[Principle 1.4] Cross-shareholdings
<Basic policy on cross-shareholdings>
While the Company holds cross-shareholdings of other companies that are deemed rational in light of the impact on the medium- to long-term improvement of corporate value and business operations, the Board of Directors specifically examines, annually, each cross-shareholding in terms of its economic rationality, benefits, risk as an asset, whether it covers the cost of capital, and other factors, in order to assess whether or not to hold the shares.
The Company sells or otherwise reduces the number of shares which it has deemed not necessary to continue holding.

These regulations also prescribe that, with regard to resolutions by the Board of Directors, Directors with special interests may not participate in the resolutions, and that any Director who has conducted a competing transaction or a transaction with the Company shall be required to report to the Board of Directors the material facts about the transaction.

(3) Policies and procedures for the Board of Directors in determining the remuneration for senior management and Directors are as follows:

<Policy>

The Company has stipulated a basic policy on determining the amounts of remuneration, etc. for Directors. The Company determines the remuneration, etc. for Directors commensurate with their responsibilities, taking into consideration social trends on remuneration, etc. for Directors, the performance of the Company, balance with employee salaries, and other factors that should be taken into consideration when determining the level of remuneration.

In addition, the remuneration, etc. of Directors (including External Directors, hereinafter “Eligible Directors”) is designed to provide an incentive for the continuous improvement of the Group’s corporate value and to promote further value sharing with shareholders.

The policy has been determined by the Board of Directors based on deliberation by the voluntary Remuneration Committee (hereinafter the “Remuneration Committee”), the majority of which is composed of Independent External Directors.

<Procedure>

Remuneration, etc. for individual Directors consists of three components: basic remuneration, which is fixed remuneration; bonuses, which are performance-linked monetary remuneration as a short-term incentive; and stock-based remuneration, which is performance-linked non-monetary remuneration as a medium- to long-term incentive.

Bonuses are paid to Directors, excluding External Directors, and are calculated by multiplying the amount of consolidated ordinary profit by the relative total shareholder return (relative TSR) and a coefficient for each position in order to link the achievement of the Group’s performance for the relevant fiscal year to the share price.

Stock-based remuneration is paid to Eligible Directors, and restricted stock is determined in accordance with their duties based on a resolution of the General Meeting of Shareholders, and granted at a determined time.

The ratio of fixed remuneration, short-term incentive remuneration, and medium- to long-term incentive remuneration is deliberated by the Remuneration Committee to ensure that they function effectively as incentives based on the above basic policy, and decided by the Board of Directors.

(4) The Board of Directors selects the most suitable persons for the positions of Director or Audit & Supervisory Board Member on each occasion, based on a comprehensive assessment of the candidate’s background, character, capabilities, insight, and other factors, following deliberation by the voluntary Nomination Committee for Directors and following consent by the Audit & Supervisory Board for Audit & Supervisory Board Members, and nominates the candidates to be proposed to the General Meeting of Shareholders.

The selection of senior management is conducted following deliberation by the Nomination Committee and upon adequate discussion in the Board of Directors about the granting of representative rights and other matters.

(5) The Company discloses matters resolved regarding the selection of senior management in timely disclosure statements.

In addition, the reasons for the nomination of individual candidates for Directors and Audit & Supervisory Board Members are explained in the Reference Documents for the General Meeting of Shareholders.

[Supplementary Principle 4.1.1] Scope of the matters delegated to the management

The Board of Directors is responsible for deciding on matters that are legally required to be resolved by the Board of Directors, such as disposal and transfer of important assets, appointment and dismissal of important employees, and establishment, revision, and abolition of important organizations, as well as for mutually supervising the business execution status of Directors.

The abovementioned matters to be resolved are specifically set forth in the Regulations of the Board of Directors, which are the Company’s corporate rules. Decision-making on other matters is delegated to the President and other Executive Directors, based on the Company’s corporate rules, which also stipulate the scope of decision-making by contents and the monetary amount of each case.

As for execution after a decision has been made, the Company has adopted a corporate officer system to promote the separation of oversight and execution, as well as to enhance the oversight function of the Board of Directors over business execution and speed up its decision-making process, in an effort to ensure efficient execution of business.

In the Reference Documents for the General Meeting of Shareholders at the time of the appointment of Directors, the Company reports that the Board of Directors comprises a mix of skills and competencies appropriate for the management environment and business characteristics, among other factors, based on the above policy.

Furthermore, Independent External Directors should include individuals with deep insight who can be expected to provide valuable opinions and suggestions on the Company's management and who have management experience at other companies.

Policy on Determining Remuneration, Etc. for Individual Directors and Calculation Methods

(i) Basic Policy

The Company has stipulated a basic policy on determining amounts of remuneration, etc. for Directors. The details of remuneration, etc. will be commensurate with respective responsibilities of Directors, taking into consideration social trends on remuneration, etc. for Directors, the performance of the Company, balance with employee salaries, and other factors that should be considered when determining the level of remuneration. In addition, the remuneration, etc. of Eligible Directors is designed to provide an incentive for the continuous improvement of the Group's corporate value and to promote further value sharing with shareholders. Such policy is decided by the Board of Directors after deliberation by the voluntary Remuneration Committee (hereinafter the "Remuneration Committee"), the majority of which is composed of Independent External Directors.

(ii) Overview of Policy Details

Remuneration, etc. for individual Directors consists of three components: basic remuneration, which is fixed remuneration; bonuses, which are performance-linked monetary remuneration as a short-term incentive; and stock-based remuneration, which is performance-linked non-monetary remuneration as a medium- to long-term incentive.

Basic remuneration is paid to all Directors and the amount of remuneration based on the basic policy will be paid on a monthly basis.

Bonuses are paid to Directors, excluding External Directors, and are calculated by multiplying the amount of consolidated ordinary profit by the relative total shareholder return (relative TSR) and a coefficient for each position in order to link the achievement of the Group's performance for the relevant fiscal year to the share price.

Stock-based remuneration is paid to Eligible Directors, and restricted stock is determined in accordance with their duties based on a resolution of the General Meeting of Shareholders, and granted at a determined time. The ratio of fixed remuneration, short-term incentive remuneration, and medium- to long-term incentive remuneration is deliberated by the Remuneration Committee to ensure that they function effectively as incentives based on the above basic policy, and decided by the Board of Directors.

(iii) Policy Concerning the Determination of the Details of Remuneration, Etc. for Each Individual Director
The amount of remuneration for the Company's Directors shall be resolved at the Board of Directors' meeting, and be within an amount not exceeding the maximum amount of remuneration resolved at the General Meeting of Shareholders.

(iv) Reasons for the Board of Directors to determine that the details of remuneration, etc. for each individual Director for the relevant fiscal year is in line with the policy on remuneration amounts
The Company believes that the details of remuneration, etc. for each individual Director are in line with the policy as they have been approved by the Board of Directors, upon reporting on the deliberation by the Remuneration Committee.
