The Board of Directors has established corporate governance by adopting the Fundamental Policies of Corporate Governance as a key set of rules subsequent to the Companies Act, relevant laws and regulations and the Articles of Incorporation, and reviews it at least once a year.

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

JAL Group implement all principles of the Corporate Governance Code and have a corporate governance structure in place. We will continuously work to increase corporate value.

[Disclosure Based on the Principles of the Corporate Governance Code]

[Principle 1-3 (Fundamental capital strategy policy)]

(Fundamental capital strategy policy)

In order to plan for future corporate growth and adapt to changes in the management environment so as to be prepared for business risks unique to the air transport business, JAL Group strives to secure net assets required for capital expenditures and to keep the equity ratio stable.

Furthermore, it has established a system to secure diverse and flexible means of procuring capital and strives to maintain a good credit rating to realize this.

JAL Group is also aware of cost of equity and to achieve a level of capital efficiency that exceeds the costs, establishes a management plan and financial targets and discloses and explains them including concrete measures to achieve its targets.

(Policy on shareholder return)

We regard shareholder return as one of its most important management matters. The Company's fundamental policy is to actively return additional capitals to shareholders through continuous and stable dividends, while ensuring sufficient internal reserves to invest in corporate growth, to adapt to changes in

the operating environment and to build a strong financial structure.

For shareholder return, we will allocate profits and additional capitals through continuous and stable dividends as well as flexible share repurchase, taking a total return ratio* into account.

For dividends, in accordance with the rise of effective tax rate, the pay out ratio will be also increased to maintain the current dividend per share level. We will focus on continuity, stability and foreseeability, referring to dividend on equity ratio (DOE).

For share repurchase, we will actively and flexibly conduct share repurchases, considering our financial positioning, in order to continuously improve capital efficiency.

The Ordinary General Meeting of Shareholders approves the year-end dividend, but the Articles of Incorporation state that the Company may pay an interim dividend after approval by the Board of Directors, based on a record date of September 30.

* Total return ratio:

$$(\text{Total amounts of dividends} + \text{Total amounts of share repurchase}) / \text{Net profit attributable to owners of parent}$$

[Principle 1-4 (Cross-Shareholdings)]

(Principle on holding shares of listed companies)

Building cooperative and collaborate relationships over a broad range of fields such as sales, procurement, and service provision, and maintaining good relationships with local communities are indispensable in operating the air transport business. In these cases, we will carefully select and hold shares of companies that will contribute to enhancing our corporate value, on the precondition of maintaining trusting relationships with our stakeholders.

The fundamental policy of holding shares in listed companies is that we will hold the minimum number shares to meet the above goals. We will always verify the degree of contribution to corporate value enhancement of holding shares.. Specifically, we compare profit on transactions attributable to dividends received and shares held with target capital cost, conduct quantitative study and take into consideration qualitative factors. We also pay attention to market value.

If we judge that it is meaningless to hold certain shares in terms of enhancing our corporate value, we will consider selling them, while taking into account the impact on the market and other business matters, etc.

JAL Group and its special interest groups, shareholders, business partners, etc. have no relations whatsoever with anti-social forces. We respect the “Manual for Implementing Charter of Corporate Code” announced by Nippon Keidanren (Japan Business Federation)(revised April 2007), “Guideline for How Companies Prevent Damage from Anti-Social Forces” (agreed upon at a meeting in June 2007 of cabinet ministers responsible for anti-crime measures) and Organized Crime Exclusion Ordinances established based on these guidelines (enforced in all prefectures in October 2011) as our fundamental principle, and have built and operate a system to exclude anti-social forces accordingly. JAL Group’s policy, standards, etc. are established according to Company Policy & Regulations for Correspondence to Anti-social Forces, which is repeatedly disseminated and reinforced on the occasion of major internal meetings and staff training.

We have distributed Guidelines for Correspondence to Anti-social Forces to every JAL Group company and every department to disseminate information on excluding anti-social forces. Furthermore, we have posted information on ways to deal with anti-social forces on our Intranet to enable employees to respond appropriately when approached by them. We screen business parties with whom we start new business deals prior to the signing of a contract to confirm that no anti-social forces are involved. An “article on exclusion of anti-social forces” is included in agreements and we continuously screen business partners even after the commencement of business.

Through such measures, our employees are aware that continuous efforts to exclude anti-social forces are extremely important.
