**Disclaimer**

This material does not constitute an offer to sell, or a solicitation of an offer to buy, limited partnership interests or comparable limited liability equity interests in any funds (including SoftBank Vision Fund 1, SoftBank Vision Fund 2, and SoftBank Latin America Funds) managed by any of the subsidiaries of SoftBank Group Corp. ("SBG"), including SB Global Advisers Limited, SB Investment Advisers (UK) Limited, or their respective affiliates, or any securities in any jurisdiction, nor should it be relied upon as such in any way.

**Notice Regarding PFIC Status**

It is possible that SBG (and certain subsidiaries of SBG) may be a "passive foreign investment company" ("PFIC") under the U.S. Internal Revenue Code of 1986, as amended, for its current fiscal year due to the composition of its assets and the nature of its income. We recommend that U.S. holders of SBG's shares consult their tax advisors with respect to the U.S. federal income tax consequences to them if SBG and its subsidiaries are classified as PFICs. SBG is not responsible for any tax treatments or consequences thereof with respect to U.S. holders of SBG's shares.

**Establishment of a New Reportable Segment**

On November 25, 2025, SBG acquired all equity interests in Ampere, a semiconductor design company, for a total of \$6.5 billion, making it a wholly owned subsidiary. Following this acquisition, the Board of Directors reassessed the business units that are subject to regular performance review by the Board. As a result, Arm, previously included in the Arm segment, and Graphcore Limited, previously included in Other, together with Ampere and other semiconductor-related subsidiaries, were consolidated into a newly established reportable segment: the AI Computing segment. The reportable segments for the same period of the previous fiscal year have also been reclassified in the same manner. For an overview of the new segment, see "Overview" under "(d) AI Computing Segment" in "b. Results by Segment" in "(1) Overview of Results of Operations."

## 1. Results of Operations

### (1) Overview of Results of Operations

#### 1. Completion of follow-on investments in OpenAI committed to in March 2025

- In March 2025, SBG entered into a definitive agreement with OpenAI to make follow-on investments in OpenAI of up to \$40.0 billion (subsequently increased to up to \$41.0 billion in August 2025).<sup>\*1</sup> After deducting syndication to co-investors, SBG's effective investment amount was \$30.0 billion.
- In April 2025, the first closing of \$10.0 billion was completed, with \$2.5 billion syndicated to co-investors and the remaining \$7.5 billion invested by SVF2.
- In October 2025, the recapitalization of OpenAI Global, LLC was completed, which resulted in investors, including SVF2, becoming shareholders of the newly established OpenAI Group PBC.
- In December 2025, the second closing of \$31.0 billion was completed. Of this amount, \$8.5 billion was syndicated to co-investors and the remaining \$22.5 billion was invested by SVF2.<sup>\*2</sup> As a result, SVF2's cumulative investment in OpenAI reached \$34.6 billion, representing an ownership interest of approximately 11%.

#### 2. Results highlights

##### ♦ ¥4,220.3 billion investment gain (¥2,170.0 billion gain for the same period of the previous fiscal year)

- ¥2,796.5 billion investment gain from the investment in OpenAI
- ¥163.4 billion investment gain at Investment Business of Holding Companies (including ¥264.9 billion investment gain related to the investment in OpenAI)
- ¥3,595.2 billion investment gain at SoftBank Vision Funds (including ¥2,531.5 billion investment gain related to the investment in OpenAI and excluding investment gains related to investments in the Company's subsidiaries). Since inception, gross performance totals a gain of \$28.7 billion for SVF1 and a loss of \$2.5 billion for SVF2.<sup>\*3</sup>

Note: Changes in the fair value of shares of consolidated subsidiaries, including Arm and SoftBank Corp., are not recorded in the Company's consolidated statement of profit or loss.

##### ♦ ¥4,169.2 billion income before income tax (increase of ¥2,898.2 billion YoY)

*after the recordings of:*

- Selling, general and administrative expenses of ¥2,565.7 billion (increase of ¥359.1 billion YoY)
- Finance costs of ¥542.4 billion (increase of ¥109.7 billion YoY)
- Increase in third-party interests in SVF of ¥351.2 billion: a ¥317.2 billion increase in third-party interests (attributable to investors entitled to performance-based distribution), which resulted from an investment gain of ¥746.0 billion at SVF1 (on SVF1 stand-alone basis).

##### ♦ ¥3,172.7 billion net income attributable to owners of the parent (increase of ¥2,536.5 billion YoY)

*after the recordings of:*

- Income taxes of ¥435.7 billion
- Net income attributable to non-controlling interests of ¥560.8 billion

### 3. Completion of bond issuances to meet fiscal-year refinancing needs and continuation of financing activities for large-scale investments

#### ♦ Straight bonds

- SBG issued ¥1,120.0 billion in domestic straight bonds and redeemed ¥500.0 billion upon maturity.
- SBG issued \$2.2 billion and 1.7 billion euros in foreign currency-denominated senior notes and redeemed a total of \$911 million and 1,607 million euros upon maturity.

#### ♦ Hybrid bonds

- SBG issued ¥200.0 billion in domestic hybrid bonds, primarily to refinance domestic hybrid bonds that reached the first voluntary call date in February 2026.
- SBG issued \$2.0 billion and 750 million euros in foreign currency-denominated hybrid bonds.

#### ♦ Bridge loans

SBG arranged bridge loans totaling \$15.0 billion. Of this amount, \$8.5 billion was borrowed for the first closing of the follow-on investments in OpenAI, of which \$3.0 billion has already been repaid. \$6.5 billion was borrowed for the acquisition of Ampere.

#### ♦ Monetization of assets

- Partial sale of T-Mobile shares

56.9 million T-Mobile shares were sold for \$12.73 billion between June and December 2025.<sup>\*4</sup>

- Settlement of collar transactions using Deutsche Telekom shares and sale of all shares held

Cash proceeds of \$2.74 billion were generated through the settlement of collar transactions using Deutsche Telekom shares and the sale of all Deutsche Telekom shares held.<sup>\*5</sup>

- Complete sale of NVIDIA shares

In October 2025, 32.1 million NVIDIA shares (including those held by the asset management subsidiary) were sold for \$5.83 billion.

- Margin loan using Arm shares

In November 2025, the terms of the margin loan using Arm shares were amended, including an increase in the facility amount from \$13.5 billion to \$20.0 billion. In December 2025, the \$11.5 billion of remaining available capacity was drawn.

- Margin loan using SoftBank Corp. shares

In December 2025, borrowings under the margin loan using SoftBank Corp. shares were increased by ¥400.0 billion, from ¥800.0 billion to ¥1,200.0 billion.

### 4. Share repurchase and retirement

- Under the share repurchase program of up to ¥500.0 billion authorized by the Board of Directors in August 2024, SBG concluded the program in August 2025 upon the expiration of the planned time frame, having acquired a total of ¥330.3 billion (42,033,200 shares) of its own shares, which was below the authorized maximum amount, primarily due to a rise in its share price.
- On October 31, 2025, SBG retired the same number of shares (42,033,200 shares) as those repurchased under the above Board of Directors' authorization.

## 5. Share split

SBG conducted a share split to make its shares more accessible to investors and further expand its shareholder base. The record date for the share split was December 31, 2025; however, since that day fell on a non-business day for the shareholder registry administrator, the effective record date was December 30, 2025. The common stock held by shareholders listed or recorded in the final register of shareholders as of the end of that day was split at a ratio of four-for-one.

Notes:

1. On August 4, 2025, an amendment regarding the follow-on investments of up to \$40.0 billion (the “Amendment”) was executed. Under the Amendment, the maximum investment amount was increased from \$40.0 billion to \$41.0 billion; however, the incremental \$1.0 billion was allocated exclusively to co-investors.
2. Includes indirect investments.
3. Gross amounts before deductions for third-party interests and taxes, etc.
4. Of this amount, \$12.69 billion was received during the period.
5. This consists of (i) \$2.01 billion, representing the difference between the fair value of Deutsche Telekom shares delivered in the physical settlement of collar transactions and the amounts of debt repayment and derivative settlement, and (ii) \$0.73 billion from the sale of all Deutsche Telekom shares held.

## COMPLETION OF FOLLOW-ON INVESTMENTS IN OPENAI COMMITTED TO IN MARCH 2025

On December 26, 2025, SBG executed an additional investment of \$22.5 billion in OpenAI through SVF2 at the second closing of the follow-on investments of up to \$40.0 billion (increased to up to \$41.0 billion in August 2025) that SBG committed to on March 31, 2025 (the “Follow-on Investments”). As a result, the Follow-on Investments, including syndication to co-investors, were fully completed, and SVF2’s cumulative investment in OpenAI reached \$34.6 billion, representing an ownership interest of approximately 11%.

### ♦ Overview of the Follow-on Investments

	First Closing (Completed)	Second Closing (Completed)
Valuation (pre-money)		\$260.0 billion
Investment amount	\$10.0 billion	\$31.0 billion
Syndication	Of the \$41.0 billion investment, \$11.0 billion was invested by co-investors through syndication.	
Investment target	OpenAI Global, LLC	OpenAI Group PBC <sup>*6</sup>
Investment by the Company	\$7.5 billion	\$22.5 billion <sup>*7</sup>
Timing of the Company’s investment	April 2025	December 2025
The Company’s investment entity		SVF2

Notes:

6. Investment target following the completion of the recapitalization transactions of OpenAI Global, LLC.
7. Includes indirect investments.

### ♦ Investment Amount in OpenAI and Cumulative Investment Gain (as of December 31, 2025) (Billions of U.S. dollars)

Investment cost <sup>*8</sup>		Fair value as of December 31, 2025	Cumulative investment gain
FY2024	FY2025 YTD		
2.2	32.4	34.6	54.4
			19.8

Note:

8. Investment amounts are presented net of disposals.

## COMPLETION OF AMPERE ACQUISITION

On March 19, 2025, SBG entered into a definitive agreement with Ampere, a U.S.-based semiconductor design company focused on high-performance, energy-efficient, sustainable AI compute based on the Arm compute platform, and certain of its equity holders, to acquire all of the equity interests of Ampere for \$6.5 billion through a wholly owned U.S. subsidiary of SBG (the “Acquisition” in this section). The Acquisition was completed on November 25, 2025, upon which Ampere became a wholly owned subsidiary of SBG.

For details, see “3. Business combination” under “(7) Notes to Condensed Interim Consolidated Financial Statements” in “3. Condensed Interim Consolidated Financial Statements and Primary Notes.”

## ACQUISITION OF ABB’S ROBOTICS BUSINESS

SBG entered into a definitive agreement with ABB Ltd (“ABB”) on October 8, 2025 to acquire ABB’s robotics business for a total purchase price of \$5.375 billion (the “Acquisition” in this section).

The Acquisition remains subject to customary regulatory approvals, including in the European Union, China, and the U.S., as well as the satisfaction of other customary closing conditions. SBG expects the Acquisition to close in mid-to-late 2026.

ABB will carve out its robotics business into a newly established holding company. SBG plans to acquire all shares of the holding company from ABB through a subsidiary of SBG, as a result of which the holding company will become a subsidiary of SBG.

## ACQUISITION OF DIGITALBRIDGE GROUP, INC.

On December 29, 2025, SBG entered into a definitive agreement with DigitalBridge Group, Inc. (“DigitalBridge”), to acquire all the outstanding common stock of DigitalBridge for \$3.1 billion through a wholly owned U.S. subsidiary of SBG (the “Acquisition” in this section). DigitalBridge is a leading global alternative asset manager dedicated to investing in digital infrastructure, including data centers, cell towers, fiber networks, and edge infrastructure.

The Acquisition is subject to closing conditions, including the approval by DigitalBridge’s shareholders, regulatory approvals including under U.S. competition laws, approvals by the Committee on Foreign Investment in the United States (CFIUS), and the Federal Energy Regulatory Commission (FERC), as well as other customary closing conditions.

SBG expects the Acquisition to close in the second half of 2026, upon which DigitalBridge will become a subsidiary of SBG.

The following is an overview of the primary and noteworthy components in the condensed interim consolidated statement of profit or loss.

**A Net Sales**

Net sales increased in the SoftBank segment and the AI Computing segment. For details, see “(c) SoftBank Segment” and “(d) AI Computing Segment” under “b. Results by Segment.”

**B Gain on Investments at Investment Business of Holding Companies**

Investment gain at Investment Business of Holding Companies was ¥163,378 million. This was primarily attributable to an investment gain of ¥339,092 million on NVIDIA Corporation (“NVIDIA”) shares,<sup>\*1</sup> ¥264,920 million on the right to make a follow-on investment in OpenAI (which constitutes a forward contract, the “OpenAI Forward Contract”),<sup>\*2</sup> and ¥180,188 million from investments<sup>\*3</sup> in Intel Corporation (“Intel”). These gains were partially offset by investment losses of ¥629,901 million on T-Mobile shares and ¥168,373 million on Alibaba shares.

For details, see “(a) Investment Business of Holding Companies Segment” under “b. Results by Segment.”

### C Gain on Investments at SoftBank Vision Funds

Investment gain at SoftBank Vision Funds was ¥3,595,219 million. This comprised gains of ¥735,093 million at SVF1, ¥2,737,181 million at SVF2, ¥72,750 million at LatAm, and ¥50,195 million on other investments.

The gain at SVF1 primarily reflected increases in the fair value of private portfolio companies, driven by higher valuations in recent transactions as well as share price increase in certain public portfolio companies.

The gain at SVF2 was primarily attributable to investment gains totaling ¥2,531,534 million related to investments in OpenAI.

For details, see “(b) SoftBank Vision Funds Segment” under “b. Results by Segment.”

### D Gain on Other Investments

Other investment gain was ¥461,747 million. This was primarily due to increases in the fair value of investments held by Robo HD, including Skild AI, Inc.

**Primarily as a result of B through D, the total gain on investments was ¥4,220,344 million.**

### E Selling, General and Administrative Expenses

Selling, general and administrative expenses increased by ¥125,666 million year on year to ¥1,692,039 million in the SoftBank segment, and increased by ¥111,202 million year on year to ¥542,673 million in the AI Computing segment. The increase in the SoftBank segment primarily reflected higher sales-related costs associated with intensified efforts to strengthen smartphone subscriber acquisitions and promote continued use of commerce services by existing customers. The increase in the AI Computing segment was primarily attributable to higher personnel expenses, driven by expanded hiring of technology-related personnel in line with enhanced R&D capabilities.

### F Finance Cost

Interest expenses at SBG<sup>\*4</sup> increased by ¥87,035 million year on year to ¥418,010 million. This was primarily due to (i) higher interest expense on syndicated loans following borrowings under a term loan in September 2024 and a bridge loan in April 2025 and (ii) higher interest expense on straight bonds and hybrid bonds as outstanding balances increased. These increases more than offset lower interest expense related to prepaid forward contracts using Alibaba shares, which declined as physical settlement of those contracts progressed in the previous fiscal year and was completed in the first quarter.

### G Derivative Gain (Excluding Gain or Loss on Investments)

Derivative gain of ¥142,779 million was recorded in relation to prepaid forward contracts using Alibaba shares. All prepaid forward contracts using Alibaba shares were settled by the first quarter-end.

### H Change in Third-Party Interests in SVF

Third-party interests in SVF increased by ¥351,246 million. This was primarily driven by a ¥317,215 million increase in third-party interests at SVF1 attributable to investors entitled to performance-based distributions due to the recording of an investment gain of ¥745,971 million at SVF1 (on SVF1 stand-alone basis). In addition, a ¥32,157 million increase in amounts attributable to investors entitled to fixed distributions also contributed to the overall increase.

**Primarily as a result of A through H, income before income tax was ¥4,169,160 million, an increase of ¥2,898,228 million year on year.**

## I Income Taxes

Income taxes totaled ¥435,706 million. Corporate income taxes were recorded by operating companies such as SoftBank Corp. and LY Corporation, and were also recognized primarily due to an increase in the fair value of investment securities and gains from their sale.

**Primarily as a result of A through I, net income attributable to owners of the parent was ¥3,172,653 million, an increase of ¥2,536,499 million year on year.**

Notes:

1. The total investment gain on the sale of all NVIDIA shares held by SBG and the asset management subsidiary during the third quarter
2. Represents the increase in the fair value of the contract up to the date of the transfer agreement, following the transfer of the OpenAI Forward Contract from SBG to SVF2. The investment under this contract was completed in December 2025.
3. The total of derivative gains associated with the investment contract with Intel (which constitutes a forward contract), and a gain resulting from the increase in the fair value of Intel shares after the completion of the investment in September 2025
4. Interest expenses of SBG include interest expenses of its wholly owned subsidiaries conducting fund procurement.

## b. Results by Segment

The Company's reportable segments are based on the components of its business activities used to determine the allocation of management resources and to evaluate performance. During the third quarter, the Company established a new reportable segment: AI Computing. As of the third quarter-end, there are four reportable segments: Investment Business of Holding Companies, SoftBank Vision Funds, SoftBank, and AI Computing.

The following is a summary of the reportable segments.

### (a) Investment Business of Holding Companies Segment

- ♦ **Investment gain of ¥163.4 billion was recorded at Investment Business of Holding Companies, primarily due to investment gains of ¥339.1 billion on NVIDIA shares, a derivatives gain of ¥264.9 billion on the OpenAI Forward Contract, and ¥180.2 billion on investments in Intel, partially offset by losses of ¥629.9 billion on T-Mobile shares and ¥168.4 billion on Alibaba shares.**
- ♦ **Segment loss amounted to ¥90.0 billion, as the impact of ¥451.6 billion in finance costs and other items more than offset derivative gains (excluding gains (loss) on investments) of ¥216.8 billion.**

## OVERVIEW

This segment is led by SBG, which conducts investment activities either directly or through its subsidiaries, acting as a strategic investment holding company. The segment comprises SBG, SoftBank Group Capital Limited, SoftBank Group Japan Corporation, SoftBank Group Overseas GK, SB Northstar (the asset management subsidiary), and certain other subsidiaries engaged in investment and financing activities. In this segment, gains and losses on investments encompass those held by SBG either directly or through its subsidiaries, excluding gains and losses on investments pertaining to subsidiaries' shares, such as dividend income from subsidiaries or impairment losses related to subsidiaries' shares.

This segment holds investments in portfolio companies, such as T-Mobile and Intel, most of which are classified as financial assets at fair value through profit or loss (FVTPL). Investments classified as financial assets at FVTPL are measured at fair value every quarter, with any change in fair value recorded in the consolidated statement of profit or loss as gains and losses on investments.

### Investment in listed stocks, corporate bonds, and other instruments by the asset management subsidiary

SB Northstar engages in the acquisition and sale of listed stocks, corporate bonds, and other instruments, utilizing the surplus funds of SBG. Investment gain for the period (including interest received from bond investments) at the asset management subsidiary amounted to ¥244.1 billion, bringing the cumulative investment loss since inception to ¥721.4 billion.<sup>\*1</sup> The balance of investments at the third quarter-end stood at ¥1,399.5 billion, including ¥1,240.8 billion in corporate bonds. Investments in corporate bonds are primarily in investment-grade bonds with short remaining maturities.

SBG indirectly holds a 67% stake in SB Northstar, while SBG's Representative Director, Corporate Officer, Chairman & CEO Masayoshi Son indirectly holds a 33% interest. The portion corresponding to Masayoshi Son's interest is deducted from the gains and losses on investments at SB Northstar as a non-controlling interest; therefore, 67% of the gains and losses on investments impact net income attributable to owners of the parent. In the event that, at the end of the fund life (12 years + 2-year extension), SB Northstar has any unfunded repayment obligations to SBG, Masayoshi Son will cover his pro rata share of any such unfunded obligations based on his relative ownership percentage in SB Northstar.

Note:

1. The cumulative investment loss includes dividend income and interest received from bond investments, but excludes the impact of SB Northstar's investments in three special purpose acquisition companies controlled by SB Investment Advisers (US) Inc.

### A Gain on investments: ¥163,378 million

Gain (loss) on investments, excluding dividend income, comprises the following:

- NVIDIA: In October 2025, all NVIDIA shares held by SBG and the asset management subsidiary were sold. This resulted in the recording of investment gains of ¥216,991 million at SBG and ¥122,101 million at the asset management subsidiary, for a total investment gain of ¥339,092 million, reflecting an increase in the share price from the beginning of the fiscal year to the time of sale.
- OpenAI: SBG transferred the OpenAI Forward Contract to SVF2. An investment gain of ¥264,920 million was recorded, reflecting changes in the fair value of the derivative up to the date of the transfer agreement.
- Intel: An investment contract with Intel (which constitutes a forward contract) was entered into in August 2025 and executed in September 2025. An investment gain of ¥180,188 million was recorded due to an increase in the share price since the execution of the agreement.
- Deutsche Telekom: Physical settlement of collar transactions using Deutsche Telekom shares and the sale of all Deutsche Telekom shares held were completed. An investment loss of ¥31,867 million was recorded due to a decline in the share price from the beginning of the fiscal year to the time of physical settlement and sale.
- Alibaba: Physical settlement of prepaid forward contracts using Alibaba shares was completed. An investment loss of ¥169,881 million was recorded due to a decline in the share price from the beginning of the fiscal year to the time of the physical settlement.
- T-Mobile: The Company sold a portion of its T-Mobile shares. An investment loss of ¥357,312 million was recorded due to a decline in the share price from the beginning of the fiscal year to the time of sale. In addition, an investment loss of ¥272,589 million was recorded due to a decline in the share price of T-Mobile shares held at the third quarter-end from the beginning of the fiscal year.

### B Finance cost: ¥451,597 million (increase of ¥48,710 million year on year)

Interest expenses at SBG\*<sup>1</sup> to entities outside of the group increased by ¥87,035 million year on year to ¥418,010 million. This increase was mainly driven by higher interest expenses on syndicated loans following borrowings through a term loan in September 2024 and a bridge loan in April 2025, as well as increased interest expenses on straight bonds and hybrid bonds due to higher outstanding balances. This was partially offset by a decline in interest expenses related to prepaid forward contracts using Alibaba shares, which declined as physical settlement progressed in the previous fiscal year, and was completed in the first quarter.

Note:

1. Interest expenses of SBG include interest expenses of its wholly owned subsidiaries conducting fund procurement.

  - Investment gain for the period was \$5.3 billion (¥746.0 billion), driven by increases in the fair values of private portfolio companies, mainly reflecting higher valuations in recent transactions, as well as share price appreciation in public portfolio companies, such as Coupang and DiDi.
  - Investment loss for the third quarter was \$4.1 billion (¥624.0 billion), primarily due to share price declines of Coupang and DiDi during the third quarter.
- ♦ **SVF2: \$92.7 billion in cumulative returns on \$95.2 billion investments, with a \$2.5 billion gross loss**
  - Investment gain for the period was \$20.3 billion (¥3,042.2 billion). Of this amount, investment gains related to OpenAI totaled \$17.0 billion (¥2,531.5 billion).
  - Investment gain for the third quarter was \$6.6 billion (¥1,010.0 billion). Of this amount, investment gains related to OpenAI totaled \$4.2 billion (¥639.7 billion).

- 1. Returns and gross gains and losses are before deducting third-party interests, taxes, and expenses. Investment returns represent the exit price for exited investments, the fair value for investments before exits, and the respective amounts received for interest or dividends. The same applies hereinafter.
- 2. The amount of gains and losses for exited investments for the fiscal year represents the exit price, net of the investment cost of such investments.

## OVERVIEW

Segment results primarily include the results of the investment and operational activities of SoftBank Vision Fund 1 (SVF1), SoftBank Vision Fund 2 (SVF2), and SoftBank Latin America Funds (LatAm).

### Outline of principal funds in the segment

*As of December 31, 2025*

The funds aim to maximize returns from a medium- to long-term perspective through investments in high-growth-potential companies leveraging AI. SVF1's investment period has ended, and the remaining undrawn capital is reserved for fixed distributions and operating expenses.

Notes:

1. The Company's committed capital to SVF1 includes approximately \$8.2 billion of an obligation that was satisfied by using Arm shares (all said shares have been contributed) and \$2.5 billion to be used for an incentive scheme related to SVF1.
2. On October 22, 2025, the Company's Board of Directors resolved to increase its committed capital to SVF2 by up to \$34.0 billion. Of this amount, the Company increased its committed capital by \$27.0 billion in December 2025. In addition, the remaining \$7.0 billion was increased in February 2026.
3. A co-investment program has been introduced for SVF2 and LatAm for the Company's management. MgmtCo, an investment entity for the co-investment program, participates in the two funds. The interest attributable to MgmtCo is treated as a third-party interest in the Company's consolidated financial statements. For details, see "(1) Co-investment program with restricted rights to receive distributions" under "16. Related party transactions" in "(7) Notes to Condensed Interim Consolidated Financial Statements" in "3. Condensed Interim Consolidated Financial Statements and Primary Notes."

## Financing at SVF

SVF1, SVF2, and LatAm may independently engage in borrowings that are nonrecourse to SBG, with the aim of leveraging and maintaining liquidity. Such borrowings include asset-backed finance, which utilizes held assets to enhance returns and distribute to limited partners.

## Fair value measurement of investments

SVF1, SVF2, and LatAm calculate the fair value of their investments at each quarter-end in accordance with IFRS 13 “Fair Value Measurement” and based on the SBIA Global Valuation Policy and the International Private Equity and Venture Capital Valuation Guidelines. For public portfolio companies, the fair values of portfolio companies traded on stock exchanges are determined using quoted prices, while fair values of those traded on over-the-counter markets are determined using single or multiple factors, such as quoted prices and other observable inputs. For private portfolio companies, one or more valuation methods are used, including the market approach using figures of market comparable companies, the income approach using estimated future cash flows, and the recent transactions method using prices of recent funding rounds and similar transactions.

## OVERVIEW

Segment results include the business activities of SoftBank Corp. and its subsidiaries primarily in Japan, such as the provision of mobile services and sale of mobile devices, as well as the provision of broadband, advertising, and commerce services. Under its *Beyond Carrier* strategy, SoftBank Corp. aims to achieve sustainable growth in its core telecommunications business, while expanding its domains beyond telecommunications through internet services, such as *Yahoo! JAPAN* and *LINE*, and the development of businesses that utilize advanced technologies, including AI, IoT, and FinTech, the latter encompassing the cashless payment service *PayPay*.

## FINANCIAL RESULTS

Segment income increased by ¥82,835 million, or 10.8%, year on year to ¥846,825 million, primarily as a result of higher income in the finance, consumer, and enterprise businesses.

In the consumer business, the segment's core business, income increased mainly due to higher revenue from mobile services driven by continued growth in the number of smartphone subscribers, as well as increases in product sales and broadband revenue. Income in the enterprise business increased mainly due to an expansion of cloud service revenue amid accelerating digitalization among enterprises. In the finance business, income increased due to higher revenue. This was primarily driven by increased fee income at PayPay Corporation from the expansion of gross merchandise volume, as well as higher interest income at PayPay Card Corporation from a larger revolving credit balance and at PayPay Bank Corporation from an expansion of loan balances. Profitability also improved through more efficient use of selling and promotion expenses. In contrast, income in the media & EC business decreased. This was due to (i) a decline in commerce sales caused by a system outage at ASKUL Corporation and (ii) the absence of gains from the loss of control over multiple subsidiaries recorded in the same period of the previous fiscal year (included in "Other gain" in the table above). These negative factors outweighed the recognition of gains on the remeasurement relating to business combinations (included in "Other gain" in the table above) associated with the conversion of LINE MAN CORPORATION PTE. LTD. and LINE Bank Taiwan Limited into subsidiaries.

Investment loss recorded in the same period of the previous fiscal year was primarily due to the loss on valuation of put options granted to certain equity holders other than the Company of an equity method associate. Investment gain for the period was mainly due to the gain on sale of all shares of Remember & Company Co., Ltd, previously an equity method associate.

#### (d) AI Computing Segment

- ♦ **Net sales increased by 9.5% YoY in U.S. dollar terms (6.9% increase in yen terms), driven by higher revenue at Arm.**
- ♦ **Expenses increased due to higher headcount, as the organizational structure continued to expand to support next-generation technology development and strengthen the business foundation. As a result, segment income deteriorated, further impacted by the recording of acquisition-related costs associated with Ampere.**

Other gain	13,136	<b>23,819</b>	10,683	81.3%

Note:

1. Depreciation and amortization expenses include amortization expenses of ¥43,120 million for the period and ¥48,776 million for the same period of the previous fiscal year. These expenses are related to intangible assets recognized in the purchase price allocation at the time of the acquisition of Arm.

## OVERVIEW

In this segment, semiconductor-related subsidiaries such as Arm, Ampere, and Graphcore Limited are working together to enhance the Group's semiconductor business toward the realization of ASI (Artificial Super Intelligence).

Arm delivers industry-leading compute platforms that combine exceptional performance with superior energy efficiency, with its technologies deployed across a broad spectrum of products, including smartphones, IoT devices, automotive systems, and data-center servers. Ampere specializes in designing high-performance, energy-efficient CPUs for AI-driven workloads, built on the Arm compute platform. Graphcore Limited has a proven track record in the design and development of semiconductor chips specialized for AI.

These semiconductor-related subsidiaries will continue to invest in R&D to build the future of AI computing, while advancing the development of new technologies, including new compute platforms delivered as semiconductor IP, chips, and related technologies, which will enable their customers to develop next generation products.

Since the previous fiscal year, a wholly owned subsidiary of the Company and Arm have entered into agreements related to technology licensing and design services (the "Agreements" in this section). Under the Agreements, the Company's wholly owned subsidiary receives licenses for Arm's semiconductor IP and design services for joint research and development aimed at creating future new technologies. In this segment, transactions between the Company's wholly owned subsidiary and Arm are eliminated as a transaction within the segment.

## FINANCIAL RESULTS

### Net sales

Net sales in this section are presented in U.S. dollars as the segment's revenue is primarily denominated in U.S. dollars.

	(Millions of U.S. dollars)			
	Nine months ended December 31			
	2024	2025	Change	Change %
Net sales (U.S. dollar-based)	2,672	2,925	253	9.5%

Net sales increased by \$253 million (9.5%) year on year, driven mainly by higher royalty revenue at Arm. This was primarily due to the ongoing transition from *Armv8* to *Armv9* and the shipping of chips based on Arm's compute subsystems (CSS) across both smartphone and cloud market. *Armv9*-based chips deliver approximately twice the royalty revenue of equivalent *Armv8*-based chips. CSS-based chips deliver even higher royalty rates because they are pre-integrated and pre-validated to accelerate customers' time-to-market and reduce development costs.

### Segment income

Segment loss was ¥91,830 million, deteriorating by ¥68,181 million year on year. This was mainly due to higher expenses resulting from an increase in headcount, as the organizational structure continued to expand to support next-generation technology development and strengthen the business foundation. In addition, the recording of ¥15,502 million in acquisition-related costs for Ampere also contributed to the deterioration in segment income.

## TECHNOLOGY DEVELOPMENT

Arm and its licensees made the following technology-related announcements during the period. For details on each technology development, please refer to the press releases published on the websites of the announcing companies.

- In June 2025, Arm announced technology details of *Arm Zena CSS* for automotive. Built on *Armv9* technology, *Arm Zena CSS* is the first pre-integrated and pre-validated platform for AI-defined vehicles. Combined with Arm's virtual platforms, which enable software to be developed in parallel to the hardware, automakers can reduce their time to develop an AI-enabled vehicle by one year.
- In September 2025, Arm announced technology details of *Arm Lumex CSS* for mobile computing devices. *Arm Lumex CSS* unites its highest performing CPUs, built on the most advanced *Armv9* technology, along with GPUs and system IP, enabling the ecosystem to bring AI devices to market faster and accelerate AI experiences on flagship smartphones and next-generation PCs.
- In December 2025, Amazon Web Services, Inc. announced Graviton5, its latest custom *Armv9*-based server chip. With 192 Arm-based CPU cores, it delivers up to 25% higher performance than the previous generation, enabling improved efficiency.

- In December 2025, Rivian Automotive, Inc. announced its third-generation custom chip RAP1 for autonomous driving, based on the latest *Armv9* architecture. Developed in close collaboration with Arm, RAP1 supports high-performance, energy-efficient, and safety-focused operation in future autonomous vehicles.
- In December 2025, Samsung Electronics Co., Ltd. announced Exynos 2600, its new flagship mobile chip utilizing *Arm Lumex CSS*. It delivers up to 39% higher CPU performance compared with its previous generation, along with improved power efficiency, enabling high-performance on-device AI.

For more information on Arm's U.S. GAAP-based financial results and business operations, see Arm's website at <https://investors.arm.com/>.

## (2) Overview of Financial Position

### 1. Status of investment assets

- ♦ **Carrying amount of investments of SVF (FVTPL)<sup>\*1</sup> of ¥20,227.5 billion (an ¥8,816.6 billion increase from the previous fiscal year-end),<sup>\*2</sup>** which included:

Carrying amount of OpenAI shares was ¥8,521.7 billion (\$54.4 billion), an ¥8,031.3 billion (\$51.2 billion) increase from the previous fiscal year-end.

- ♦ **Carrying amount of investment securities of ¥4,641.6 billion (a ¥3,398.5 billion decrease from the previous fiscal year-end),<sup>\*2</sup>** which included:

- Carrying amount of T-Mobile shares of ¥906.1 billion (a ¥2,498.0 billion decrease primarily due to sales)
- NVIDIA shares and Deutsche Telekom shares, fully sold, with a zero balance at the third quarter-end
- Carrying amount of Intel shares was ¥502.4 billion, reflecting an investment of \$2.0 billion made in September 2025 as well as a subsequent rise in the share price.

### 2. Changes in liabilities associated with financing activities

- ♦ **Interest-bearing debt of SBG amounted to ¥11,535.0 billion (a ¥2,949.6 billion increase from the previous fiscal year-end).**

- Borrowings of ¥2,990.2 billion (an increase of ¥1,214.8 billion from the previous fiscal year-end):  
Borrowings were executed primarily to fund the acquisition of Ampere and the follow-on investment in OpenAI (first closing). The outstanding balance of such borrowings at the third quarter-end totaled ¥1,871.2 billion (\$12.0 billion).

- Corporate bonds of ¥8,315.2 billion (a ¥1,646.8 billion increase from the previous fiscal year-end): SBG issued ¥1,120.0 billion in domestic straight bonds, ¥200.0 billion in domestic hybrid bonds, \$2.2 billion in U.S. dollar-denominated senior notes, \$2.0 billion in U.S. dollar-denominated hybrid bonds, 1.7 billion euros in euro-denominated senior notes, and 750 million euros in euro-denominated hybrid bonds, while redeeming ¥500.0 billion in domestic straight bonds and \$911 million and 1,607 million euros in foreign currency-denominated senior notes upon maturity.

- ♦ **Interest-bearing debt of wholly owned subsidiaries conducting fund procurement amounted to ¥4,297.0 billion (an ¥835.3 billion increase from the previous fiscal year-end).<sup>\*2</sup>**

- Borrowings totaled ¥4,297.0 billion (an increase of ¥1,833.2 billion from the previous fiscal year-end):  
This mainly reflected increases of \$11.5 billion in a margin loan using Arm shares and ¥400.0 billion in a margin loan using SoftBank Corp. shares, which were partially offset by a decrease of \$2.9 billion upon repayment following the full settlement, through delivery of Deutsche Telekom shares, of borrowings related to collar transactions.

- Financial liabilities relating to prepaid forward contracts stood at zero balance:  
This reflected a decrease by ¥983.0 billion (\$6.7 billion) at the time of physical settlement of all prepaid forward contracts using Alibaba shares.

### 3. Changes in equity

- ♦ **Total equity increased by ¥4,358.1 billion from the previous fiscal year-end.**

Retained earnings increased due to recording ¥3,172.7 billion in net income attributable to owners of the parent.

- ♦ **Ratio of equity attributable to owners of the parent (equity ratio) was 28.1% at the third quarter-end, compared with 25.7% at the previous fiscal year-end.**

## Notes:

1. Investments of SVF (FVTPL) do not include SVF's investments in the Company's subsidiaries (primarily Robo HD and PayPay Corporation) or investments that were transferred from the Company to the funds and continue to be accounted for using the equity method (and are included in "Investments accounted for using the equity method") prior to and after such transfer.
2. Includes increases in the carrying amount due to a 4.7% depreciation of the yen against the U.S. dollar in the foreign currency exchange rates used for translation at the third quarter-end compared to the previous fiscal year-end.

**Reasons for changes by primary component**

Components	Main reasons for changes from the previous fiscal year-end
<b><u>Current assets</u></b>	
<b>A Other financial assets</b>	At the asset management subsidiary, the balance increased by ¥591,982 million, mainly reflecting acquisitions of corporate bonds (primarily short-maturity, investment-grade), partially offset by sale of NVIDIA shares.
<b>B Assets classified as held for sale</b>	Alibaba shares worth ¥533,818 million (\$3.57 billion) were reclassified from investment securities to assets classified as held for sale, following a decision made prior to the previous fiscal year-end to use the shares for physical settlement of a portion of the prepaid forward contracts maturing in April 2025, resulting in a decrease upon completion of the settlement.
<b><u>Non-current assets</u></b>	
<b>C Goodwill</b>	Because the purchase price allocation relating to the acquisition of Ampere has not yet been completed, provisional goodwill of ¥1,075,976 million was recorded, which is the difference between the acquisition price of ¥1,011,731 million and the net amount of Ampere's assets and liabilities at the date of acquisition of control. For details on Ampere's conversion to a subsidiary, see "3. Business combination" under "(7) Notes to Condensed Interim Consolidated Financial Statements" in "3. Condensed Interim Consolidated Financial Statements and Primary Notes."
<b>D Investments of SVF (FVTPL)</b>	<ul style="list-style-type: none"> <li>The carrying amount of investments at SVF2 increased by ¥8,131,333 million (\$50.71 billion <sup>*1</sup>). This reflected follow-on and new investments totaling \$44.81 billion, and an \$8.05 billion increase in the fair value of investments held at the third quarter-end, partially offset by \$2.17 billion in divestments and transfers to Robo HD.</li> <li>Of the above increase in carrying amount, the carrying amount of OpenAI shares increased by ¥8,031,257 million (\$51.2 billion). This comprised ¥6,782,764 million (\$44.5 billion) from follow-on investments, ¥994,667 million (\$6.7 billion) from an increase in fair value, and ¥268,743 million from changes in foreign exchange rates. As a result, the balance at the third quarter-end stood at ¥8,521,696 million (\$54.4 billion). The increase from follow-on investments includes ¥1,850,108 million (\$12.0 billion) resulting from the exercise of the OpenAI Forward Contract, which had been recorded under derivative financial assets (current) at the second quarter-end.</li> <li>The carrying amount of investments at SVF1 increased by ¥606,517 million (\$1.93 billion <sup>*1</sup>). The result reflected an increase of \$4.49 billion in the fair value of investments held at the third quarter-end, offset by a decrease of \$2.57 billion resulting from divestments.</li> </ul> <p>The carrying amount of these investments of SVF also reflected an increase due to a 4.7% depreciation of the yen against the U.S. dollar in the exchange rates used for translation at the third quarter-end compared to the previous fiscal year-end.</p> <p>For details, see "(b) SoftBank Vision Funds Segment" under "b. Results by Segment" in "(1) Overview of Results of Operations."</p>

Components	Main reasons for changes from the previous fiscal year-end
<b>E Investment securities</b>	<ul style="list-style-type: none"> <li>The carrying amount of T-Mobile shares decreased by ¥2,497,995 million from the previous fiscal year-end, bringing the balance at the third quarter-end to ¥906,074 million. This decrease was due to the sale of 56.9 million shares, as well as a decline in the company's share price (reference: \$266.71 per share as of March 31, 2025, to \$203.04 per share as of December 31, 2025).</li> <li>The carrying amount of Deutsche Telekom shares decreased by ¥1,121,969 million from the previous fiscal year-end due to the sale of all shares, resulting in a zero balance at the third quarter-end.</li> <li>The carrying amount of Alibaba shares decreased by ¥1,014,238 million from the previous fiscal year-end, bringing the balance at the third quarter-end to ¥10,866 million. This was primarily due to the physical settlement of all prepaid forward contracts using Alibaba shares.</li> <li>The carrying amount of NVIDIA shares decreased by ¥311,566 million from the previous fiscal year-end due to the sale of all shares (excluding those held by the asset management subsidiary), resulting in a zero balance at the third quarter-end.</li> <li>The carrying amount of Intel shares increased by ¥502,353 million from the previous fiscal year-end, bringing the balance at the third quarter-end to ¥502,353 million. This was due to an investment of \$2.0 billion made in September 2025 as well as a subsequent rise in the share price.</li> <li>The carrying amount of investments held by Robo HD increased by ¥450,475 million from the previous fiscal year-end, bringing the balance at the third quarter-end to ¥708,876 million.</li> <li>The carrying amount of asset management products such as bonds held by PayPay Bank Corporation increased by ¥374,388 million from the previous fiscal year-end, bringing the balance at the third quarter-end to ¥1,121,444 million.</li> </ul> <p>The carrying amounts of these investment securities also reflected an increase caused by a 4.7% depreciation of the yen against the U.S. dollar in the exchange rates used for translation at the third quarter-end compared to the previous fiscal year-end.</p>
<b>F Other financial assets</b>	<p>As a result of LINE Bank Taiwan Limited becoming a subsidiary, its loans (banking business) and other financial assets totaling ¥358,774 million were recorded.</p>

Note:

1. Includes the impact of changes in exchange rates between local currencies and the U.S. dollar.

2. Includes the interest-bearing debt and lease liabilities of PayPay Corporation's subsidiaries such as PayPay Bank Corporation and PayPay Card Corporation.

3. Deposits related to banking operations of banking subsidiaries PayPay Bank Corporation and LINE Bank Taiwan Limited are not included in interest-bearing debt.
4. Following the establishment of a new reportable segment, the AI Computing segment, in the third quarter, figures for the previous fiscal year-end have been retrospectively restated and presented to reflect the current reportable segments.

### Reasons for changes from the previous fiscal year-end at core companies

Components	Details
<b>Investment Business of Holding Companies segment</b>	
<b>SBG</b>	
<b>A Borrowings</b>	Borrowings increased by ¥1,214,816 million due to executing borrowings to fund the acquisition of Ampere and the first closing of the follow-on Investments in OpenAI, with a combined outstanding balance of ¥1,871,231 million (\$12.0 billion) at the third quarter-end. Meanwhile, the commitment lines (\$5,465 million and ¥35,600 million) borrowed in the previous fiscal year were fully repaid.
<b>B Corporate bonds</b>	<ul style="list-style-type: none"> <li>· SBG issued ¥1,120.0 billion in domestic straight bonds and ¥200.0 billion in domestic hybrid bonds, while redeeming ¥500.0 billion in domestic straight bonds upon maturity.</li> <li>· SBG issued \$2.2 billion in U.S. dollar-denominated senior notes and \$2.0 billion in U.S. dollar-denominated hybrid bonds, while redeeming \$911 million in U.S. dollar-denominated senior notes upon maturity.</li> <li>· SBG issued 1.7 billion euros in euro-denominated senior notes and 750 million euros in euro-denominated hybrid bonds, while redeeming 1,607 million euros in euro-denominated senior notes upon maturity.</li> </ul>
<b>Wholly owned subsidiaries conducting fund procurement</b>	
<b>C Borrowings</b>	Borrowings increased by ¥1,833,150 million, primarily due to the execution of margin loans of \$11.5 billion using Arm shares and ¥400,000 million using SoftBank Corp. shares. These increases were partially offset by a decrease of \$2.9 billion at the time of the full repayment of all borrowings related to collar transactions using Deutsche Telekom shares through delivery of such shares.
<b>D Financial liabilities relating to sale of shares by prepaid forward contracts</b>	Financial liabilities under prepaid forward contracts using Alibaba shares decreased by ¥983,044 million (\$6.7 billion) following the physical settlement of all such contracts, resulting in a zero balance at the first quarter-end.
<b>SB Northstar</b>	
<b>E Borrowings</b>	Borrowings increased by ¥440,031 million due to the borrowing of \$3.0 billion in prime brokerage loans secured by securities held by SB Northstar.
<b>SoftBank Vision Funds segment</b>	
<b>SVF2</b>	
<b>F Borrowings</b>	Borrowings through asset-backed financing increased by ¥333,466 million (\$1.98 billion) at SVF2.

**Reasons for changes by primary component**

Components	Main reasons for changes from the previous fiscal year-end
<b>A</b> Retained earnings	Net income attributable to owners of the parent of ¥3,172,653 million was recorded.
<b>B</b> Treasury stock	Pursuant to a Board of Directors' resolution dated August 7, 2024 authorizing the repurchase of up to ¥500.0 billion of the Company's own shares, 13,221,000 shares were repurchased during the period. Meanwhile, SBG retired the same number of shares as the total number of treasury stock acquired under the resolution, which totaled 42,033,200 shares, on October 31, 2025.
<b>C</b> Accumulated other comprehensive income	Exchange differences from the translation of foreign operations, arising from translating the financial statements of foreign subsidiaries and associates into yen, increased by ¥1,019,276 million mainly due to the yen's depreciation against the U.S. dollar in exchange rates used for translation at the third quarter-end compared to the previous fiscal year-end.

### (3) Overview of Cash Flows

#### 1. Cash flows from operating activities

- ♦ Outlays for income taxes: ¥782.4 billion

#### 2. Cash flows from investing activities: ¥4,515.8 billion cash outflow (net)

- ♦ Payments totaling ¥5,102.6 billion were made by SVF for investment acquisitions, primarily due to investments of ¥5,077.8 billion made by SVF2 in OpenAI.
- ♦ Payments totaling ¥1,294.5 billion were made for investment acquisitions, primarily due to an investment in Intel by a wholly owned subsidiary of SBC, and investments in asset management products such as bonds by PayPay Bank.
- ♦ Outlays of ¥1,035.4 billion for the purchase of property, plant and equipment and intangible assets due to capital expenditures at SoftBank Corp. and SBE Global, and other entities.
- ♦ Proceeds of ¥3,081.8 billion from the sale and redemption of investments primarily due to the partial sale of T-Mobile shares.

#### 3. Cash flows from financing activities: ¥5,182.9 billion cash inflow (net)

- ♦ SBG carried out loan financing and issued corporate bonds.

- Proceeds from interest-bearing debt: ¥10,810.3 billion

- Proceeds at SBG: ¥6,205.4 billion

- (primarily from an \$8.5 billion bridge loan to fund the first closing of the follow-on investments in OpenAI, a \$6.5 billion bridge loan for the acquisition of Ampere, the borrowing of ¥893.7 billion through commitment lines, and the issuance of ¥1,120.0 billion in domestic straight bonds, ¥200.0 billion in domestic hybrid bonds, \$2.2 billion and 1.7 billion euros in foreign currency-denominated senior notes, and \$2.0 billion and 750 million euros in foreign currency-denominated hybrid bonds)

- Proceeds at wholly owned subsidiaries conducting fund procurement: ¥2,171.5 billion

- (primarily from \$11.5 billion raised through a margin loan using Arm shares and ¥400.0 billion through a margin loan using SoftBank Corp. shares)

- Repayment of interest-bearing debt: ¥5,061.5 billion

- Outlays at SBG: ¥3,472.8 billion

- (primarily for the repayment of ¥1,730.3 billion of borrowings under commitment lines, the repayment of \$3.0 billion of bridge loans borrowed for investments in OpenAI, and the redemption upon maturity of ¥500.0 billion in domestic straight bonds, \$911 million and 1,607 million euros in foreign currency-denominated senior notes)

#### 4. Balance of cash and cash equivalents at the third quarter-end and its changes

- ♦ The balance of cash and cash equivalents stood at ¥4,406.7 billion at the third quarter-end, an increase of ¥693.6 billion from the previous fiscal year-end. This was the result of cash flows from operating, investing, and financing activities, together with the effect of exchange rate changes on cash and cash equivalents, etc.

## SIGNIFICANT NON-CASH TRANSACTION

During the period, the Company physically settled all of the prepaid forward contracts using Alibaba shares and all of the collar transactions using Deutsche Telekom shares. As these were non-cash transactions, they had no impact on the consolidated cash flows. For details, see “(4) Significant non-cash transactions” under “15. Supplemental information to the condensed interim consolidated statement of cash flows” in “(7) Notes to Condensed Interim Consolidated Financial Statements” in “3. Condensed Interim Consolidated Financial Statements and Primary Notes.”

## 2. Notes to Summary Information

### Significant Changes in Scope of Consolidation for the Nine-Month Period Ended December 31, 2025

(Consolidation of Ampere)

On November 25, 2025, the Company acquired all of the equity interests of Ampere, a U.S.-based semiconductor design company focused on high-performance, energy-efficient, sustainable AI compute based on the Arm compute platform. As a result, Ampere and its subsidiaries became wholly-owned subsidiaries of the Company. The details are described in “Note 3. Business combination” in “(7) Notes to Condensed Interim Consolidated Financial Statements” under “3. Condensed Interim Consolidated Financial Statements and Primary Notes.”

**(7) Notes to Condensed Interim Consolidated Financial Statements****1. Changes in presentation**

(Condensed interim consolidated statement of cash flows)

Cash flows from operating activities

“(Increase) decrease in restricted cash in asset management subsidiaries,” and “Increase (decrease) in borrowed securities in asset management subsidiaries,” which were included in “Other” in the past fiscal year, are separately presented for the nine-month period ended December 31, 2025, since the amounts increased and became significant. In order to reflect the changes in presentation, ¥1,961 million and ¥(1,961) million, which were included in “Other” for the nine-month period ended December 31, 2024, are reclassified as “(Increase) decrease in restricted cash in asset management subsidiaries,” and “Increase (decrease) in borrowed securities in asset management subsidiaries,” respectively.

**2. Material accounting policies**

Material accounting policies applied to the condensed interim consolidated financial statements are consistent with the accounting policies applied to the consolidated financial statements for the fiscal year ended March 31, 2025. In addition, income taxes for the nine-month period ended December 31, 2025, are calculated based on the estimated effective tax rate for the fiscal year.

### 3. Business combination

For the nine-month period ended December 31, 2025

Ampere

#### (1) Overview of business combination

In March 2025, SoftBank Group Corp. entered into an agreement with Ampere, a U.S.-based semiconductor design company focused on high-performance, energy-efficient, sustainable AI compute based on the Arm compute platform and certain of its equity holders (the “Sellers”), to acquire all of the equity interests of Ampere through Silver Bands 6 (US) Corp. (“SB6”), a wholly-owned subsidiary of the Company. Subsequently, on November 25, 2025, the acquisition transaction pursuant to the agreement was completed.

As a result of the transaction, Ampere became a wholly-owned subsidiary of the Company.

#### (2) Purpose of consolidation

Ampere is a semiconductor company that designs high-performance, energy-efficient processors specialized for next-generation cloud computing and AI workloads. With approximately 1,000 highly skilled semiconductor engineers and its notable technological capabilities, Ampere is expected to play a key role in future growth markets.

The transaction is aligned with the Company’s broader strategic vision and commitment to driving innovation in AI and compute. Ampere is expected to collaborate with the broader ecosystem of the Company, including group companies, investees, and business partners. Through this strategic alignment following the transaction, Ampere’s expertise in developing and taping out\* Arm-based chips can be integrated, and complementing design strengths of Arm. Ultimately, the Company expects this to contribute to the long-term growth of its NAV (Net Asset Value: calculated as equity value of holdings – adjusted net interest-bearing debt).

Note:

\* In the semiconductor manufacturing process, this refers to the completion of a highly complex circuit design and the sending of its data to the manufacturing department or foundry. It marks a milestone that signifies the end of the design phase.

#### (3) Overview of Ampere

Name	Ampere Computing Holdings LLC
Address	Santa Clara, California, USA
Name and title of representative	Jeff Wittich Chief Product Officer
Nature of business	Semiconductor design, focused on high-performance, energy-efficient, sustainable AI compute based on the Arm compute platform
Founded	September 27, 2017

#### (4) Overview of the acquisition

The principal sellers in the transaction are Carlyle Partners VI Denver Holdings, L.P., Oracle Project Denver Holdings LLC, and Arm. The transaction was implemented by way of (i) the acquisition by SB6 of all of the equity interests of certain entities that own units in Ampere (“Equity holding Entities”) from certain sellers,

and (ii) an immediately following “reverse triangular merger,” in which a wholly-owned subsidiary of SB6 that was established for the purpose of the transaction, was merged with and into Ampere. The surviving company after the merger was Ampere and its equity holders at the time of the effective date of the merger (other than the equity holding entities) received cash consideration, while Ampere, the surviving company, became a wholly-owned subsidiary of the Company.

(5) Acquisition date

November 25, 2025

(6) Consideration transferred and the component

	(Millions of yen)
	Acquisition date
	(November 25, 2025)
Payment for the acquisition by cash	964,832
Fair value of equity interest in Ampere already held at the time of the acquisition	46,899
Total consideration transferred	A   1,011,731

Acquisition-related costs of ¥15,502 million arising from the business combination are recognized in “Selling, general and administrative expenses” in the condensed interim consolidated statement of profit or loss.

As a result of remeasuring the equity interest already held by the Company at the time of the acquisition of control in Ampere at fair value, ¥(3,093) million of a difference arising from a step acquisition is recognized. Of this, ¥839 million of gain is recognized as “Gain on investments - Other” in the condensed interim consolidated statement of profit or loss and the amount reflecting tax effects on ¥(3,932) million of loss is recognized as “Equity financial assets at FVTOCI” in the condensed interim consolidated statement of comprehensive income, respectively.

#### 4. Segment information

##### (1) Description of reportable segments

The Company's reportable segments are components of business activities for which discrete financial information is available, and such information is regularly reviewed by the Company's Board of Directors in order to make decisions about the allocation of resources and assess its performance.

Until the six-month period ended September 30, 2025, the Company had four reportable segments, the Investment Business of Holding Companies segment, the SoftBank Vision Funds segment, the SoftBank segment, and the Arm segment.

Subsequently, for the three-month period ended December 31, 2025, following the completion of the acquisition of Ampere, a re-evaluation of the operating units which were regularly reviewed by the Board of Directors for performance evaluation, was conducted. As a result, Arm, which had previously been included in the Arm segment, Graphcore Limited and others previously included in "Other," and Ampere were combined, and the AI Computing segment was newly established as a reportable segment.

The Investment Business of Holding Companies segment conducts, mainly through SoftBank Group Corp. as a strategic investment holding company, investment activities in a wide range of sectors in Japan and overseas directly or through subsidiaries of the Company. The Investment Business of Holding Companies segment consists of SoftBank Group Corp., SoftBank Group Capital Limited, SoftBank Group Japan Corporation, SoftBank Group Overseas GK, SB Northstar that is an asset management subsidiary, and certain subsidiaries of the Company that conduct investment or funding. Gain and loss on investments in the segment consist of gain and loss on investments held directly by SoftBank Group Corp. or through subsidiaries of the Company. However, gain and loss on investments relating to investments in subsidiaries, including dividend income from subsidiaries and impairment loss on investments in subsidiaries, are excluded.

The SoftBank Vision Funds segment conducts, mainly through SVF1, SVF2, and LatAm, investment activities in a wide range of technology sectors. Primarily, gain and loss on investments in the segment consist of gain and loss on investments held by SVF1, SVF2, and LatAm including the investment in the Company's subsidiary.

The SoftBank segment provides, mainly through SoftBank Corp., mobile services, sale of mobile devices, broadband services, and solution services in Japan, through LY Corporation, media, advertising and commerce related services, and through PayPay Corporation, payment and financial services.

The AI Computing segment provides, mainly through Arm, Ampere, and Graphcore Limited, design of semiconductor IP, chips, and related technology, as well as sale of software tools and related services.

Information on business segments, which is not included in the reportable segments, is classified as "Other." "Other" includes mainly SBE Global, Robo HD, the Fukuoka SoftBank HAWKS-related operations, and others.

"Reconciliations" includes an elimination of intersegment transactions, as well as an elimination of gain and loss on the investment in shares in Arm, Robo HD, and PayPay Corporation, subsidiaries of the Company, and

others, which are included in segment income of the SoftBank Vision Funds segment.

In addition, the segment information for the nine-month period ended December 31, 2024 and the three-month period ended December 31, 2024 has been reclassified and presented based on the revised reportable segments.

## (2) Net sales and income of reportable segments

Income of reportable segments is defined as “Income before income tax.” As presented in the condensed interim consolidated statement of profit or loss, gain and loss on investments included in segment income include gain and loss on investments in financial assets at FVTPL, interest and dividends from investments, derivative gain and loss relating to investments, and gain and loss on the sale of investments accounted for using the equity method.

Intersegment transaction prices are determined under the same general business conditions as applied for external customers.

## 5. SoftBank Vision Funds business

### (1) Income and loss arising from the SoftBank Vision Funds business

#### a. Overview

Segment income arising from the SoftBank Vision Funds business (income before income tax) represents the net profits of the SoftBank Vision Funds business, after deducting the net profits attributable to Third-Party Investors. The net profits attributable to Third-Party Investors are the amount allocated to Third-Party Investors based on proportion of their respective equity contributions, calculated by deducting management fees, performance-linked management fees, and performance fees payable to the fund managers, as well as operating expense and other expenses of SVF from the gains or losses on investments at SVF1, SVF2, and LatAm.

The amount of the net profits attributable to Third-Party Investors that is deducted from the segment income is presented as “Change in third-party interests in SVF.”

#### b. Segment income arising from the SoftBank Vision Funds business

The components of segment income arising from the SoftBank Vision Funds business are as follows. In addition, for the nine-month period ended December 31, 2025, the presentation of the table below was changed. In order to reflect the change, the presentation for the nine-month period ended December 31, 2024 has been reclassified.

## Notes:

1. In August 2023, SVF1 sold Arm shares for \$16.1 billion (the “Transaction Consideration”) to a wholly-owned subsidiary of the Company (the “Transaction”). The proceeds of the sale were scheduled to be paid in four installments and all installments were paid by August 2025. At the date of sale, the gain and loss on investments were recognized as the discounted present value of the Transaction Consideration (\$15.1 billion) net of the investment cost (\$8.2 billion). The difference between the Transaction Consideration and the discounted present value of the Transaction Consideration is recognized as income over the two years after the date of sale and recorded in the gain and loss on investments. As a result of the Transaction, for the nine-month period ended December 31, 2025, ¥10,207 million of gain on investments is included in gain on investments in the above-mentioned segment income. However, these are eliminated in consolidation due to inter-company transactions relating to shares of a subsidiary.
2. For the nine-month period ended December 31, 2025, ¥305,730 million of gain on investments related to the Company’s subsidiaries and others held by SVF1 and SVF2 (mainly Robo HD and PayPay Corporation) is included in gain on investments in the above-mentioned segment income. However, the gain and loss on investments are eliminated in consolidation.

The gain and loss on investments, that are eliminated in consolidation, are not included in “Gain on investments - SoftBank Vision Funds” in the condensed interim consolidated statement of profit or loss.

3. For the nine-month period ended December 31, 2025, ¥2,531,534 million of gain on investments was recognized mainly due to an increase in the fair value of the investments in OpenAI held by SVF2. The amount includes gain on investments related to changes in fair value of the derivative between the date of the transfer agreement and the exercise date of the right, arising from the transfer to SVF2 of the right held by SoftBank Group Corp. to make an additional investment in OpenAI (a forward contract). The details of the investments in OpenAI are described in “Note 17. Additional information.”
4. For the nine-month period ended December 31, 2025, SVF2, at the first closing, acquired equity interests (convertible interest rights) in OpenAI Global through a wholly-owned subsidiary, and converted such subsidiary interests into preferred shares of OpenAI Group PBC by contributing them in kind to OpenAI Group PBC. As a result of losing control over the subsidiary, a gain of ¥159,805 million was recognized. The details are described in “Note 17. Additional information.”

## (2) Third-party interests in SVF

## a. Terms and conditions of contribution from/ distribution to SVF Investors

Contributions by SVF Investors are classified as “Equity” and “Preferred Equity” depending on the terms and conditions of distribution. Preferred Equity is prioritized over Equity with regard to distribution and return of contribution.

Performance-based distributions attributed to SVF Investors, consisting of the Company and Third-Party Investors, are calculated using the net proceeds from the investment performance, as applicable, of SVF1, SVF2, and LatAm. The net proceeds from SVF1 and LatAm are also allocated to the performance fees attributed to SBIA and SBGA, respectively, using the method specified in the limited partnership agreement. The amount of performance-based distribution attributed to SVF Investors is allocated to each of the SVF Investors based on the proportion of their respective Equity contribution. The amount of performance-based distributions is paid to each of the SVF Investors after each of SVF1, SVF2, and LatAm, as applicable, receive cash through dividend, or disposition or monetization of investments.

In SVF1, fixed distributions are defined as distributions of Preferred Equity holders which are calculated equal to a 7% rate per annum based on their contributions. The fixed distributions are made every last business day of the months of June and December.

In SVF2, the Company has contributed preferred equity, and fixed distributions are defined as amounts accrued of Preferred Equity holders which are calculated equal to 8% rate per annum based on their contributions. For the nine-month period ended December 31, 2025, the Company’s commitment amount to SVF2 increased by \$27.0 billion, and \$24.1 billion of Preferred Equity was newly issued. As a result, the Company’s commitment amount to SVF2 as of December 31, 2025 amounted to \$94.8 billion. Also, in February 2026, the Company’s commitment amount was further increased by \$7.0 billion and \$6.2 billion of preferred equity was issued to the Company. As a result, the total capital commitment of SVF2 amounted to \$101.8 billion. Accordingly, fixed distributions to the Company are calculated based on the Preferred Equity contribution amount at an annual rate of 9% with respect to the Preferred Equity newly issued as part of such increase, and accrue on an annual basis. The Preferred Equity interests have a priority right over the Equity interests held by the Company and MgmtCo under Co-investment program with restricted rights to receive distributions in terms of its distributions and return of the contributions.

The details of the terms and conditions of the Equity contributed by Third-Party Investor in SVF2 and LatAm are described in “(1) Co-investment program with restricted rights to receive distributions” under “Note 16. Related party transactions.” There are no Third-Party Investors who contributed to Preferred Equity in SVF2 and LatAm.

Hereafter, Third-Party Investors contributing Equity are defined as “Investors entitled to performance-based distribution” and Third-Party Investors contributing Preferred Equity are defined as “Investors entitled to fixed distribution.”

c. Uncalled committed capital from Third-Party Investors

Uncalled committed capital from SVF1’s Third-Party Investors as of December 31, 2025 was \$8.2 billion.

(3) Management fees and performance fees

Terms and conditions of management fees, performance-linked management fees, and performance fees, included in segment income from the SoftBank Vision Funds business, are as follows.

a. Management fees and performance fees in SVF1

Management fees to SBIA from SVF1 are, in accordance with the limited partnership agreement, calculated by multiplying 1% per annum by Equity contributions used to fund investments and paid to SBIA by SVF1 quarterly. A clawback provision is attached to the management fees received, which is triggered under certain conditions based on future investment performance.

Same as the performance-based distributions, the amount of the performance fees to SBIA from SVF1 is calculated using the allocation method as specified in the limited partnership agreement. SBIA is entitled to receive the performance fees when SVF1 receives cash through disposition, dividend, and monetization of an investment. The performance fees received are subject to clawback provisions which are triggered under certain conditions based on future investment performance.

From the inception of SVF1, the cumulative amount of performance fees paid to SBIA was \$454 million. For the three-month period ended June 30, 2023, the performance fee (net of tax) was distributed to the limited partners in accordance with the clawback provisions.

b. Management fees and performance-linked management fees in SVF2

Management fees to SBGA from SVF2 are, in accordance with the constitutional agreements, calculated by multiplying 0.7% per annum by the acquisition cost of investments and paid to SBGA by SVF2 quarterly.

The amount of the performance-linked management fees to SBGA from SVF2 is determined, based on the

investment performance for certain periods specified in the constitutional agreement, according to the agreed principle. SBGA is entitled to receive the performance-linked management fees after certain periods for the investment performance measurement specified in the constitutional agreement, provided that there are available cash proceeds through disposition, dividend, and monetization of an investment in SVF2.

From the inception of SVF2 to December 31, 2025, no performance-linked management fees were paid to SBGA.

c. Management fees, performance-linked management fees, and performance fees in LatAm

Management fees to SBGA from LatAm are, in accordance with the constitutional agreements, calculated based on the acquisition cost of investments and paid to SBGA by LatAm quarterly.

The amount of the performance-linked management fees to SBGA from LatAm is determined, based on the investment performance for certain periods specified in the constitutional agreement, according to the agreed principle. SBGA is entitled to receive the performance-linked management fees after certain periods for the investment performance measurement specified in the constitutional agreement, provided that there are available cash proceeds through disposition, dividend, and monetization of investments in LatAm.

Same as the performance-based distributions, the amount of the performance fees to SBGA from LatAm is calculated using the allocation method as specified in the constitutional agreements. SBGA is entitled to receive the performance fees when LatAm receives cash through disposition, dividend, and monetization of an investment.

From the inception of LatAm to December 31, 2025, neither performance-linked management fees nor performance fees were paid to SBGA.

## 16. Related party transactions

### (1) Co-investment program with restricted rights to receive distributions

MgmtCo, which is the investor in SVF2 LLC (a subsidiary of the Company under SVF2) and the investor in SLA LLC (a subsidiary of the Company under the LatAm), is a company controlled by Masayoshi Son, Representative Director, Corporate Officer, Chairman & CEO of SoftBank Group Corp., and a related party of the Company. The co-investment program with restricted rights to receive distributions to SVF2 and LatAm has been introduced from the three-month period ended September 30, 2021 for the purpose of enabling Masayoshi Son to make a co-investment in SVF2 and LatAm with the Company, sharing risk of losses as well as benefit of profits in the success of SVF2 and LatAm, and leading to enhanced focus on the management of investments held by them, which in turn is intended to contribute to increases in the Company's earnings. In making a co-investment in SVF2 and LatAm under the terms of the program, MgmtCo both receives the benefit of profits and assumes the risk of losses from SVF2 and LatAm, and MgmtCo's right to receive distributions from its investment is subject to certain restrictions.

Contributions to SVF2 LLC and SLA LLC are classified as "Equity" and "Preferred Equity" depending on the terms and conditions of distribution. SVF2 LLC and SLA LLC each have issued Equity entitled to performance-based distributions that are allocated to the Company and MgmtCo based on the proportion of their respective contributions. The Company's Equity interest in each of SVF2 LLC and SLA LLC is 82.75%, and MgmtCo's Equity interest in each of SVF2 LLC and SLA LLC is 17.25%. The Company's investment in SVF2 LLC is made through SoftBank Vision Fund II-2 L.P. and its subsidiaries, and its investment in SLA LLC is made through SBLA Latin America Fund LLC and its subsidiaries.

Related party transactions of the Company are as follows:

a. Transactions between SVF2 and related parties

(Millions of yen)

Name of the company or individual	Nature of relationship	Nature of transaction	For the nine-month period ended	As of
			December 31, 2025	December 31, 2025
Masayoshi Son (MASA USA LLC (MgmtCo))	Chairman & CEO of SoftBank Group Corp. and related entities of which he holds more than one-half of the voting rights	Receipt of capital contribution in SVF2 LLC and related adjustments <sup>*1,2</sup>	Amount of transaction	Balance at period end
		The premium received on SVF2 LLC's receivables	9,224 <sup>*3</sup> (\$61 million)	
		MgmtCo's Equity interests in SVF2 LLC <sup>*5,6</sup>	-	-
Net balance at period end (Receivables in SVF2 LLC less MgmtCo's Equity interests in SVF2 LLC) <sup>*7</sup>			486,815 (\$3,109 million)	

Notes:

1. Restrictions on rights of MgmtCo to receive distributions

MgmtCo's right to receive distributions from its investment is subject to certain restrictions. Distributions from SVF2 LLC to MgmtCo are fully restricted and are not paid until the sum of proceeds received by SVF2 LLC from realized investments plus the aggregate fair value of all of SVF2 LLC's unrealized investments (net of borrowings) exceeds 130% of the aggregate acquisition cost of all of SVF2 LLC's investments. After the ratio exceeds 130%, restrictions on distributions to MgmtCo are released proportionately in increments of 10%, and when the ratio reaches 200%, all restrictions are released and MgmtCo is entitled to receive the full amount of the distribution. In the event that, upon the liquidation of SVF2 LLC, the amount of the distributions received by MgmtCo exceeds the amount that would have been distributed to MgmtCo if the ratio in effect at the time of liquidation was applied throughout the life of SVF2 LLC, then any such excess amounts will be subject to clawback from MgmtCo.

2. Nature of the Equity contribution by MgmtCo

The Equity interests contributed by the Company and MgmtCo are subordinated to the Preferred Equity contributed separately by the Company to SVF2 LLC. If there is a shortfall in the amount of return of Preferred Equity contributions and the amount of fixed distributions to be received by the Preferred Equity holders at the time of the final profit distribution by SVF2 LLC, then MgmtCo is obligated to pay the shortfall proportional to Equity interests' ratio up to the total amount of return of Equity contributions and the distributions received by MgmtCo.

3. Balance at period end of receivables from MgmtCo for receipt of capital contribution and related adjustments

Balance at period end is the balance of SVF2 LLC's receivables which consists of the balance related to receipt of capital contribution, related adjustments, and premiums received from MgmtCo, less any decrease in receivables due to offsetting settlement with distributions to MgmtCo. The amount of the transaction for "Receipt of capital contribution in SVF2 LLC and related adjustments" at the inception of the program is MgmtCo's Equity Acquisition Amount in SVF2 LLC, which consists of the amount calculated based on MgmtCo's Equity interests of 17.25% in the SVF2's initial acquisition costs of the relevant portfolio companies held by SVF2 LLC and related adjustments calculated based on 17.25% interest in the increase in the

portfolio companies' fair value from the initial acquisition costs at SVF2 to June 30, 2021, and the adjustment equivalent to interests for the period from the Company's contribution to SVF2 until June 30, 2021.

MgmtCo is entitled to make full or partial payment of its Equity Acquisition Amount at any point in time, at its discretion, from the date it became an investor in SVF2 LLC to the end of the company life of SVF2 LLC. MgmtCo is required to pay a premium of 3% per annum on the unpaid Equity Acquisition Amount until the unpaid amount is paid in full. "The premium received on SVF2 LLC's receivables" refers to the amount of such premium accrued in the current period. MgmtCo is also entitled to make full or partial payment of the premium at any point in time, at its discretion, on the same terms and conditions as Equity Acquisition Amount.

Any distributable amount from SVF2 LLC to MgmtCo is offset against the receivables at the time of the distribution notice and no distribution payments to MgmtCo are made until the SVF2 LLC's receivables are paid in full.

#### 4. Collateral and other credit protection for receivables

In order to secure the receivables of SVF2 LLC related to Equity Acquisition Amount and the premium thereon, all of the Equity interests in SVF2 LLC held by MgmtCo are pledged as collateral. In the event that MgmtCo pays into the receivables or offsets such receivables with distributions due to it from SVF2 LLC, the collateral is released to the extent that the cumulative amounts of payments and offsets exceed the balance of the receivables after deduction of such cumulative amounts. Masayoshi Son also provides a personal guarantee to the receivables up to the balance of the receivables. In addition, as of December 31, 2025, 8,897,100 shares of SoftBank Group Corp. are deposited in SVF2 LLC by Masayoshi Son. The deposited shares of SoftBank Group Corp. will be released only when the entire amount of receivables is settled. SVF2 LLC may acquire the deposited SoftBank Group Corp. shares without consideration where there are any unpaid receivables in SVF2 LLC after the enforcement of the collateral and personal guarantees by SVF2 LLC.

#### 5. MgmtCo's Equity interest in SVF2 LLC

The amount represents SVF2 LLC's net assets attributable to MgmtCo (before deduction of receivables), which is included in "Third-party interests in SVF" in the condensed interim consolidated statement of financial position.

#### 6. Management fee and performance-linked management fees to be charged to MgmtCo

The terms of the management fee and performance-linked management fee to be charged to MgmtCo are the same as those to be charged to the Company as an Equity investor in SVF2 LLC.

#### 7. Net balance at period end

Net balance at period end is the balance of receivables held by SVF2 LLC less MgmtCo's Equity interest in SVF2 LLC.

SVF2 has invested in OpenAI, which is subject to the co-investment program. For the investment, SVF2 borrowed funds from the Company, and 17.25% of both the principal and interest on the borrowing is guaranteed by Masayoshi Son, Representative Director, Corporate Officer, Chairman & CEO of SoftBank Group Corp. The total guaranteed amount by Masayoshi Son is \$1,099 million as of December 31, 2025.

The borrowing is scheduled to mature in April 2029 and may be early repaid by SVF2 at its discretion. The borrowing is secured by the preferred shares of OpenAI Group PBC converted in October 2025 from the convertible interest rights in OpenAI Global, acquired by SVF2 in April 2025. It is subordinated to other borrowings of SVF2 from financial institutions and others, but senior to the Preferred Equity contributed by the Company to SVF2 LLC. The interest rate on the borrowing has been determined with reference to a fair market rate provided by an independent external organization, assuming similar financing would have been conducted by SVF2 with entities outside of the group.

The borrowing and interest by SVF2 from the Company are eliminated in consolidation as inter-company transactions.

Furthermore, in February 2026, the entire outstanding amount of the loan was repaid using the proceeds from

newly issued preferred equity to the Company. As a result, the guarantee provided by Masayoshi Son in respect of the loan was released.

Notes:

1. Restrictions on rights of MgmtCo to receive distributions

MgmtCo's right to receive distributions from its investment is subject to certain restrictions. Distributions from SLA LLC to MgmtCo are fully restricted and are not paid until the sum of proceeds received by SLA LLC from realized investments plus the aggregate fair value of all of SLA LLC's unrealized investments (net of borrowings) exceeds 130% of the aggregate acquisition cost of all of SLA LLC's investments. After the ratio exceeds 130%, restrictions on distributions to MgmtCo are released proportionately in increments of 10%, and when the ratio reaches 200%, all restrictions are released and MgmtCo is entitled to receive the full amount of the distribution. In the event that, upon the liquidation of SLA LLC, the amount of the distributions received by MgmtCo exceeds the amount that would have been distributed to MgmtCo if the ratio in effect at the time of liquidation was applied throughout the life of SLA LLC, then any such excess amounts will be subject to clawback from MgmtCo.

2. Nature of the Equity contribution by MgmtCo

The Equity interests contributed by the Company and MgmtCo are subordinated to the Preferred Equity contributed separately by the Company to SLA LLC. If there is a shortfall in the amount of return of Preferred Equity contributions and the amount of fixed distributions to be received by the Preferred Equity holders at the time of the final profit distribution by SLA LLC, then MgmtCo is obligated to pay the shortfall proportional to Equity interests' ratio up to the total amount of return of Equity contributions and the distributions received by MgmtCo.

3. Balance at period end of receivables from MgmtCo for receipt of capital contribution and related adjustments

Balance at period end is the balance of SLA LLC's receivables which consists of the balance related to receipt of capital contribution, related adjustments, and premiums received. The amount of the transaction for "Receipt of capital contribution in SLA LLC and related adjustments" at the inception of the program is MgmtCo's Equity Acquisition Amount in SLA LLC, which consists of the amount calculated based on MgmtCo's Equity interests of 17.25% in the LatAm' initial acquisition costs of the portfolio companies held by LatAm and related adjustments calculated based on 17.25% interest in the increase in the portfolio companies' fair value from the initial acquisition costs at LatAm to June 30, 2021, and the adjustment equivalent

to interests for the period from the Company's contribution to LatAm until June 30, 2021.

MgmtCo is entitled to make full or partial payment of its Equity Acquisition Amount at any point in time, at its discretion, from the date it became an investor in SLA LLC to the end of the company life of SLA LLC. MgmtCo is required to pay a premium of 3% per annum on the unpaid Equity Acquisition Amount until the unpaid amount is paid in full. "The premium received on SLA LLC's receivables" refers to the amount of such premium accrued in the current period. MgmtCo is also entitled to make full or partial payment of the premium at any point in time, at its discretion, on the same terms and conditions as Equity Acquisition Amount.

Any distributable amounts from SLA LLC to MgmtCo are offset against the receivables at the time of the distribution notice and no distribution payments to MgmtCo are made until the SLA LLC's receivables are paid in full.

#### 4. Collateral and other credit protection for receivables

In order to secure the receivables of SLA LLC related to Equity Acquisition Amount and the premium thereon, all of the Equity interests in SLA LLC held by MgmtCo are pledged as collateral. In the event that MgmtCo pays into the receivables or offsets such receivables with distributions due to it from SLA LLC, the collateral is released to the extent that the cumulative amounts of payments and offsets exceed the balance of the receivables after deduction of such cumulative amounts. Masayoshi Son also provides a personal guarantee to the receivables up to the balance of the receivables. In addition, as of December 31, 2025, 2,168,500 shares of SoftBank Group Corp. are deposited in SLA LLC by Masayoshi Son. The deposited shares of SoftBank Group Corp. will be released only when the entire amount of receivables is settled. SLA LLC may acquire the deposited SoftBank Group Corp. shares without consideration where there are any unpaid receivables in SLA LLC after the enforcement of the collateral and personal guarantees by SLA LLC.

#### 5. MgmtCo's Equity interest in SLA LLC

The amount represents SLA LLC's net assets attributable to MgmtCo (before deduction of receivables), which is included in "Third-party interests in SVF" in the condensed interim consolidated statement of financial position.

#### 6. Management fee, performance-linked management fees, and performance fees to be charged to MgmtCo

The terms of the management fee, performance-linked management fees, and performance fee to be charged to MgmtCo are the same as those to be charged to the Company as an Equity investor in SLA LLC.

#### 7. Net balance at period end

## 17. Additional information

### (Investment in OpenAI)

On March 31, 2025, SoftBank Group Corp. entered into a definitive agreement with OpenAI to make follow-on investments in OpenAI of up to \$40.0 billion (subsequently increased up to \$41.0 billion in August 2025\*). After deducting \$10.0 billion to be syndicated to co-investors, SoftBank Group Corp.'s effective investment amount was \$30.0 billion.

Note:

\* On August 4, 2025, an amendment regarding the follow-on investments of up to \$40.0 billion was entered into. Under the amendment, the maximum investment amount was increased from \$40.0 billion to \$41.0 billion; however, the incremental \$1.0 billion was allocated exclusively to co-investors.

#### (1) Rationale for the transaction

With the center of the “Information Revolution” having evolved from personal computers, the Internet, and broadband to smartphones, it has now entered a new phase led by artificial intelligence (AI). In this context, the Company has declared its mission to realize Artificial Super Intelligence (ASI) for the advancement of humanity. Recognizing OpenAI as the partner closest to achieving Artificial General Intelligence (AGI), a key milestone on the path to ASI, and its mission of ensuring AGI benefits all of humanity, the Company has positioned OpenAI as its most important partner and invested through SVF2 since September 2024.

The advancement of OpenAI's AI models is key to achieving AGI and ASI, and massive computing power is essential. To that end, the Company has announced the “Stargate Project” together with OpenAI on January 21, 2025, to build dedicated AI infrastructure for OpenAI in the United States. In alignment with this initiative, and to both further support OpenAI's growth and capture the benefits of that growth in the Company's NAV (Net Asset Value: calculated as equity value of holdings – adjusted net interest-bearing debt), the Company has decided to make follow-on investments in OpenAI.

#### (2) Completion of the first closing and the related syndication

The first closing of \$10.0 billion was completed in April 2025, with \$2.5 billion of this being syndicated to co-investors and the remaining \$7.5 billion being invested by SVF2.

#### (3) Transfer of rights related to the second closing to SVF2

For the second closing, SoftBank Group Corp. resolved in September 2025 to make the investment through SVF2, as with the first closing. Accordingly, the right to make an additional investment in OpenAI was transferred from SoftBank Group Corp. to SVF2.

The transfer price was determined based on negotiation with reference to the corporate valuation by an independent third-party valuation agency, using the fair value as of the date of the transfer agreement.

In addition, in October 2025, SoftBank Group Corp. entered into an amendment agreement with OpenAI to enable the Company to make the full investment of an additional \$22.5 billion at the second closing regardless of whether certain conditions were satisfied, and subsequently the Company elected to make the

full investment through SVF2 in December 2025.

The right represents a right to make an additional investment in OpenAI at a specified future date under predetermined price and other terms, and therefore qualifies as a forward contract and, as such, a derivative financial asset. In addition, changes in fair value of the derivative up to the date of the transfer agreement are classified as “Gain on investments - Investment Business of Holding Companies,” while changes in fair value of the derivative from the date of the transfer agreement through the exercise date of the right are classified as “Gain on investments - SoftBank Vision Funds” in the condensed interim consolidated statement of profit or loss.

#### (4) Recapitalization of OpenAI Global

On October 28, 2025, OpenAI announced the completion of the recapitalization of the economic waterfall of OpenAI Global, pursuant to which stockholders will participate through a new public benefit corporation called OpenAI Group PBC. As a result of the recapitalization, the equity interests in OpenAI Global (convertible interest rights) were converted into preferred shares of OpenAI Group PBC, while employee vehicle units were converted into common shares.

SVF2, at the first closing, acquired equity interests (convertible interest rights) in OpenAI Global through a wholly-owned subsidiary and converted such subsidiary interests into preferred shares of OpenAI Group PBC by contributing them in kind to OpenAI Group PBC. As a result of losing control over the subsidiary, a gain of ¥159,805 million was recognized as “Other gain (loss)” in the condensed interim consolidated statement of profit or loss.

#### (5) Exercise of rights related to the second closing

On December 26, 2025, the Company exercised its right to make an additional investment in OpenAI, and including indirect investments, the full amount of the investment of ¥3,464,894 million (\$22.5 billion) relating to the second closing was completed. As a result, the derivative financial asset of ¥1,850,108 million (\$12.0 billion) was derecognized, and preferred shares of OpenAI Group PBC of ¥5,315,002 million (\$34.5 billion) were recognized.

Including the \$2.5 billion syndicated at the first closing, the entire \$11.0 billion syndication to co-investors was completed by the second closing.

#### (6) Impact on consolidated financial results

The preferred shares and common shares of OpenAI Group PBC held by SVF2 are classified as financial assets measured at fair value through profit or loss (FVTPL) and are presented in the condensed interim consolidated statement of financial position as “Investments of SVF (FVTPL).” Changes in their fair value are recorded in the condensed interim consolidated statement of profit or loss as “Gain on investments - SoftBank Vision Funds.”

**Accountant's Conclusion**

We have reviewed the condensed interim consolidated financial statements of SoftBank Group Corp. and its subsidiaries (the "Company") included in the Appendix to Consolidated Financial Report, namely, the condensed interim consolidated statement of financial position as of December 31, 2025, and the condensed interim consolidated statement of profit or loss and condensed interim consolidated statement of comprehensive income for the three-month and nine-month periods then ended, and the condensed interim consolidated statement of changes in equity and condensed interim consolidated statement of cash flows for the nine-month period then ended, and notes to the condensed interim consolidated financial statements.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements are not prepared, in all material respects, in accordance with Article 5-2 of the Tokyo Stock Exchange's standards for the preparation of quarterly financial statements, omitting certain disclosures under Article 5-5 of the Tokyo Stock Exchange's standards for the preparation of quarterly financial statements.

**Basis for Accountant's Conclusion**

We conducted our review in accordance with interim review standards generally accepted in Japan. Our responsibility under those standards is further described in the Accountant's Responsibility for the Review of the Condensed Interim Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the provisions of the Code of Professional Ethics in Japan, including the ethical requirements that are relevant to audits of the financial statements of public interest entities, and we have fulfilled our other ethical responsibilities as accountants. We believe that we have obtained the evidence to provide a basis for our review conclusion.

## **Responsibilities of Management and Audit & Supervisory Board Members and the Audit & Supervisory Board for the Condensed Interim Consolidated Financial Statements**

Management is responsible for the preparation of the condensed interim consolidated financial statements in accordance with Article 5-2 of the Tokyo Stock Exchange's standards for the preparation of quarterly financial statements, omitting certain disclosures under Article 5-5 of the Tokyo Stock Exchange's standards for the preparation of quarterly financial statements, and for such internal control as management determines is necessary to enable the preparation of condensed interim consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the condensed interim consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with Article 5-2 of the Tokyo Stock Exchange's standards for the preparation of quarterly financial statements, omitting certain disclosures under Article 5-5 of the Tokyo Stock Exchange's standards for the preparation of quarterly financial statements.

Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Company's financial reporting process.

## **Accountant's Responsibility for the Review of the Condensed Interim Consolidated Financial Statements**

Our objective is to issue an accountant's report that includes our conclusion.

As part of a review in accordance with interim review standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the review. We also:

- Make inquiries, primarily of management and persons responsible for financial and accounting matters, and apply analytical and other interim review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in Japan.
- Conclude whether nothing has come to our attention, based on the evidence obtained, related to going concern that causes us to believe that the condensed interim consolidated financial statements are not prepared, in all material respects, in accordance with Article 5-2 of the Tokyo Stock Exchange's standards for the preparation of quarterly financial statements, omitting certain disclosures under Article 5-5 of the Tokyo Stock Exchange's standards for the preparation of quarterly financial statements, if we conclude that a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our accountant's report to the related disclosures in the condensed interim consolidated financial statements or, if such disclosures are inadequate, to modify our conclusion. Our conclusions are based on the evidence obtained up to the date of our accountant's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate whether nothing has come to our attention that causes us to believe that the overall presentation and disclosures of the condensed interim consolidated financial statements are not prepared in accordance with Article 5-2 of the Tokyo Stock Exchange's standards for the preparation of quarterly financial statements, omitting certain disclosures under Article 5-5 of the Tokyo Stock Exchange's standards for the preparation of quarterly financial statements.
- Obtain evidence regarding the financial information of the entities or business units within the Company as a basis for forming a conclusion on the condensed interim consolidated financial statements. We are responsible for the direction, supervision and review of the interim review of the condensed interim consolidated financial statements. We remain solely responsible for our conclusion.

We communicate with Audit & Supervisory Board members and the Audit & Supervisory Board regarding the planned scope and timing of the review and significant findings that we identify during our review.

We also provide Audit & Supervisory Board members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

**Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan**

Our firm and its designated engagement partners do not have any interest in the Company which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.
