**Vision Inc. installs “GLOBAL WiFi® Rental Station” at Haneda Airport Terminal 2.**  
**– Further expands “Smart Pickup” services to enhance convenience –**

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota), which operates GLOBAL WiFi Business, Information and Communications Service Business, and Glamping and Tourism Business under the themes of “Connecting People, Connecting the World,” has installed a “GLOBAL WiFi® Rental Station” on the B1 level of Haneda Airport Terminal 2. Additionally, two “Smart Pickup” lockers have been added, enabling self-service pickup for travelers.

With this expansion, we believe that we have secured smoother access to “GLOBAL WiFi®” along both departure and arrival routes at Haneda Airport—where many travelers pass through as a major domestic and international transportation hub, thereby enhancing user convenience.

■ **“GLOBAL WiFi® Rental Station” features**

- A fully self-service Wi-Fi router rental available immediately on-site

After applying via the 2D code displayed on the “GLOBAL WiFi® Rental Station,” customers can receive a Wi-Fi router from the machine and start using it immediately.

- Share one device

Multiple people can connect to Wi-Fi simultaneously, so the cost per person is also cheaper.

- The device comes with a charging cable and can also be worked as a mobile battery

It supports two types: Lightning and Type-C. A minimal device that works as both Wi-Fi and a mobile battery at the same time.

- Reliable 24/7/365 customer support

Our professional staff are available 24/7/365 to assist with inquiries via LINE, phone, or email.

- Returns available across the industry’s largest network of airport locations

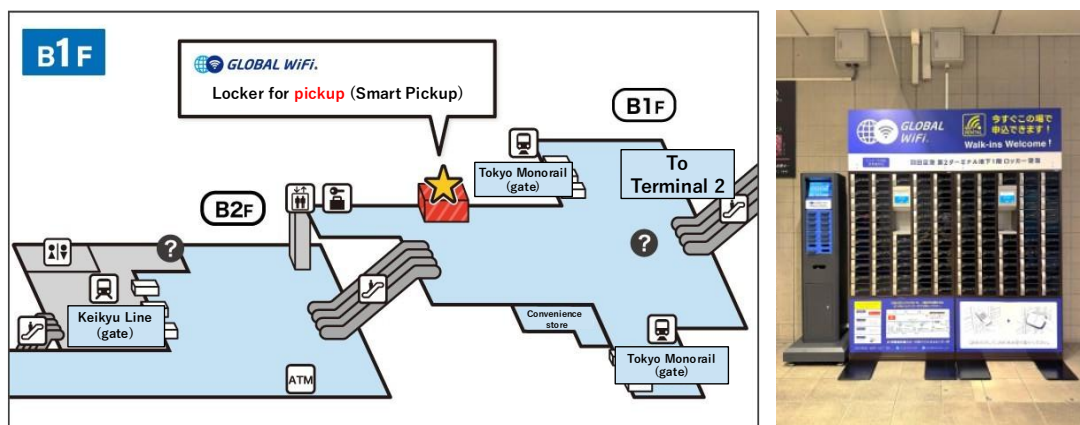

After use, customers can return the device at 20 airports and 39 locations across Japan (one of the largest airports return networks in the industry). Returns are also available via courier from home, office, or convenience stores.

- Supports English and Traditional Chinese

To make our service accessible to international visitors to Japan, it supports Japanese, English, and Traditional Chinese. Additional languages will be added in the future.

**GLOBAL WiFi® Rental Station Special Site :** <https://townwifi.com/rentalstation/en/>

- **Installation location**

Left : “GLOBAL WiFi® Rental Station” / Right : “Smart Pickup”

“Smart Pickup” is a smart locker that allows users to pick up pre-ordered Wi-Fi routers without staff assistance. This enables users to collect their devices without stopping at a counter, helping to reduce waiting times and alleviate congestion.

With this expansion, the total number of “Smart Pickup” units nationwide has reached 59. We will continue to expand touchpoints, including airports, and strive to enhance a convenient service environment for more users.

Moving forward, “GLOBAL WiFi®” will continue to expand its customer touchpoints and enhance service convenience. Simultaneously, we remain dedicated to improving network quality and broadening our coverage areas to provide a comfortable mobile Internet environment around the world.
