July 2025 Monthly YoY Change in Sales and Number of Company-owned Stores

Monthly review

In July, the calendar pattern was the same as the previous year, and as in the previous year, Japan experienced a record-breaking heatwave.

Although we implemented a price revision of approximately 5% in July of the previous year, no such revision was made this year, and as a result, the average spend per customer (average check) on a year-on-year basis declined compared to the previous month.

As a result, all stores sales increased by 28.2%, year on year in July and same stores sales increased by 5.1%, and same stores sales (excluding stores closed for refurbishment) increased by 1.7%.
