SKY Perfect JSAT Corporation

### **SKY Perfect JSAT Wins ¥9 Billion Contract to Supply Optical Satellite Data to the Japan Ministry of Defense**

SKY Perfect JSAT Corporation (Head Office: Minato-ku, Tokyo; Representative Director, President & CEO: Eiichi Yonekura; “SKY Perfect JSAT”) has been awarded a contract for fiscal year 2025 to supply optical Earth observation data from low Earth orbit (LEO) satellites to the Japan Ministry of Defense.

Under this Contract, SKY Perfect JSAT will deliver observation imagery acquired by optical satellites operating in low Earth orbit continuously and reliably through September 30, 2026. This service will ensure reliable acquisition and utilization of imagery data required by the Ministry of Defense.

#### **Overview of the Contract**

|            |                                      |
|------------|--------------------------------------|
| (1) Period | October 1, 2025 – September 30, 2026 |
| (2) Amount | 8.853 billion yen (excluding tax)    |

In February 2025, SKY Perfect JSAT decided to own its LEO Earth observation satellite constellation, positioning Earth observation as one of the key pillars of its growth strategy. Moving forward, SKY Perfect JSAT will continue to expand services for government agencies, including the Japan Ministry of Defense, as well as private enterprises, while strengthening collaboration with domestic and international partners. SKY Perfect JSAT remains committed to driving further growth and development in the space business.

#### **Company Overview**

##### SKY Perfect JSAT

Representative Director, President & Chief Executive Officer: Eiichi Yonekura

Established: November 10, 1994

Capital: 50,083 million yen

Headquarters: 1-8-1 Akasaka, Minato-ku, Tokyo

**Business Overview:** Positioning itself as “Space Business Pioneers,” SKY Perfect JSAT operates two core businesses: Space and Media.

In 2025, we celebrate the 40th anniversary of our Space Business. As one of Asia’s leading satellite communications providers, we offer a wide range of services, including in-flight connectivity and disaster-resilient backup networks. We are also advancing Universal NTN™, an innovative initiative aimed at realizing a society without connectivity gaps. In the Space Intelligence Business, we will deploy our own high-resolution low Earth orbit (LEO) Earth

observation satellite constellation. By leveraging a multi-orbit architecture—including geostationary satellites—we are evolving into a comprehensive Space Solutions Provider, contributing to national security, environmental monitoring, disaster response, and infrastructure management.

In our Media Business, we deliver broadcasting and distribution services through “SKY PerfectTV!”, along with B2B media solutions, and fiber-optic retransmission services. We are also expanding into the global IP content market to further diversify our business portfolio.
