**“GLOBAL WiFi®” has expanded its coverage areas offering 5G Unlimited Ultra-High-Speed Communications, now available in Canada and the Maldives.**

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereinafter Vision), a provider of “GLOBAL WiFi®” (<https://townwifi.com/>), which is a reasonable and high quality overseas Wi-Fi router rental service, launched its Ultra-High-Speed 5G Unlimited Plans in the following 2 new countries on May 8.

This time, we have newly added two new countries to our 5G service coverage: Canada, a popular destination for tourism, business, study abroad, and working holidays; as well as the Maldives, one of South Asia’s premier resort destinations and a highly popular choice for honeymoons. With these additions, GLOBAL WiFi’s 5G service is now available in a total of 52 countries and regions.

The Ultra-High-Speed 5G Plan is an unlimited data plan that allows you to use data abroad with peace of mind, without worrying about your data allowance.

In addition, since multiple devices can connect to a single Wi-Fi device simultaneously, you can share it with friends or family. We aim to support your memorable travel experiences by providing a comfortable and reliable communication environment.

We will continue to make efforts to improve service quality, network quality, and coverage area, including the recent expansion of the area covered by the Ultra-High-Speed 5G Plan, and provide a comfortable mobile Internet connection environment around the world to help many people in tourism and business.

• **“GLOBAL WiFi®” Ultra-High-Speed 5G Unlimited Plan Service Area Expansion**

- Launch : May 8, 2025
- Price : <https://townwifi.com/price/5g/>

○ Areas covered : 52 countries and regions in total, including existing and newly added areas

(Newly added areas) Canada / Maldives

(Existing service areas) Iceland / Ireland / Mainland U.S.A. / United Arab Emirates / U.K. / Italy / India / Australia / Austria (Europe) / Oman / Netherlands / Cyprus / Greece / Guam / Croatia / Saudi Arabia / Singapore / Switzerland / Sweden / Spain / Slovenia / Thailand / Czech Republic / Germany / New Zealand / Bahrain / Hawaii / Hungary / Philippines / Finland / Brazil / France / Bulgaria / Peru / Belgium / Portugal / Macau / Malta / Malaysia / Mexico / Mauritius / Latvia / Lithuania / Romania / Luxembourg / South Korea / Taiwan / China / Hong Kong / Republic of South Africa

Precautions :

- This Plan provides data communications even without an 5G connection by switching to 4G.
- 5G may be unavailable due to local circumstances; in such cases, 4G only is provided.
- Because the plan uses the most up-to-date devices, customers can expect higher communication speeds compared to previous 4G devices, even when connecting via 4G.
  - \* Varies depending on location.
- If data volumes become excessive, connectivity may be restricted depending on the policies of partner carriers at the destination country or our own assessment.

• **About Vision's "communication quality" standards and "signal audits"**

Under "GLOBAL WiFi®," Vision provides global high-speed mobile communications based on information updates and verifications conducted in collaboration with partner communications carriers around the world. When adding coverage areas, communication methods, and plans, we also verify locations with "signal audits." After verifying the extent of the coverage area (signal area), including dead spots and locations where signals are blocked by buildings, etc., we measure actual communication speeds. Only if these measurements meet our own communication quality standards do we begin purchasing communications bandwidth. The verification is undertaken by our own overseas staff and partner companies in some areas. There are many 5G communications carriers around the world, but at Vision, we only begin providing service in areas that meet our quality standards.
