1. Overview of Operating Results, etc.

(1) Overview of Operating Results for the Quarterly Period under Review

During the nine months ended December 31, 2024 (from April 1, 2024 to December 31, 2024), the Japanese economy gradually recovered as social and economic activities were further normalized mainly against the backdrop of improvements in income with high wage hike rates. Meanwhile, the future outlook has remained unclear due to an increase in prices and fluctuations in exchange rates, increasing geopolitical risks through the unstable international situation, and other factors.

In the food service industry, a demand for food service steadily grew due to a recovery in people's traffic and an increase in inbound consumption.

However, the business environment remained harsh as most of costs for maintaining sales activities were increasing, for example, soaring material prices and labor costs, and consumers' awareness of saving increased due to continuously rising prices.

Under these circumstances, while firmly keeping the viewpoint of putting ourselves in customers' places, the Group is striving to improve basic value of the food service "deliciousness and hospitality" and to "pursue to provide values by food" aiming for good health both in "mind and body".

As stated in the Medium-term Management Plan "Together", we will endeavor to achieve the "material and spiritual richness" of our human resources, our greatest management resource, and support employees so that they can feel both "worth living" and "rewarding" in their works. In this way, we will be committed to improving the value we provide to our customers and our corporate value, leading them to pursuit of "sustainability" and realization of "regrowth".

During the nine months ended December 31, 2024, we worked on activities such as opening 17 new restaurants and promoting introduction of digital equipment, as well as increasing wages and starting salaries of new graduates beginning from April for the purpose of ensuring and retaining human resources, and setting all-restaurant closure days with the aim of improving a working environment.

The overview of our business segments is as follows.
