(5) Notes to Condensed Consolidated Financial Statements (Segment Information)

1. Summary of reportable segments

The Group's operating segments are the components of the Group for which discrete financial information is available and which are regularly reviewed by the Board of Directors to make decisions about resources to be allocated to the segments and assess their performance. The Company formulates comprehensive domestic and overseas strategies pertaining to its products and services, tailored to the characteristics of client industries and IT service business areas, and develops businesses in accordance with these strategies.

Based on these business activities, the Company has defined the following six reportable segments: Industrial IT Business, Financial IT Business, IT Business Solutions, IT Platform Solutions, IT Management Service, and Others.

The Company determines its reportable segments by aggregating multiple operating segments into a single reportable segment in cases in which the applicable operating segments share similarities with regard to each of the following economic characteristics: (a) the nature of the products and services, (b) the nature of the production processes, (c) the type or class of customer for their products and services, (d) the methods used to distribute their products or provide their services; and if applicable, (e) the nature of the regulatory environment. The business activities of the Company's reportable segments are as follows:

(1) Industrial IT Business

This segment provides various IT solutions, through systems development and maintenance and operation services for core systems, manufacturing management systems, information management systems, supply chain management (SCM) systems, customer relationship management (CRM) systems and other systems. This segment's services leverage the experience and know-how that we have cultivated over many years. The clients of this segment are primarily companies in the manufacturing, communications, energy, distribution, service, and media industries.

Moreover, this reportable segment supplies the automotive industry with a wide range of solutions for automobile electronic control units on a global basis. These solutions include the development of embedded software through a model-based development approach, proprietary SCSK middleware (QINeS-BSW), software assessments, and process improvement measures.

(2) Financial IT Business

This segment engages in systems development, maintenance, and operation services for financial institutions. As professionals that understand financial operations and possess a strong track record of creating sophisticated financial systems, members of this segment's staff support secure and efficient management and help clients implement their financial business strategies. The segment provides these services primarily to financial institutions, such as banks and trust banks as well as insurance, securities, shopping credit and leasing companies.

(3) IT Business Solutions

This segment provides PROACTIVE, an in-house developed ERP (integrated core operations) packaging, as well as production-management systems, and a wide range of IT solutions, including EC service and contact center service. In addition, we provide BPO services that are unique to IT companies, combining manpower support operations with IT.

(4) IT Platform Solutions

This segment draws on solid technical capabilities and know-how to leverage computer-aided design (CAD), computer aided engineering (CAE), and other advanced technologies in the fields of IT infrastructure and manufacturing. In this way, the IT Platform Solutions provides services and products that accurately address the needs of clients and offers flexible support for a wide range of client businesses.

(5) IT Management Service

This segment develops solutions-oriented netXDC data centers, which boast robust facilities and highlevel security, to provide clients with proposal-based outsourcing services that address their management issues pertaining to operating cost reductions, infrastructure integration and optimization, governance enhancement, and business risk mitigation. The segment also supplies cloud infrastructure and offers its onsite SE support management services 24 hours a day, 365 days a year.

(6) Others

This segment performs remote development (nearshore development) and provides other services out of Group companies that leverage the characteristics of its regional bases and the software development, system operation and management, system equipment sales, and consulting services it provides for a wide range of industries and business models.

The Others businesses did not meet the quantitative thresholds for reportable segments both in the fiscal year ended March 31, 2025 and the fiscal year ending March 31, 2026.

2. Reorganization of reportable segments, etc.

From the first quarter of fiscal year ending March 31, 2026, in conjunction with the partial revision of the internal organization, the method for classifying reportable segments has been revised.

Segment information for the six-month period ended September 30, 2024, has been restated to reflect this change in reportable segments.

3. Profits, Losses, and Other Information Pertaining to Reportable Segments

Six-month period ended September 30, 2024 (April 1, 2024 - September 30, 2024)

- Notes: 1. The transaction amounts included in Inter-segment sales are decided based on price negotiations made with reference to market prices.
 - 2. The sales to external customers of ¥259 million reduction are part of the adjustment amounts for revenue recognition to be in conformity with IFRS. The adjustments to operating profit of ¥1,855 million reduction corporate expenses that have not been allocated to each reportable segment.

(Significant Subsequent Events)

Regarding the Tender Offer for the Company's Shares, etc. by SC Investments Management Inc., a Subsidiary of Sumitomo Corporation, the Company's Parent Company

At the meeting of the Company's Board of Directors held on October 29, 2025, it resolved to, in connection with the tender offer (hereinafter referred to as the "Tender Offer") by SC Investments Management Inc., in which the Company's controlling shareholder (parent company) Sumitomo Corporation holds 100% of the shares, for the Company's common shares (hereinafter referred to as the "Company's Shares") and stock acquisition rights (hereinafter referred to as the "Stock Acquisition Rights"), express an opinion in favor of the Tender Offer, recommend that the Company's shareholders tender their shares in the Tender Offer, and leave the decision of whether or not to tender in the Tender Offer to the discretion of the holders of the Stock Acquisition Rights.

The aforementioned resolution of the Board of Directors was made on the premise that Sumitomo Corporation intends to make the Company a wholly owned subsidiary through the Tender Offer and a subsequent series of procedures aimed at delisting the Company's Shares, and that the Company's Shares are scheduled to be delisted.

For details, please refer to the "Notice Concerning the Expression of an Opinion in Favor of and Recommendation to Tender for the Tender Offer for the Company's Shares, etc. by SC Investments Management Inc., a Subsidiary of Sumitomo Corporation, the Company's Parent Company" released today (October 29, 2025).
