## Notice Concerning Abolition of Fukui Thermal Power Station Mikuni Unit 1

The Company hereby announces that it has resolved, at a meeting of the Board of Directors held today, to abolish the Fukui Thermal Power Station Mikuni Unit 1 by March 31, 2028.

### 1. Reason for abolition

Mikuni Unit 1 has contributed to the stable supply of electricity for many years since its start of operation in 1978. However, due to the deterioration of facilities and the deterioration of the fuel procurement environment, long-term operation has become difficult. As a result of a comprehensive evaluation from the viewpoints of maintaining supply capacity, supply-demand trends, and environmental impact, the Company has decided to abolish it by March 31, 2028.

### 2. Outline of facilities to be decommissioned and scheduled decommissioning time

Facilities to be decommissioned	Fukui Thermal Power Station Mikuni Unit 1
Start of operation	September 1978
Elapsed years	47 years
Scheduled date of decommissioning	By March 31, 2028
Rated output	250,000 kW
Fuel	Heavy oil
Address	57-1-6 Shinbo, Mikunicho, Sakai-city, Fukui

### 3. Recording of extraordinary losses

As a result of the abolishment of the facilities described in the preceding 2, impairment losses on non-current assets will be recorded as extraordinary losses, as a loss on decommissioning of Thermal Power Station, in the fourth quarter of the fiscal year ending March 31, 2026, but the amount is currently under scrutiny.

The current estimate is approximately ¥8.5 billion.

### 4. Impact on financial results forecasts

For details, please refer to "Notice Concerning Revision to Financial Results Forecasts" separately disclosed today.
