In commemoration of the 30th anniversary of the airing of "Neon Genesis Evangelion," one of Japan's most popular anime, the bag brand "52 BY HIKARUMATSUMURA (Designer: Hikaru Matsumura, hereinafter 52)" managed by the MORITO Group and RADIO EVA have collaborated for the first time. A special six-bag collection will be available in limited quantities and for a limited time. This collection consists of three types in two color variations, inspired by Unit-01 and Unit-02.

■Background behind the Collaboration

In 2025, Neon Genesis Evangelion celebrated its 30th anniversary. To celebrate this memorable event, RADIO EVA has launched a new project titled "THE 30." 52 was pleased to endorse the project, and the collaboration was brought to life. (THE 30 : <https://www.radio-eva.jp/html/page6.html>)

These special products were born from the overlap of Evangelion's "synchronization" (the mental and physical synchronization between the pilot and the Eva) and the philosophy behind 52's representative "Miss ROBOT®" series; that "the design is completed by the synchronization between the owner and the bag." The Miss ROBOT® series features a user-participatory design wherein the expression changes depending on how the owner uses it and what is placed inside.

This limited edition collection incorporates the updatable structure of the Miss ROBOT® series with iconic Evangelion colors and details.
