## **“GLOBAL WiFi®” launches new Ultra-High-Speed 5G Unlimited Plan in Egypt.**

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota), which operates GLOBAL WiFi Business, Information and Communications Service Business, and Glamping and Tourism Business under the themes of “Connecting People, Connecting the World,” has commenced offering an Ultra-High-Speed 5G Unlimited Plan in Egypt as of January 15.

In recent years, Egypt has seen rapid development of 5G networks, particularly in major cities such as Cairo, Giza, and Alexandria. In addition, the restoration of historical ruins and the opening of new tourist attractions are progressing across various regions, and Egypt’s tourism industry continues to demonstrate further growth. In response to the evolution of local communications infrastructure and increased travel demand, we have decided to add a new Egypt 5G Unlimited Plan to promptly meet the expected growing need for high-speed communications in Egypt.

We will continue to improve our services and network quality and expand our coverage areas to provide a reliable communication environment around the world.

### • “GLOBAL WiFi®” Ultra-High-Speed 5G Unlimited Plan Service Area Expansion

- Launch : January 15, 2026
- Website : <https://townwifi.com/price/5g/>
- Areas covered : 54 countries and regions in total, including existing and newly added areas

(Newly added areas) Egypt

(Existing service areas) Iceland / Ireland / Mainland U.S.A. / United Arab Emirates / U.K. / Italy / India / Australia / Austria (Europe) / Oman / Netherlands / Canada / Cyprus / Greece / Guam / Croatia / Saudi Arabia

/ Singapore / Switzerland / Sweden / Spain / Slovenia / Thailand / Czech Republic / Germany / New Zealand / Bahrain / Hawaii / Hungary / Philippines / Finland / Brazil / France / Bulgaria / Vietnam / Peru / Belgium / Portugal / Macau / Malta / Malaysia / Mexico / Maldives / Mauritius / Latvia / Lithuania / Romania / Luxembourg / South Korea / Taiwan / China / Hong Kong / Republic of South Africa

Precautions :

- Please note that temporary communication instability may occur in certain areas, including the Grand Egyptian Museum, the Giza area surrounding the pyramids, and parts of southern Egypt, due to building structures, terrain, and local telecommunications infrastructure.
- This Plan provides data communications even without an 5G connection by switching to 4G.
- 5G may be unavailable due to local circumstances; in such cases, 4G only is provided.
- Because the Plan uses the most up-to-date devices, customers can expect higher communication speeds compared to previous 4G devices, even when connecting via 4G.
  - \* Varies depending on location.
- If data volumes become excessive, connectivity may be restricted depending on the policies of partner carriers at the destination country or our own assessment.

• **About Vision’s “communication quality” standards and “signal audits”**

Under “GLOBAL WiFi®,” Vision provides global high-speed mobile communications based on information updates and verifications conducted in collaboration with partner communications carriers around the world. When adding coverage areas, communication methods, and plans, we always conduct meticulous on-site “signal audits.”

After verifying the extent of the coverage area (signal area), including dead spots and locations where signals are blocked by buildings, etc., we measure actual communication speeds. Only if these measurements meet our own communication quality standards do we begin purchasing communications bandwidth.

The verification is undertaken by our own overseas staff and partner companies in some areas.

There are many 5G communications carriers around the world, but at Vision, we only begin providing service in areas that meet our quality standards.
