[Disclosure based on the Principles of the Corporate Governance Code]

Supplementary Principle 1.1-1: (Securing Shareholders' Rights)

The status of voting rights exercised at our General Meeting of Shareholders is as follows:

The results of the voting rights exercise are disclosed on our company website.

<https://www.ana.co.jp/group/en/investors/irdata/shareholders/>

At the 80th Ordinary General Meeting of Shareholders held on June 27, 2025, among the 11 director candidates for Proposal No. 3 regarding the election of directors, SHIBATA Koji received an approval rate of 77.0% and YAMAMOTO Ado received an approval rate of 67.4%. It is presumed that YAMAMOTO Ado's tenure as a director exceeds 12 years, in addition to some major domestic institutional investors judging there to be an issue with his independence, concerns that the ratio of independent outside directors on the Board of Directors would fall below one-third as a result also affected Representative Director and President SHIBATA Koji's approval rate.

We take the results of this voting rights exercise seriously and will proceed with discussions on the future composition of the Board of Directors and our governance structure through constructive dialogue with our shareholders.

Principle 1.4 (Cross-shareholdings)

The Company believes that maintaining and strengthening cooperative relationships with business partners is necessary for the expansion and development of the Group's business. The Group shall strategically hold shares in another company should it believe that this will contribute to smooth business continuity and enhanced profits via business alliance and stronger business relationships, and thereby improvement corporate value in the medium- to long-term. As the Group, which mainly engages in the air transportation business, aims to capture strong air travel demand associated with growth primarily in Asia through investments in airlines in the region.

The Company will verify the significance of individual cross-shareholdings at a meeting of the Board of Directors every year. For those holdings whose significance is deemed to be diminishing as a result of the verification, we will proceed reduction with the target of the end of fiscal year 2028. In addition to verifying the significance of the holdings, the Company comprehensively verifies the associated risks and benefits. When verifying the economic rationale behind the shareholdings, the Company conducts quantitative and multi-faceted assessments, including checking the total shareholder return (TSR) of each stock and comparing the return on investment of that stock with the capital costs of the Group. If the assessment results show that they are not judged as contributing to the sustainable growth of the Group and the improvement of corporate value in the medium-to-long-term, we will reduce the cross-

shareholdings.

As of March 31, 2025, the ratio of strategically held shares (including unlisted shares) to the Company's consolidated net assets is 8.9%. The meeting of the Board of Directors on April 30, 2025 will verify individual stocks from a medium-to-long term perspective and verify the significance and economic rationale behind the Company's cross-shareholdings

Furthermore, appropriate decisions on the exercise of voting rights of strategically shareholdings are made by comprehensively taking into account dialogue with the relevant company after examination of each resolution, including the enhancement of the relevant company's medium- to long-term corporate value and the impact on the Group's business operations.

Principle 1.7 (Related Party Transactions)

The Board of Directors, in accordance with laws and regulations and the Board of Directors Regulation, an internal rules, must approve competitive business transactions and transactions that constitute conflicts of interests between the Company and Directors. In the event that said transactions are implemented within the approved framework, material facts regarding these transactions shall be reported at the Board of Directors meeting.

In the event these transactions are carried out between the Company and a related party other than a director, the necessary approval of said transactions are carried out in accordance with the Company's internal rules depending on the scale and importance of the transaction. The Internal Audit Division shall conduct periodic audits of the content of these transactions and a system shall be put in place that enables Audit and Supervisory Board Members to view the details of approvals at any time.

With regard to the environment, one of our material issues, we updated our 2050 Environmental Goals in April 2021 amid accelerating global trends, particularly in response to climate change. As we have declared that we will achieve carbon

neutrality by fiscal 2050, we have formulated new 2030 CO2 emission Targets as a roadmap for achieving this goal in May 2023 which we amended. We plan to reduce net CO2 emissions on both international and domestic routes by at least 10% compared to fiscal 2019 levels by 2030. We will continue our efforts in the areas of Environment, Human resource, diversity, equity and inclusion (DEI), and Regional Revitalization, and will disclose information on our progress as needed.

Management Promotion Committee, and each Group company and department has an ESG Promotion Leader (EPL) to lead the ESG activities of their respective organization. Matters discussed, resolved, and reported at the Board of Directors, Group Management Committee, and Group ESG Management Promotion Committee are shared and implemented throughout the entire Group in close collaboration with EPOs and EPLs. Moreover, at least once a year the Company analyzes, evaluations and deliberations regarding the efficacy of the Board of Directors overall, engaged in efforts to resolve the issues identified during this process, and intend to improve the functionality of the Board of Directors by initiating a PDCA cycle wherein we perform this evaluation again at the end of the fiscal year.

With respect to FY2021, in order to further improve objectivity and transparency of evaluations, we carried out an evaluation with the help of a third-party organization, Sumitomo Mitsui Trust Bank, and it confirmed the efficacy of the board of directors. For FY2022, we decided to conduct another internal efficacy evaluation (we plan to continue having evaluations conducted by third-party organizations about once every three to five years going forward).

In December 2024 the Company carried out an analysis and evaluation of the overall efficacy of the Board of Directors using a questionnaire survey for all Directors and Audit and Supervisory Board Members, Additionally, from February to March 2025 the Company carried out an interview of questionnaire results for the chairman of the Board, President, all Outside Directors and Audit and Supervisory Board Members. The Company provides the necessary support for internal Audit and Supervisory Board Members to carry out this self-improvement.

At the time of appointment, Outside Directors and Outside Audit and Supervisory Board Members are provided with explanations of the Group's operations to deepen their understanding of the Group and the airline industry. After their appointment, they are given the opportunity to tour sites and facilities, including airport handling, aircraft maintenance, flight operations and passenger cabins.
