration of the effective period, the Company's board of directors resolves to abolish the plan, the plan will be abolished at that time.

(4) Assessment by the Company's board of directors regarding specific measures and reasons thereof

Company's board of directors is of the view that the various measures to enhance the corporate value, including the Long-Term Vision, the new medium-term management plan and other measures to strengthen corporate governance have been established as specific actions to continuously and sustainably enhance the corporate value of the Company and, in turn, the common interests of its shareholders, and that these are in line with the basic policy, do not undermine the common interests of the Company's shareholders and are not for the purpose of maintaining the positions of the Company's corporate officers.

In addition, the Company's board of directors is of the view that the plan is in line with the basic policy, does not undermine the common interests of the Company's shareholders, and is not for the purpose of maintaining the positions of the Company's corporate officers, based on the following reasons: an approval at the general meeting of shareholders has been obtained for its renewal; its maximum effective period is stipulated to be five years and it can be abolished at any time by the resolution of the Company's board of directors; an independent committee, which is comprised of the members that are independent of the management of the Company, has been established and the countermeasures stipulated in the plan requires the decision by the independent committee for actual executions; and

the plan fully satisfies the three principles set out in the “Guidelines Regarding Takeover Defense for the Purposes of Protection and Enhancement of Corporate Value and Shareholders’ Common Interests” released by the Ministry of Economy, Trade and Industry and the Ministry of Justice on May 27, 2005. In addition, the Plan is set in line with the Guidelines for Corporate Takeovers—Enhancing Corporate Value and Securing Shareholders’ Interests— released by the Ministry of Economy, Trade and Industry on August 31, 2023.

2. Other Matters Concerning the Corporate Governance System

1. Overview of the Corporate Governance System

Tosei Group has implemented the “system to ensure that directors’ execution of duties comply with relevant laws and regulations as well as the articles of incorporation, and other systems to ensure appropriateness in the operations of the Company”, as stipulated in the Company Act (so called “an internal control system”). (Please refer to “Basic Policies of Internal Control Systems and the Progress of the System Development” for the detail.) Furthermore, the Group is strengthening its governance by enhancing its risk management system and offering compliance training for all of its employees in the Group, as well as to developing and enhancing the timely information disclosure system. To ensure the sustainability of the Group, the ESG Promotion Committee (now the Sustainability Committee) was established in June 2021 based on the Tosei Group ESG Policy, and continues to address social issues related to the environment and society. In addition, Tosei Group has expressed its support for the Task Force on Climate-related Financial Disclosures (TCFD) and have collected and analyzed data on the impact of climate change-related risks and opportunities on the Company's business activities, earnings, and financial plans, and has disclosed information in accordance with the four disclosure categories recommended by the TCFD on our website. we will continue to recognize that environmental, social and corporate governance initiatives are important management matters, and will aim for its continuous growth by contributing to society through earnest efforts to address social issues related to real estate.

2. Overview of Timely Information Disclosure System

(1) Basic Policy

From the viewpoint of corporate governance, corporate social responsibility, and the enhancement of corporate value over the medium- to long-term, the Company believes that proper management of corporate information and timely and rational disclosure of important information is the most important responsibility of a corporation. Therefore, it believes that a proper management of the corporate information and a timely and rational disclosure of the important information is the most important responsibility of a corporation. Hence, the Company is making efforts to develop necessary internal systems for its timely information disclosure, in order to firmly establish the investors’ trust in the Company and the credit standing of the Company in the capital market.

(2) System for a Timely Information Disclosure

(A) The Officers/Department in Charge of Information Disclosure

(i) The Officers/Departments in Charge of Information Disclosure

The executive responsible for the Company's information disclosure is the Senior Executive Officer of Administrative Division and the department in charge is the Corporate Planning Department.

(ii) Information Disclosure Committee

The Company has a deliberation body, the Information Disclosure Committee which consolidates and then shares all the relevant information, reviews and determines necessity and contents of the disclosure, in order to ensure a proper and timely disclosure of the corporate information.

Chaired by the executive in charge of information disclosure, the Disclosure Committee is constituted by Company's the Senior Executive Officers of each division, and the Executive Officers of each department appointed by the chair in charge of information disclosure, Corporate Planning Department functioning as a secretarial office. The Disclosure Committee is responsible for ensuring the Company's disclosure in accordance with the relevant laws and regulations described in (C) below.

(B) Identifying and Verifying Information to be Disclosed

In order for the Company to disclose its corporate information in a proper and timely manner, the Corporate Planning Department in charge of the information disclosure works to establish a system which enables close communications with the Board of Directors, the Management Committee, the operational and administrative departments, as well as the Company's subsidiaries.

(i) The Board of Directors, Pre-Board meeting discussion, and Management Committee Meetings

The officer in charge of information disclosure is a constituent member of the Board of Directors, the Pre-Board meeting discussion and the Management Committee Meeting, and the Company maintains a system which allows prompt identification of the matters that may require timely disclosures.

(ii) The Operational and Administrative Divisions

As for the operational and administrative divisions, the General Affairs Department reviews the circulated approval request memorandums, from the compliance standpoint. This enables the Corporate Planning Department to identify the matters which may be subject to information disclosure.

(iii) The Subsidiaries

We are striving to verify conditions of the Company's subsidiaries by requiring a monthly report regarding the operational conditions of the Company's subsidiaries at the Pre-Board meeting discussion, in addition to requiring an operational report from the Board of Directors once a quarter. Also, the Company maintains a system through which it acquires their information requiring information disclosure by such measures as sending directors to the subsidiaries.

(C) The Guidelines for Timely Information Disclosure

The following laws and regulations are referred to by the Company as the basis in determining the necessity of timely disclosure of its corporate information:

- (i) Companies Act, Financial Instruments and Exchange Act, and other relevant laws and regulations
- (ii) Rules and regulations of the Tokyo Stock Exchange
- (iii) Rules and regulations of the Singapore Exchange, which the Company is required to comply with because of its secondary listing on the said Exchange
- (iv) The Articles of Incorporation of the Company
- (v) The Insider Trading Prevention Regulations of the Company
- (vi) The Information Disclosure Regulations of the Company
- (vii) The Disclosure Policies of the Company (available on the Company's website)

(D) Operational Flow of the Information Disclosure (Please refer to the appendix.)

- The significant information of the Company as determined in our Information Disclosure Regulations, such as “information legally required to be disclosed”, “information required to be timely disclosed”, “information based on fair disclosure rules” or “information required to be disclosed by the Singapore Exchange”, is promptly reported by the relevant operational department to the General Affairs Department, a secretarial office of the Company's management committee meetings and the board meetings. The General Affairs Department then instructs the subject departments to carefully manage such information and review the details of such information if necessary and promptly make a report to the Corporate Planning Department.
- The Corporate Planning Department as the office of the Information Disclosure Committee reports such pieces of information to the Committee for its review, and the Committee determines whether the disclosure is necessary.
- With respect to the information whose disclosure is decided to be necessary, the Corporate Planning Department drafts up the disclosure documents, with the advice/guidance of the legal counsels and/or the accounting auditors as appropriate, and the General Affairs Department confirms the contents of the disclosure. In finalizing the contents of the disclosure, the Corporate Planning Department further obtains a resolution from the Board of Directors on those matters requiring the board resolutions, and/or an approval by the President and CEO for other matters requiring the Company's approvals.

(E) Procedures for a Timely Disclosure

(i) General Procedure

The Corporate Planning Department makes timely disclosure through the “Timely Disclosure Network (TDnet)” operated by the Tokyo Stock Exchange. It also discloses the same information in English simultaneously through “SGXNET” operated by the Singapore Exchange. Upon such disclosure, the release materials will be simultaneously distributed to the media via TDnet and posted on the Company's

corporate website. The Company actively discloses other information which is not subject to the timely disclosure requirements on the website, from the standpoint of investors' fairness.

(ii) Emergency Case Procedure

The information is disclosed promptly based on the judgment by the President and CEO or the Senior Executive Officer in charge of the information disclosure.

(3) Managing Corporate Information

(A) Preventing Information Leakage

In accordance with the Insider Trading Prevention Regulations, the Executive Officer of Administrative Division serves as the person responsible for management of the significant insider information within the Company, communication with the Japan Securities Dealers Association, and management of a timely disclosure of the Company's internal control (the Officer in Charge of Information Handling). With respect to the insider information, access and utilization are limited only to those whose access is deemed as necessary in the course of business duty. Further, the General Managers of each department take such measures as placing strict controls over the storage of documents and electronic data that contain such insider information he/she obtained in the course of duty, so as to prevent any leakage. In the event drafting of document and/or preparation of material is outsourced, the Company takes appropriate actions to ensure confidentiality.

(B) Insider Trading Regulation

In an effort to prevent its employees and officers from committing insider trading, the Company has set out the items to be observed by its employees and officers with respect to handling of the Company's insider information they obtained in the course of their duty, restrictions on trading of the Company's shares and other transactions, as well as fulfilling their operational duties, in accordance with the Insider Trading Prevention Regulations. Further, it works to enhance the effectiveness of the regulations by requiring the following specific actions:

(i) Restrictions on the trading conducted by the Company's employees and directors

The Company requires its employees and directors, as a base rule, to submit an "application for trading of shares, etc." to the officer in charge of handling insider information for his/her approval, when they are to transact in the shares of the Company. It also requires them to report the results of such trading to the officer in charge of handling insider information, using the "report of securities trading results".

(ii) Managing of insider Information

In the event where any information of the Company or other listed companies that may be deemed insider information came to the knowledge of the Company's employees and/or directors, the Company requires them to submit "report on accessing internal information of the Company" or "report on accessing internal information of other companies", and reports to the officer responsible for handling internal information.

(iii) Periodical activity reports by Information Disclosure Committee at the board meetings

With respect to the “activities done by the Information Disclosure Committee”, the Company designates such activities as one of the agenda items to be regularly reported at the monthly board meetings, to ensure that its directors are fully aware of the current status of the Company’s timely disclosure and information control.

(iv) Educating employees and directors of the Company

The Company tries to educate and enlighten its employees and directors regarding the insider trading issues, during the training sessions organized by the General Affairs Department.
